Hot Wheels HKX47

Hot Wheels Track Builder Toxic Super Jump Playset User Manual

Model: HKX47

Introduction

Welcome to the exciting world of Hot Wheels Track Builder! This manual provides essential information for setting up, operating, and maintaining your Hot Wheels Track Builder Toxic Super Jump Playset. Designed for dynamic track builds, this set allows for creative configurations and thrilling stunts. Please read this manual carefully before assembly and play to ensure a safe and enjoyable experience.
This playset is intended for children aged 4 years and up.

What's Included

Your Hot Wheels Track Builder Toxic Super Jump Playset includes the following components:

- 1 Hot Wheels Track Builder Toxic Super Jump track pack
- 1 Hot Wheels car in 1:64 scale
- 10 track-building components, including green, toxic-themed flippers, a jump ramp, and a landing ramp.
- 1 innovative modular storage box, which can also be integrated into track configurations.

Setup Instructions

Follow these steps to assemble your Hot Wheels Track Builder Toxic Super Jump Playset:

1. **Unpack Components:** Carefully remove all track pieces, flippers, ramps, the Hot Wheels car, and the modular storage box from the packaging.

Figure 2: Opening the modular storage box to access the track components.

2. **Connect Track Pieces:** Connect the orange track pieces together to form the desired length for your jump. Ensure connections are secure.
3. **Position Flippers and Ramps:** Attach the green, toxic-themed flippers, jump ramp, and landing ramp to the track. These components are designed to snap into place.

Figure 3: An example of a fully assembled track layout with flippers and ramps in place.

4. **Integrate Storage Box (Optional):** The modular storage box can be used as part of your track configuration. Experiment with different placements to create unique layouts.

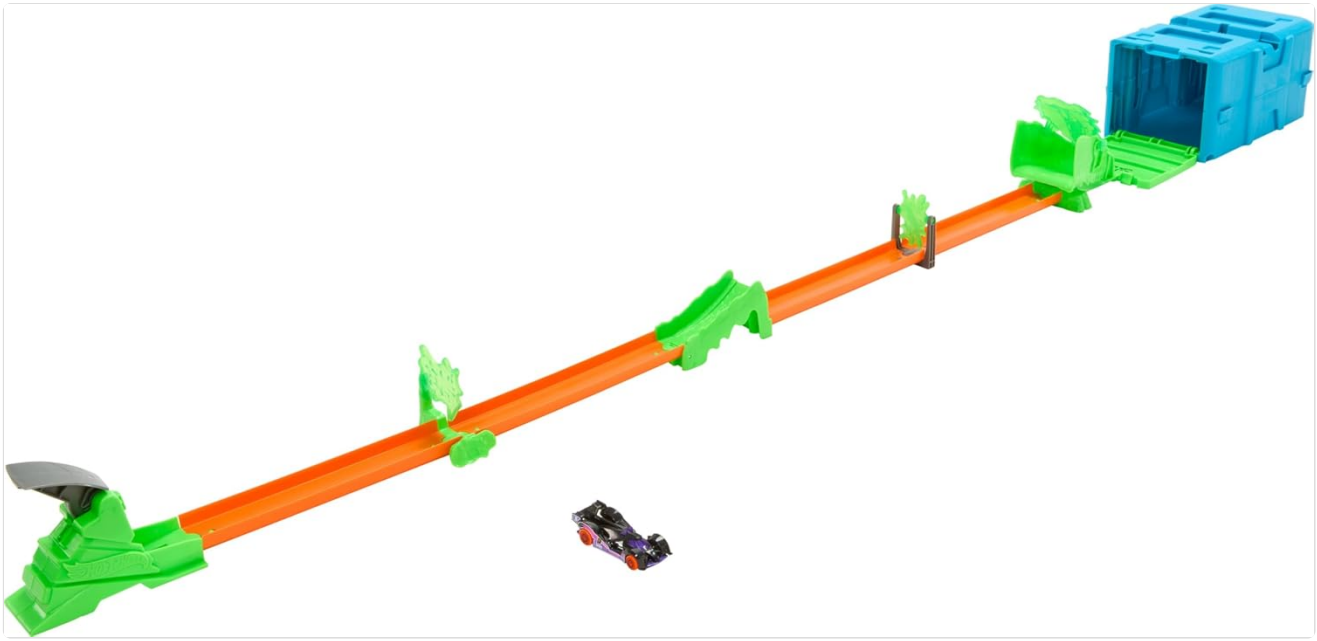

Figure 4: The modular storage box integrated into a track layout.

Note: Each track component is designed to be interchangeable with other Hot Wheels tracks and sets, allowing for expanded builds and creative combinations. (Additional sets sold separately.)

Operating Instructions

Once your track is assembled, you are ready to launch your Hot Wheels car and perform amazing jumps:

1. **Place Car:** Position the included 1:64 scale Hot Wheels car at the starting point of your track, typically before the jump ramp.
2. **Launch Car:** Use the launcher mechanism (if present) or manually push the car to send it speeding down the track.

Figure 5: Launching a Hot Wheels car down the track.

3. **Execute Jump:** Aim the car to launch it up the jump ramp, over any gaps, and down onto the landing ramp.
4. **Adjust Difficulty:** To increase the challenge, try increasing the distance between the jump ramp and the landing ramp. Experiment with different car speeds and angles for optimal performance.

Maintenance

To ensure the longevity and optimal performance of your Hot Wheels Track Builder Toxic Super Jump Playset, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down track pieces and cars with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the plastic.
- **Storage:** When not in use, store all components inside the modular storage box. This keeps all pieces together and protects them from dust and damage. The box is designed to stack with other Hot Wheels Track Builder boxes for

efficient storage.

- **Inspection:** Periodically inspect track connectors and ramps for any signs of wear or damage. Replace any broken or severely worn parts to maintain safe play.

Figure 6: The modular storage box, ideal for keeping all components organized.

Troubleshooting

If you encounter any issues with your playset, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car not completing the jump.	Insufficient speed; incorrect ramp alignment; too large a gap.	Ensure a strong launch. Check that ramps are securely connected and aligned. Reduce the distance between the jump and landing ramps.
Track pieces disconnect during play.	Pieces not fully snapped together; excessive force during play.	Press firmly on connectors until they click into place. Ensure play is not overly rough.
Car gets stuck on the track.	Debris on track; damaged track piece; car wheels are dirty.	Clean the track surface. Inspect track for bends or breaks. Clean car wheels.

Specifications

- **Model Number:** HKX47
- **Product Dimensions:** 5 x 10 x 6 inches (approximate, packaged)
- **Item Weight:** 5.5 ounces (approximate)
- **Recommended Age:** 4 years and up
- **Manufacturer:** Mattel
- **Release Date:** June 1, 2023
- **ASIN:** B0BHFDT5Y7
