

BLITZU Cyborg 200H

BLITZU Cyborg 200H USB-C Rechargeable LED Bike Headlight Instruction Manual

Model: Cyborg 200H | Brand: BLITZU

1. INTRODUCTION

The BLITZU Cyborg 200H is a high-visibility LED bike headlight designed to enhance cyclist safety during day and night riding. Utilizing advanced LED technology, this USB-C rechargeable light provides a wide-angle beam to ensure you are seen by others on the road. This manual provides essential information for the proper setup, operation, and maintenance of your Cyborg 200H headlight.

2. SAFETY INFORMATION

- This product is designed to enhance visibility and make you noticeable to others. It **is not intended to project strong path lighting** to illuminate the road ahead as a primary headlight.
- Always ensure the light is securely mounted before riding.
- Regularly check the battery level and charge the device as needed to maintain optimal visibility.
- The light is IPX5 water-resistant, meaning it can withstand splashes and light rain, but it is not designed for submersion.

3. PACKAGE CONTENTS

- BLITZU Cyborg 200H Bike Headlight
- USB-C Charging Cable
- Mounting Strap/Bracket
- Instruction Manual (this document)
- Warranty Card

4. SETUP AND INSTALLATION

The BLITZU Cyborg 200H features a tool-free installation process, allowing for quick and easy attachment to various parts of your bicycle or gear.

4.1 Mounting the Headlight

1. Identify a suitable mounting location on your bicycle, such as the handlebar, seat post, or helmet. The flexible mount is designed to fit various diameters.
2. Wrap the silicone strap around the desired mounting point.
3. Securely hook the strap into one of the notches on the light's base until it is firm and stable. The light can be mounted vertically or horizontally.
4. Adjust the light's hinge up or down to direct the beam as needed for optimal visibility.

Figure 2: BLITZU Cyborg 200H attached to a cycling helmet.

4.2 Installation Video

Video 1: This video demonstrates the BLITZU Cyborg 200H and 200T bike lights, showcasing their mounting options and visibility features for both front and rear use.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press and hold the power button located on the side of the light for approximately 2 seconds to turn the light ON or OFF.

5.2 Changing Lighting Modes

Once the light is ON, short press the power button to cycle through the 6 available lighting modes:

- Steady High (2 hours runtime)
- Steady Mid (4 hours runtime)
- Steady Low (8 hours runtime)
- High Flash (4 hours runtime)
- Low Flash (8 hours runtime)
- Strobe (6 hours runtime)

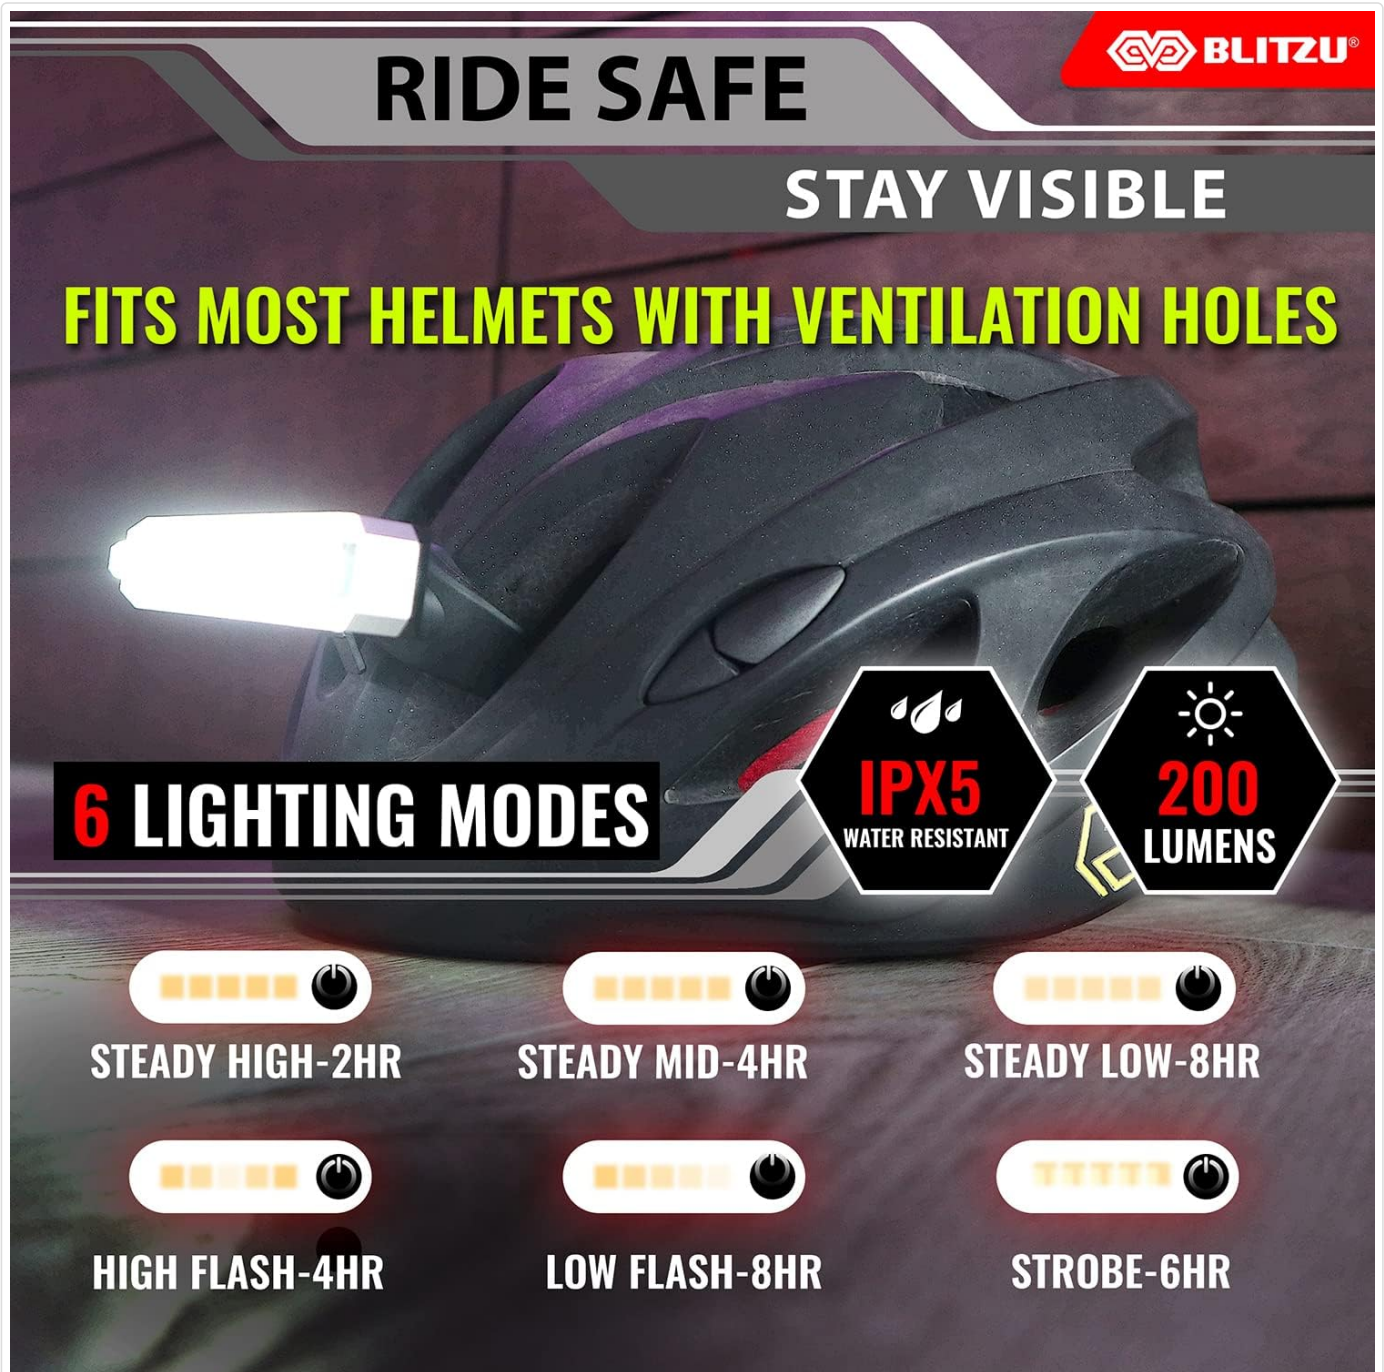

Figure 3: Overview of the 6 lighting modes and their approximate runtimes.

5.3 Charging the Battery

The Cyborg 200H is equipped with a USB-C charging port for convenient recharging.

1. Locate the USB-C port on the side of the light, usually protected by a rubber flap.
2. Gently open the rubber flap to expose the charging port.
3. Connect the provided USB-C charging cable to the light and plug the other end into a compatible USB power source (e.g., computer, wall adapter).

4. The charging indicator light will show the charging status. A full charge typically takes less than 1.5 hours.
5. Once fully charged, disconnect the cable and securely close the rubber flap to maintain water resistance.

Figure 4: The USB Type-C charging port on the BLITZU Cyborg 200H.

6. MAINTENANCE

- **Cleaning:** Wipe the light with a soft, damp cloth to remove dirt and debris. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the light in a cool, dry place when not in use. If storing for an extended period, charge the battery periodically (every 3-6 months) to prolong its lifespan.
- **Water Resistance:** Always ensure the USB-C port's rubber flap is securely closed to maintain the IPX5 water resistance.

7. TROUBLESHOOTING

- **Light does not turn on:** Ensure the battery is charged. Connect the light to a power source using the USB-C cable.
- **Light does not hold a charge:** Verify the charging cable and power source are functioning correctly. If the issue persists, contact customer support.
- **Light falls off during ride:** Re-check the mounting strap to ensure it is tightly secured to the bicycle frame or helmet.

8. SPECIFICATIONS

Feature	Detail
Model Name	Cyborg 200H
Brand	BLITZU
Brightness	200 Lumens
Power Source	Battery Powered (USB-C Rechargeable)
Material	Aluminum
