MERITLINE HZG-GX001803AAE

MERITLINE L Shaped Twin House Bed with Storage Drawers Instruction Manual

Model: HZG-GX001803AAE

Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your MERITLINE L Shaped Twin House Bed with 3 Storage Drawers. Please read this manual thoroughly before assembly and use to ensure safe and correct operation. Keep this manual for future reference.

Safety Information

- Always supervise children around the bed to prevent injury from sharp edges or falls.
- Do not exceed the weight capacity of 220 pounds per bed to ensure stability and prevent damage.
- Ensure all screws and fasteners are securely tightened before use and periodically check for looseness.
- Do not allow children to hang on the roof structure or guardrails, as this may compromise stability.
- Keep small parts away from children during assembly to prevent choking hazards.

Package Contents

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

- Bed frame components (Pine Wood + MDF)
- 3 Storage Drawers
- Slatted support system
- Assembly hardware (screws, bolts, etc.)
- Installation Manual (this document)
- Required tools (typically Allen wrench, screwdriver - included)

Note: This item typically ships in 2 separate packages and may not arrive simultaneously.

Setup and Assembly

Assembly requires two adults for optimal safety and efficiency. Follow the numbered steps provided in the included installation manual. Ensure you have ample space for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Identify Parts:** Refer to the parts list in the separate installation manual to identify each component.
3. **Assemble Bed Frames:** Begin by assembling the two individual twin bed frames according to the instructions. This typically involves attaching side rails to headboards and footboards.
4. **Install Slats:** Secure the wooden slats to each bed frame. Ensure they are evenly spaced and firmly attached to provide proper mattress support.
5. **Connect L-Shape Configuration:** Join the two assembled bed frames to form the L-shape. This step often requires two people to align and secure the connecting hardware.
6. **Attach Roof Structure:** Assemble and attach the house-shaped roof frame to the bed structure. This step is crucial for the bed's aesthetic and may require assistance to hold pieces in place while securing.
7. **Assemble Storage Drawers:** Construct the three storage drawers. Install the smooth glide wheels on the bottom of each drawer.
8. **Insert Drawers:** Slide the assembled drawers into their designated spaces underneath the bed frames.
9. **Final Tightening:** Once fully assembled, re-check all screws and bolts to ensure they are securely tightened. Do not overtighten.

Operating Instructions

The MERITLINE L Shaped Twin House Bed is designed for comfortable sleeping and efficient storage.

- **Mattress Placement:** Place two twin-sized mattresses directly onto the slatted bed bases. A recommended mattress thickness is 6 inches for optimal fit and safety with the guardrails.
- **Storage Drawers:** Utilize the three integrated drawers for storing bedding, clothing, toys, or other personal items. The drawers are equipped with smooth glide wheels for easy access.
- **Guardrail Functionality:** The bed features security guardrails to help prevent falls during sleep.
- **House Structure:** The house-shaped roof provides an aesthetic element and can be used for decorative purposes, such as hanging lightweight decorations or string lights. Do not hang heavy objects or allow climbing.

Maintenance

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically (e.g., monthly) inspect all screws, bolts, and fasteners to ensure they remain tight. Re-tighten any loose hardware to maintain structural integrity.
- **Drawer Maintenance:** Keep the drawer tracks clean and free of debris to ensure smooth operation. If drawers become stiff, a small amount of silicone lubricant can be applied to the wheels.
- **Wood Care:** Protect the wood from extreme temperature changes and direct sunlight to prevent warping or fading.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all screws and bolts. Ensure all connections are secure.
Drawers are difficult to open or close.	Debris in tracks, misaligned, or wheels need lubrication.	Clear tracks of debris. Verify drawers are correctly aligned. Apply silicone lubricant to wheels if necessary.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. If squeaking persists, disassemble and reassemble the affected section, ensuring all parts are correctly seated.
Missing parts during assembly.	Packaging error or lost during transit.	Contact MERITLINE customer support with your purchase details and the specific missing parts.

Specifications

UNIT INCH
