## 2. What's in the Box

Upon unboxing your CammPro I826, please verify that all the following components are included:

*Image displaying the CammPro I826 Body Camera and its accompanying accessories.*

- 1 x CammPro I826 Body Camera
- 1 x Epaulet Clip
- 1 x Charging Dock
- 1 x User Manual
- 1 x USB Cable
- 1 x Charger (Power Adapter)

# 3. Setup Guide

## 3.1 Initial Charging

Before first use, fully charge the camera. Connect the USB cable to the charging dock, then connect the dock to the power adapter and plug it into a wall outlet. Place the camera into the charging dock. The charging indicator light will show the charging status.

## 3.2 Powering On/Off

- **To Power On:** Press and hold the Power button until the screen illuminates.
- **To Power Off:** Press and hold the Power button until the shutdown prompt appears, then confirm.

## 3.3 Basic Settings

Upon first power-on, you may be prompted to set the date, time, and language. Navigate through the menu using the directional buttons and confirm selections with the OK button. Ensure the date and time are accurate for proper timestamping of recordings.

## 3.4 Password Protection

The CammPro I826 features password protection to prevent unauthorized access and changes to settings. It supports both password-enabled and password-free modes. To set up or disable password protection, navigate to the 'Security' or 'System Settings' menu option and follow the on-screen prompts.

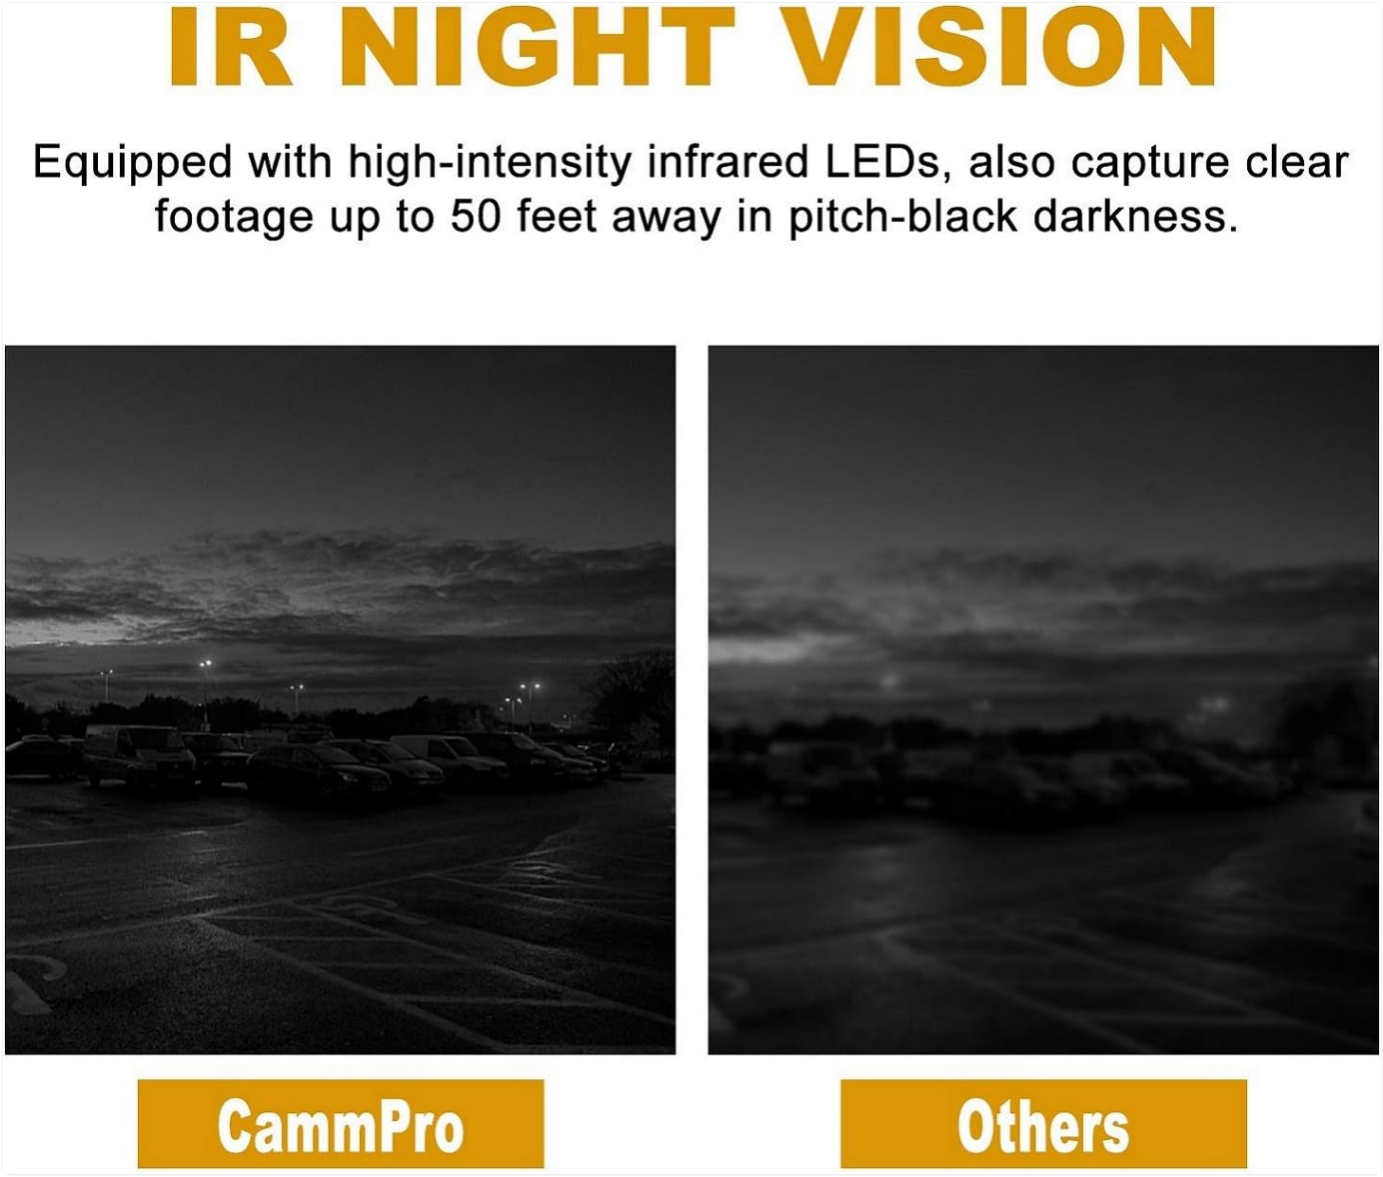

# 4. Operating Instructions

## 4.1 Video and Audio Recording

The CammPro I826 supports 1440P UHD video recording. To start recording, press the dedicated Record button. Press it again to stop. The camera also captures audio simultaneously with video. Ensure the microphone is not obstructed for clear audio.

## 4.2 Night Vision (IR)

Equipped with high-intensity infrared (IR) LEDs, the camera can capture clear footage up to 50 feet away in pitch-black darkness. The IR night vision can be set to automatic or manual activation via the camera's settings.

*Demonstration of the CammPro I826's superior IR night vision capabilities compared to other devices.*

## 4.3 GPS Functionality

The camera includes GPS capabilities to log location data with your recordings. This feature is crucial for documenting incident locations accurately. Ensure GPS is enabled in the settings for location tagging.

## 4.4 Battery Life and Monitoring

The CammPro I826 features a powerful 3500mAh battery, allowing for up to 14 hours of continuous recording. The 2-inch LCD monitor displays battery status, allowing you to monitor remaining power. For extended operations, ensure the camera is fully charged.

*Image highlighting the long battery life of the CammPro I826, capable of up to 14 hours of recording.*

## 4.5 Internal Memory

The camera comes with a built-in 64GB memory, providing ample storage for extensive video and audio recordings throughout your shifts.

### 4.6 Ambarella H22 Chipset

The CammPro I826 Pro integrates the latest Ambarella H22 high-performance chipset, ensuring superior video processing, image quality, and overall system efficiency.

### 4.7 Reviewing Recordings

Use the 2-inch LCD monitor to instantly watch back previous recordings directly on the device. Navigate through files using the menu buttons.

## 5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your CammPro I826 body camera.

### 5.1 Cleaning

- Gently wipe the camera body with a soft, damp cloth.
- For the lens, use a specialized lens cleaning cloth and solution to avoid scratches.
- Do not use harsh chemicals or abrasive materials.

## 5.2 Storage

Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. When storing for extended periods, ensure the battery is partially charged (around 50%) to preserve battery health.

## 5.3 Durability and Waterproofing

The CammPro I826 is built to withstand harsh weather and working conditions. While rugged and durable, avoid intentional submersion in water beyond its specified waterproof rating. Always ensure port covers are securely closed to maintain water resistance.

*The CammPro I826 is designed to be rugged and withstand various environmental conditions, including rain and extreme temperatures.*

## 6. Troubleshooting

If you encounter issues with your CammPro I826, please refer to the following common problems and solutions:

- **Camera not powering on:** Ensure the battery is charged. Connect to the charger and try again.
- **Recording issues (e.g., freezing, corrupted files):** Check if the memory is full. Try formatting the internal memory (this will erase all data). Ensure the firmware is up to date.
- **Poor video quality:** Clean the lens. Ensure you are recording in the desired resolution (e.g., 1440P).
- **GPS not acquiring signal:** Ensure the camera has a clear view of the sky. GPS signal acquisition may take a few minutes.

For more complex issues or persistent problems, please contact MM CAMMPRO customer support.

## 7. Specifications
