

Voweeek VC10

Voweeek HEPA Filter Replacement for VW-VC10 Instruction Manual

1. PRODUCT OVERVIEW

This document provides instructions for the Voweeek HEPA Filter Replacement, designed for use with the Voweeek VW-VC10 vacuum cleaner. The HEPA filter is an essential component for maintaining air quality by capturing fine particles during vacuum operation.

Effectively Captures 99.99% Particles

Dust

Pet Hair

Sneeze

Image 1: The Vowee HEPA filter is designed to effectively capture 99.99% of particles, including dust, pet hair, and allergens, improving air quality during vacuuming.

The filter is engineered to capture microscopic particles, contributing to a cleaner home environment. Regular maintenance and timely replacement are crucial for optimal performance of your vacuum cleaner.

2. INSTALLATION INSTRUCTIONS

Follow these steps to correctly install the Vowee HEPA filter into your VW-VC10 vacuum cleaner:

1. **Remove the Dust Cup:** Disconnect the dust cup from the main body of the VW-VC10 vacuum cleaner. Refer to your vacuum cleaner's manual for specific instructions on dust cup removal.

2. **Remove the Old Filter:** Locate the existing HEPA filter inside the dust cup. Gently twist or pull to remove the old filter. Dispose of the old filter responsibly.
3. **Insert the New Filter:** Place the new Voweek HEPA filter into the designated slot within the dust cup. Ensure it is seated firmly and correctly to prevent air leaks.
4. **Reattach the Dust Cup:** Securely reattach the dust cup to the vacuum cleaner body until it clicks into place.

Regular clean HEPA Filter at least three times a week and replace it once a month to maintain the maximum suction.

Image 2: Visual guide demonstrating the process of removing the dust cup, replacing the filter, washing the filter under running water, and allowing it to air dry.

3. OPERATING CONSIDERATIONS

Once installed, the HEPA filter operates automatically as part of your VW-VC10 vacuum cleaner's filtration system. It continuously filters the air passing through the vacuum, trapping fine particles and preventing them from being released back into your environment. No specific user action is required for the filter to function during vacuum operation.

4. MAINTENANCE

To ensure the longevity and optimal performance of your Voweek HEPA filter and vacuum cleaner, regular maintenance is recommended:

- **Regular Cleaning:** It is recommended to clean the HEPA filter at least three times a week. To clean, remove the filter from the dust cup and rinse it under running water until the water runs clear.
- **Drying:** After washing, allow the filter to air dry completely before reinserting it into the vacuum cleaner. Do not use heat to dry the filter, as this may damage the material. Ensure it is thoroughly dry to prevent mold or mildew growth and maintain filtration efficiency.
- **Replacement Schedule:** For maximum suction power and filtration efficiency, replace the HEPA filter once a month. Frequent replacement ensures consistent performance and air quality.

Refer to Image 2 for a visual guide on cleaning the filter.

5. TROUBLESHOOTING

If you experience a decrease in your vacuum cleaner's suction power, the HEPA filter may be clogged. Follow these steps:

- **Check for Clogs:** Remove the filter and inspect it for excessive dust or debris buildup.
- **Clean the Filter:** If the filter appears dirty, clean it thoroughly as described in the "Maintenance" section.
- **Replace the Filter:** If cleaning does not restore suction, or if the filter is visibly damaged or heavily soiled beyond cleaning, replace it with a new Voweek HEPA filter.

A clean filter is crucial for maintaining optimal vacuum performance.

6. SPECIFICATIONS

Attribute	Detail
Brand	Voweek
Model Number	VC10
Compatible Devices	Voweek VW-VC10 Vacuum Cleaner
Material	HEPA
Reusability	Reusable (washable)
Number of Pieces	2 (typically sold in packs of two)
Product Dimensions	2.54 x 5.08 x 2.54 cm (59 g) / 25L x 51W x 25H millimetres
Manufacturer	VOWEEK

7. WARRANTY AND SUPPORT

For information regarding warranty coverage or technical support for your VoweeK HEPA filter or VW-VC10 vacuum cleaner, please refer to the documentation provided with your original vacuum cleaner purchase or visit the official VoweeK website. This instruction manual focuses solely on the usage and maintenance of the replacement filter.
