› LUXFURNI Large Hollywood Vanity Mirror with Lights (Model: B0BHQJHS8L) - Instruction Manual

LUXFURNI B0BHQJHS8L

LUXFURNI Large Hollywood Vanity Mirror with Lights

MODEL: B0BHQJHS8L

Important Safety Information

Please read all instructions carefully before using your LUXFURNI Hollywood Vanity Mirror. Keep this manual for future reference.

- **CAUTION:** Handle with care to avoid breakage.
- Mount using appropriate hardware and techniques to prevent falling.
- Keep away from heat sources and sharp objects.
- In case of breakage, clean up carefully to avoid injury.
- Ensure the mirror is placed on a stable, flat surface if not wall-mounted.
- Do not expose to excessive moisture or direct water spray.

Product Overview

The LUXFURNI Hollywood Vanity Mirror is designed to provide optimal lighting for makeup application and personal grooming. It features 12 dimmable LED bulbs, smart touch controls, and three adjustable color lighting modes.

Setup Instructions

1. **Unboxing:** Carefully remove the mirror and its components from the packaging. Inspect for any damage. Keep all packaging materials until you are satisfied with the product.
2. **Base Assembly:** The mirror comes with a detachable base. Align the mirror frame with the slots on the base. Secure the mirror to the base using the provided screws and tools. Ensure the connection is firm and stable.
3. **Placement:** Place the assembled mirror on a flat, stable surface such as a vanity table or dresser. Ensure there is adequate space around the mirror for comfortable use.
4. **Power Connection:** Connect the provided USB-DC cable to the mirror's power input port, typically located at the back or bottom of the mirror. Plug the other end into a compatible USB power adapter (not always included) or a USB port.

Achieve your perfect look from any angle

Operating Instructions

The LUXFURNI Vanity Mirror features intuitive smart touch controls located on the mirror surface.

Tap To Adjust Brightness Levels

The Next Best Thing To Natural Sunlight

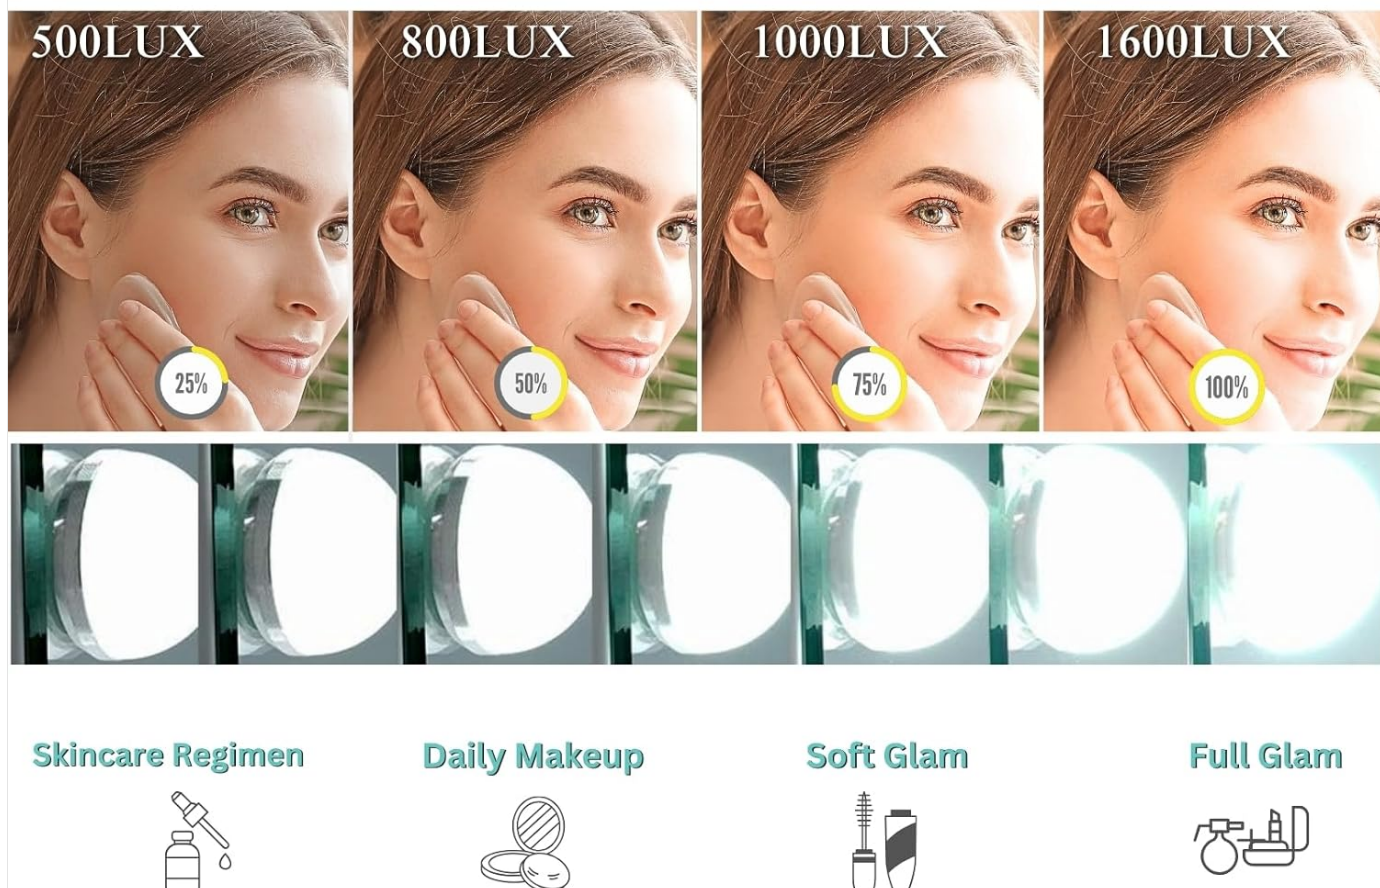

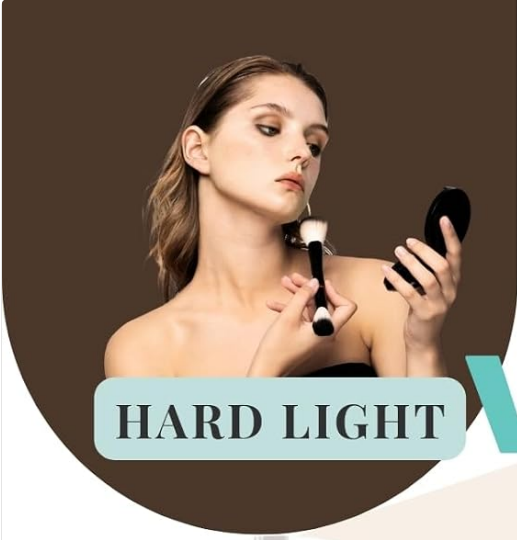

Figure 3: Smart touch controls for power, brightness, and color temperature settings.

- Power On/Off:** Tap the power icon (usually a circle) on the mirror surface to turn the lights on or off.
- Adjusting Brightness:** With the lights on, tap the brightness icon (usually represented by lines or a sun symbol) to cycle through the 4 dimmable brightness presets. Alternatively, press and hold the brightness icon to smoothly adjust the intensity.
- Changing Color Temperature:** Tap the 'K' icon (for Kelvin) to switch between the three color lighting modes:
 - **Warm White (2700-3100K):** Ideal for evening makeup or romantic settings.
 - **Neutral (3900-4200K):** Suitable for office or daily looks.
 - **Cool White (5000-6500K):** Best for outdoor events or detailed makeup application.
- Memory Function:** The mirror is equipped with a smart memory function that automatically saves your last used brightness and color temperature settings for convenience.

Maintenance

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to avoid liquid seeping into the electrical components. Wipe gently until clean and streak-free.
- **Cleaning the Frame:** Wipe the frame with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive materials.
- **Bulb Care:** The LED bulbs are integrated and designed for long-term use. Do not attempt to replace them. If a bulb malfunctions, contact customer support.
- **Storage:** If storing the mirror, ensure it is in a dry, safe place, protected from impacts and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Lights do not turn on.	No power connection or faulty power source.	Ensure the USB-DC cable is securely connected to both the mirror and a working power adapter/USB port. Try a different power source.
Touch controls are unresponsive.	Temporary software glitch or dirty sensor.	Unplug the mirror, wait 30 seconds, then plug it back in. Clean the touch sensor area with a soft, dry cloth.
Lights are flickering.	Unstable power supply or loose connection.	Check power connections. Try a different power adapter or USB port. Ensure the power source meets the mirror's requirements.
Mirror appears distorted or blurry.	Dirty mirror surface or protective film still present.	Clean the mirror surface thoroughly. Ensure all protective films have been removed from the mirror glass.

Specifications

- **Brand:** LUXFURNI
- **Model:** B0BHQJHS8L
- **Product Dimensions:** 23.2"L x 17.2"W
- **Frame Material:** Engineered Wood
