4. SETUP

4.1 Attaching the Brush Head

1. Align the brush head with the metal shaft on the toothbrush handle.
2. Push the brush head down firmly until it clicks into place.

Image 3: Two types of brush heads included: extra soft and color-fade reminder bristles.

4.2 Charging the Toothbrush

The toothbrush features a long-lasting battery. A full charge takes approximately 4 hours and can provide up to 60 days of use (based on 2 minutes of brushing, twice daily).

1. Locate the charging port at the bottom of the toothbrush handle.
2. Insert the provided USB charger cable into the port.
3. Connect the other end of the USB cable to a compatible USB power adapter (not included) or a USB port.
4. The indicator light will show charging status.

4.3 Personalizing with DIY Stickers

The toothbrush comes with DIY alphabet stickers for personalization.

1. Carefully peel off the desired alphabet stickers from the sheet.
2. Apply the stickers to the toothbrush handle as desired.

6.2 Replacing Brush Heads

It is recommended to replace brush heads every 3 months, or sooner if bristles become frayed. The color-fade reminder bristles will indicate when it's time for replacement.

1. Twist the old brush head counter-clockwise to remove it from the handle.
2. Align a new brush head with the metal shaft and twist clockwise until it locks into place.

Image 9: Color-fade bristles serve as a reminder to replace the brush head.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Toothbrush does not turn on.	Low battery or not charged.	Charge the toothbrush for 4 hours.
Vibration is weak.	Low battery.	Recharge the toothbrush.
Brush head feels too hard/soft.	Incorrect mode selected or wrong brush head type.	Cycle through modes to find a comfortable setting. Ensure the correct brush head (extra soft or regular) is attached for the user's age/preference.
