Luqeeq B0BHRGZ7RS

Luqeeq Light Bulb Security Camera Instruction Manual

Model: B0BHRGZ7RS

1. INTRODUCTION

Thank you for choosing the Luqeeq Light Bulb Security Camera. This manual provides detailed instructions for the installation, operation, and maintenance of your new security camera. Please read this manual thoroughly before use to ensure proper functionality and safety.

Image: Front view of the Luqeeq Light Bulb Security Camera.

Key Features:

- **1080P HD Resolution & Night Vision:** Provides clear video footage with 360-degree panoramic view, including both normal and full-color night vision modes.
- **Dual-Band Wi-Fi Support:** Compatible with both 2.4GHz and 5G band routers for flexible and stable connectivity.
- **Two-Way Voice Intercom:** Built-in microphone and speaker allow for real-time communication.
- **Motion Detection:** Equipped with a sensitive motion sensor to alert you of changes via the mobile application.
- **Easy Installation:** Designed for installation into a standard E27 bulb base (110V-240V).
- **Triple Encryption:** Enhanced privacy protection for your data.

2. PRODUCT COMPONENTS

Before proceeding with installation, please ensure all components are present and in good condition.

- Luqeeq Light Bulb Security Camera

- E27 Lamp Holder (if included, check packaging)
- Mounting Screws and Wall Plugs (if included)
- Reset Pin (if included)
- Instruction Manual (this document)

3. INSTALLATION

3.1 Physical Installation

1. **Power Off:** Ensure the power to the light fixture is turned off at the circuit breaker before installation to prevent electrical shock.
2. **Screw In:** Carefully screw the Luqeeq Light Bulb Security Camera into a standard E27 bulb base (110V-240V). Ensure it is securely tightened.
3. **Adjust Position:** If using an external E27 lamp holder, position it to achieve the desired viewing angle.
4. **Power On:** Restore power to the light fixture. The camera will power on and initiate its startup sequence.

Triple encryption privacy masking function

3.2 App Download and Connection

1. **Download App:** Search for the designated mobile application (refer to packaging or quick start guide for app name) on your smartphone's app store (iOS or Android) and install it.
2. **Register Account:** Open the app and follow the on-screen instructions to register a new user account.
3. **Add Device:** Select "Add Device" or a similar option within the app.
4. **Connect to Wi-Fi:** Follow the app's prompts to connect the camera to your Wi-Fi network. The camera supports both 2.4GHz and 5G Wi-Fi bands. This process may take approximately 40 seconds for the initial connection.
5. **Configuration:** Once connected, you can name your camera and adjust initial settings.

5G dual-band

Built-in 5 g module, wiring, without having to install broadband electric box

Image: Illustration showing the camera's 5G dual-band capability, indicating support for both 2.4GHz and 5G Wi-Fi networks.

4. OPERATING INSTRUCTIONS

4.1 Live View and 360-Degree Control

Access the live feed of your camera through the mobile application. You can remotely control the camera's rotation to achieve a full 360-degree panoramic view, eliminating blind spots.

360 ° all-round perspective

Large Angle of 360 ° full video, wide-angle picture

Mobile control rotation, look where you want to see

Image: A smartphone screen illustrating the 360-degree panoramic view feature, allowing users to pan and tilt the camera remotely.

4.2 Two-Way Voice Intercom

Utilize the built-in microphone and speaker to communicate with individuals near the camera. This feature is useful for speaking with visitors, family members, or deterring unwanted guests.

like the two-way radio

Camera integrated microphone and speaker
Support two-way voice intercom
Distance can also love family, with pets, scared away the thief

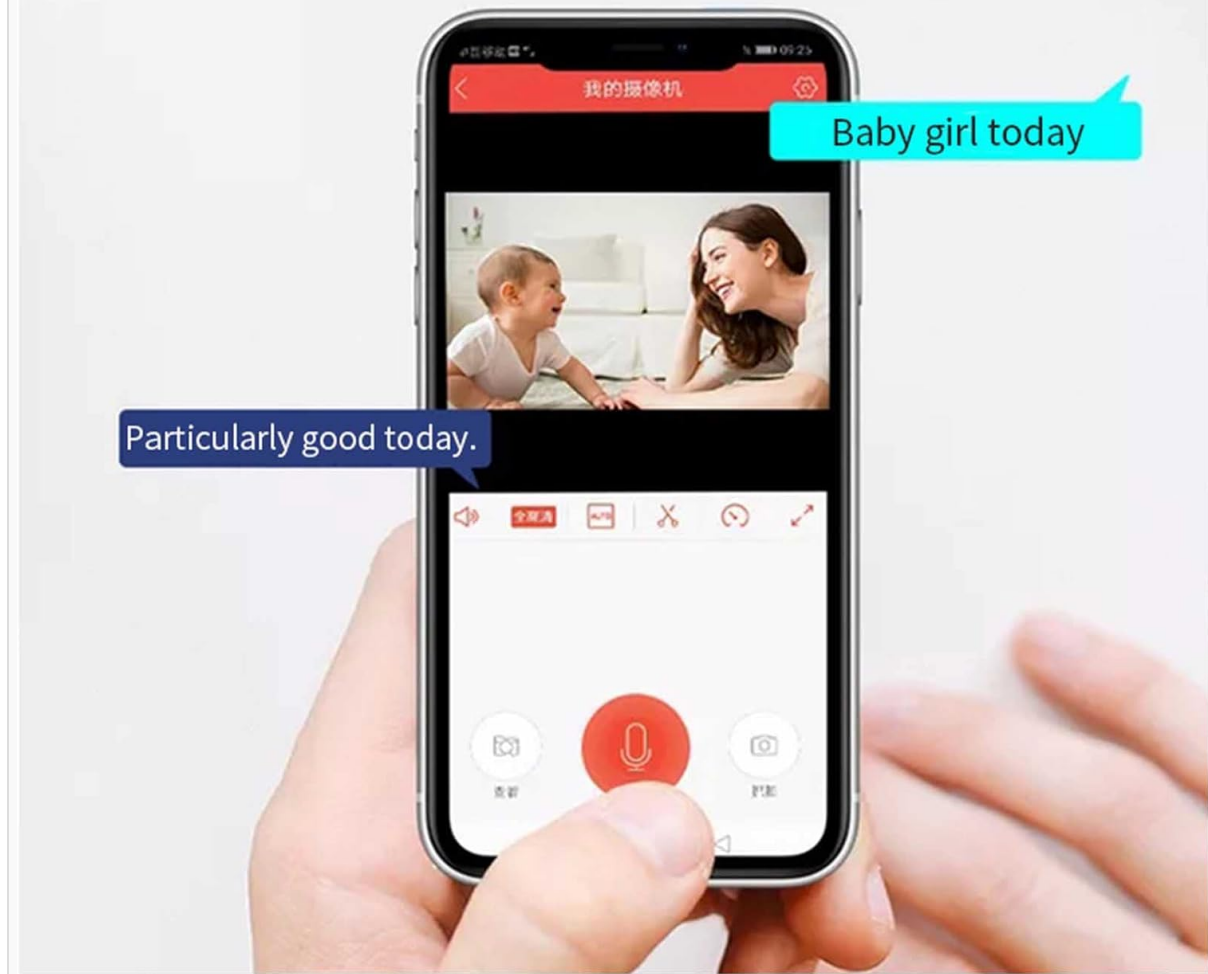

Image: A smartphone screen showing the two-way voice intercom feature, with speech bubbles indicating communication between the user and someone near the camera.

4.3 Motion Detection and Alerts

The camera's sensitive motion sensor can detect movement within its field of view. When motion is detected, the app will send notifications to your smartphone, allowing you to monitor activity in real-time.

Image: An illustration depicting the 360-degree track detection alarm, showing detected objects triggering an alert on a mobile phone app.

4.4 Night Vision Modes

The camera offers enhanced visibility in low-light conditions with two night vision options:

- **Normal Night Vision:** Provides clear black and white images in complete darkness using infrared technology.
- **Full-Color Night Vision:** Utilizes integrated white lights to provide color images even at night.

High-definition panoramic camera

Super wide Angle, clear image quality is exquisite

Image: A comparison demonstrating the difference between full-color night vision and normal (infrared) night vision, showing a clearer, colored image with the former.

Image: An illustration detailing the camera's LED lamp beads and infrared lamp, highlighting their function in providing illumination and night vision.

5. DATA STORAGE & PRIVACY

5.1 Local Storage

The camera supports local storage via a memory card (16-128GB, not included). This allows for continuous recording and loop playback of high-definition video footage.

Image: An illustration showing the camera with a memory card icon and a filmstrip, indicating support for 16-128GB memory extension for continuous recording and playback.

5.2 Data Security

The camera incorporates a triple encryption privacy masking function to protect your video data and personal information. Ensure you set strong passwords for the software and device.

Image: An illustration of a smartphone with a padlock and chains, representing the triple encryption privacy masking function, with labels for software password, device password, and another device password.

6. MAINTENANCE

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the surface or lens.
- **Firmware Updates:** Periodically check the mobile application for available firmware updates to ensure optimal performance and security.
- **Environmental Conditions:** While rated IP67, avoid exposing the camera to extreme temperatures, direct water immersion, or excessive humidity to prolong its lifespan.

7. TROUBLESHOOTING

Camera not connecting to Wi-Fi:

- Ensure your Wi-Fi network is active and the camera is within range.
- Verify that you have entered the correct Wi-Fi password.
- Confirm your router supports 2.4GHz or 5G bands, and the camera is attempting to connect to a compatible band.
- Try restarting your router and the camera.
- If initial connection fails, try resetting the camera (refer to the quick start guide for reset instructions, usually involving a reset pin).

Poor image quality:

- Clean the camera lens with a soft cloth.
- Ensure adequate lighting in the area, especially for full-color night vision.
- Check your internet connection speed; a slow connection can affect streaming quality.

Motion detection alerts not working:

- Verify that motion detection is enabled in the app settings.
- Check the sensitivity settings; adjust if necessary.
- Ensure the app has permission to send notifications on your smartphone.

Two-way audio issues:

- Ensure your phone's microphone and speaker are functioning correctly.
- Check the volume settings in the app and on your phone.
- Minimize background noise for clearer communication.

8. SPECIFICATIONS

Feature	Detail
Model Number	B0BHRGZ7RS
Video Capture Resolution	1080p
Maximum Webcam Image Resolution	2 MP
Connectivity Technology	Wireless
Wi-Fi Bands Supported	2.4GHz, 5G
Special Features	Motion Sensor, Night Vision (Normal & Full Color), Two-Way Voice
Indoor/Outdoor Usage	Indoor, Outdoor
International Protection Rating	IP67
Mounting Type	Wall Mount
Power Input	110V-240V (E27 Bulb Base)
Item Weight	8.3 ounces
Package Dimensions	6.89 x 3.23 x 3.19 inches

Feature	Detail
Focus Type	Auto Focus, Manual Focus
Alert Type	Motion Only
Video Capture Format	MPEG-4

9. WARRANTY AND CUSTOMER SUPPORT

For warranty information, technical support, or any inquiries regarding your Luqeeq Light Bulb Security Camera, please contact Luqeeq customer service through the retailer where the product was purchased or refer to the official Luqeeq website for contact details.

Please have your model number (B0BHRGZ7RS) and purchase details ready when contacting support.
