## TNTOR WT-H230P

# TNTOR Thin USB C Portable Charger User Manual

Model: WT-H230P

## 1. INTRODUCTION

Thank you for choosing the TNTOR Thin USB C Portable Charger. This ultra-slim power bank is designed for convenient, on-the-go charging of your USB-C compatible devices, including iPhone 15/16 series and various Android phones. Its compact size and built-in cable make it an ideal companion for daily use, travel, and emergencies.

## 2. PRODUCT OVERVIEW & FEATURES

The TNTOR Portable Charger (Model: WT-H230P) is engineered for portability and efficiency. Key features include:

- **Ultra Slim Design:** Credit card-sized (3.9 x 2.83 x 0.22 inches) and weighing only 3.35oz, it fits easily into pockets, pouches, or wallets.
- **Built-in USB-C Cable:** Eliminates the need to carry an extra charging cable for your devices.

- **3500mAh Capacity:** Provides emergency power, capable of charging a phone approximately 0.7 times.
- **LED Indicator Lights:** Four LED lights indicate the remaining battery level (0%, 30%, 60%, 100%).
- **Safety Protections:** Intelligent Control Circuit protects against over-charging, over-current, over-voltage, and short circuits.

## 3. SETUP

### 3.1 Initial Charging of the Power Bank

Before first use, it is recommended to fully charge your TNTOR Portable Charger. This ensures optimal performance and battery longevity.

1. Locate the USB-C input port on the side of the power bank.
2. Connect the provided USB-A to USB-C charging cable to the power bank's input port.
3. Plug the USB-A end of the cable into a compatible USB wall adapter (not included) or a computer's USB port.
4. The LED indicator lights on the power bank will illuminate and blink to show charging progress. All four lights will be solid when fully charged.

A full charge typically takes approximately 2-5 hours, depending on the power source.

## 4. OPERATING INSTRUCTIONS

### 4.1 Charging Your Device

The TNTOR Portable Charger features a convenient built-in USB-C cable for direct connection to your compatible smartphone or other devices.

1. Gently pull out the built-in USB-C cable from its storage slot on the power bank.
2. Insert the USB-C connector into your device's charging port.
3. The power bank will automatically begin charging your device. The LED indicators will show the power bank's remaining charge.
4. To stop charging, simply disconnect the cable from your device.

Image: A user comfortably holding both their iPhone and the TNTOR power bank in one hand, illustrating the ease of use even while charging.

## 4.2 Checking Battery Level

To check the remaining battery level of your TNTOR Portable Charger, simply press the power button located on the side. The four LED indicator lights will illuminate to show the current charge status:

- 1 LED: 0-25% charge remaining
- 2 LEDs: 25-50% charge remaining

- 3 LEDs: 50-75% charge remaining
- 4 LEDs: 75-100% charge remaining

## 5. MAINTENANCE

Proper care and maintenance will extend the lifespan of your TNTOR Portable Charger.

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Charging Frequency:** If not used for extended periods, charge the power bank at least once every three months to maintain battery health.
- **Avoid Drops:** While durable, avoid dropping the power bank or subjecting it to strong impacts.

## 6. TROUBLESHOOTING

If you encounter issues with your TNTOR Portable Charger, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Power bank not charging.	Charging cable or adapter faulty; power bank fully charged; input port issue.	Try a different USB-C cable and wall adapter. Ensure the connection is secure. Check if all LED lights are solid, indicating a full charge.
Device not charging from power bank.	Power bank battery low; built-in cable not fully inserted; device incompatibility.	Recharge the power bank. Ensure the built-in USB-C cable is firmly connected to your device. Verify your device is USB-C compatible.
Slow charging.	Device drawing high power; cable or port issue; environmental factors.	Ensure your device is not running power-intensive applications. Try disconnecting and reconnecting the cable. Charging speed can vary based on device and ambient temperature.
LED indicators not working.	Power bank completely drained; internal malfunction.	Attempt to charge the power bank for several hours. If still unresponsive, contact customer support.

If the problem persists after trying these solutions, please contact TNTOR customer support for further assistance.

## 7. SPECIFICATIONS

Feature	Detail
Brand	TNTOR
Model Number	WT-H230P
Product Dimensions	3.9 x 2.83 x 0.22 inches
Item Weight	3.35 ounces
Battery Capacity	3500 Milliamp Hours (mAh)
Battery Type	1 Lithium Polymer battery required
Connector Type	USB Type C (Built-in)
Special Features	Built-in Cable, LED Indicator Lights, Lightweight, Pocket Size, Slim
Manufacturer	Shenzhen LDTEK Technology Co., Ltd
Date First Available	October 10, 2022

## 8. WARRANTY AND SUPPORT

TNTOR offers a **1-Year Warranty** for any problems concerning the charger. This warranty covers manufacturing defects and ensures your satisfaction with the product.
