## 1. OVERVIEW

This manual provides instructions for the Fastrack Stunners Quartz Analog Watch, Model NR3291SL01. This timepiece features a grey dial, brown leather strap, and is designed for everyday wear. It operates with a quartz movement and offers water resistance up to 50 meters.

## 2. PRODUCT FEATURES

- **Stylized Grey Dial:** Features a gradient texture and patterned segments for a distinct aesthetic.
- **Clean Design:** Minimal hour markers and logo placement ensure a clutter-free appearance.
- **Brown Leather Strap:** Provides classic warmth and comfort.
- **Versatile Wear:** Suitable for various occasions, from formal to casual.
- **Slim Silver Bezel:** Enhances the dial with a refined, modern edge.
- **Quartz Movement:** Ensures accurate timekeeping.
- **50m Water Resistance:** Suitable for everyday use and short periods in water.

## Product Video Overview & Size Guide

This video provides a detailed overview of the Fastrack Stunners watch, highlighting its design, materials, and key features like water resistance and movement type. It also includes a quick guide on dial size and wrist measurement for optimal fit.

## 3. SETUP

### 3.1 Setting the Time

1. Locate the crown on the right side of the watch case.
2. Gently pull the crown outwards to the time-setting position. You may feel a slight click.
3. Rotate the crown clockwise or counter-clockwise to adjust the hour and minute hands to the correct time.
4. Once the time is set, push the crown back into its original position to start the watch movement.

### 3.2 Adjusting the Strap

The watch features a brown leather strap with a buckle clasp. To adjust the fit:

1. Thread the end of the strap through the buckle.
2. Insert the buckle pin into the desired hole on the strap for a comfortable fit.
3. Ensure the watch is snug but not too tight on your wrist to allow for proper circulation.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Timekeeping

The Fastrack Stunners watch uses a reliable quartz movement for accurate time display. No winding is required as it is battery-powered.

### 4.2 Water Resistance

This watch is water resistant up to 50 meters (5 ATM). This means it is suitable for everyday use, including splashes, rain, and brief immersion in water. It is **not** recommended for swimming, diving, or prolonged water activities. Ensure the crown is fully pushed in before any contact with water.

## 5. MAINTENANCE

---

### 5.1 Cleaning Your Watch

- Wipe the watch case and crystal with a soft, dry cloth to remove dust and fingerprints.
- For the leather strap, avoid excessive moisture. If it gets wet, allow it to air dry naturally, away from direct heat.
- Do not use chemical cleaners or abrasive materials, as these can damage the watch's finish or strap.

### 5.2 Battery Replacement

When the watch stops running, it indicates that the battery needs replacement. It is recommended to have the battery replaced by an authorized service center to ensure proper sealing and maintain water resistance.

### 5.3 Storage

Store your watch in a cool, dry place, away from direct sunlight, extreme temperatures, and strong magnetic fields when not in use.

## 6. TROUBLESHOOTING

---

### 6.1 Watch Not Running

- Check if the crown is fully pushed in. If it is pulled out, the watch will not run.
- The battery may be depleted. Refer to section 5.2 for battery replacement.

### 6.2 Time Inaccuracy

- Ensure the time was set correctly as per section 3.1.
- Exposure to strong magnetic fields can affect quartz watch accuracy. Keep the watch away from magnets.
- If inaccuracy persists, the watch may require servicing by an authorized technician.
