6. OPERATING INSTRUCTIONS

6.1 Soft-Closing Doors and Drawers:

Your ARIEL Hepburn vanity is equipped with soft-closing doors and full extension drawers. This feature allows for quiet and smooth operation, preventing slamming.

- To close, gently push the door or drawer until the soft-close mechanism engages. It will then close slowly and silently on its own.
- The drawers are full extension, allowing complete access to the contents.
- One 45-degree open tilt drawer is included for convenient access to smaller items.

7. MAINTENANCE AND CARE

7.1 Cleaning:

- Wipe surfaces with a soft, damp cloth.
- Avoid abrasive cleaners, harsh chemicals, or ammonia-based products, as these can damage the finish.
- Promptly wipe up any spills to prevent water damage.

7.2 General Care:

- Avoid placing hot items directly on the cabinet surface.
- Ensure proper ventilation in the bathroom to minimize moisture buildup.
- Periodically check all hardware (hinges, drawer slides, handles) for tightness and adjust as needed.

8. TROUBLESHOOTING

8.1 Drawers Not Closing Smoothly:

- Check for any obstructions in the drawer slides.
- Ensure the drawer is properly seated on its slides.
- Verify the cabinet is level. Uneven installation can affect drawer operation.

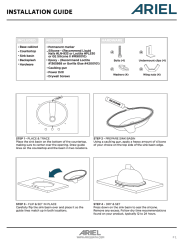

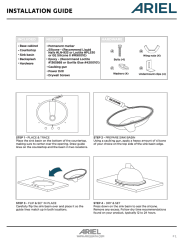

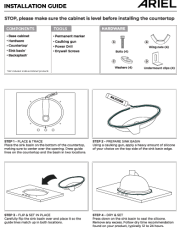

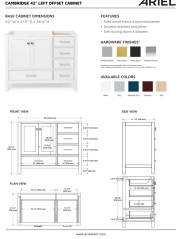

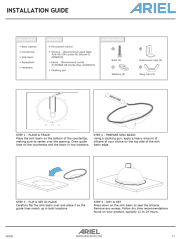

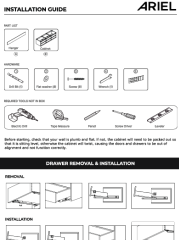

8.2 Water Damage/Warping:

The cabinet is constructed from solid hardwood and plywood, which is designed to resist expansion and contraction with moisture. However, prolonged exposure to excessive moisture should be avoided. Ensure proper sealing around the sink and countertop during installation.
