## 6. OPERATING INSTRUCTIONS

---

The ARIEL Hepburn vanity is designed for ease of use and durability.

### 6.1 Soft-Closing Doors and Drawer

The vanity features two soft-closing doors and one soft-closing, 45-degree open tilt dovetail drawer. To operate, simply push the doors or drawer gently to close them. The soft-close mechanism will engage, preventing slamming and ensuring quiet operation.

### 6.2 Tilt-Out Drawer Functionality

The 45-degree open tilt dovetail drawer provides convenient access to smaller items. Gently pull the drawer front outwards and downwards to open. Push it back into place to engage the soft-close mechanism.

## 7. MAINTENANCE

---

Proper care and maintenance will extend the life and appearance of your vanity.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or solvents that may damage the finish.
- **Spills:** Clean up spills immediately to prevent water damage or staining, especially on the cabinet's finish.

- **Hardware:** Periodically check and tighten any loose hardware (handles, hinges) to ensure proper function.
- **Moisture:** Ensure adequate ventilation in the bathroom to prevent excessive moisture buildup, which can affect wood products.

## 8. TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Doors/Drawer not closing softly	Soft-close mechanism obstructed or misaligned.	Check for obstructions. Adjust hinges or drawer slides if necessary. Consult a professional if the mechanism is damaged.
Drawer sticking or difficult to open/close	Drawer slides are dirty, damaged, or misaligned.	Clean drawer slides. Check for bent or damaged slides and replace if needed. Ensure the drawer is properly seated on the slides.
Cabinet appears unstable	Not properly secured to the wall or uneven flooring.	Ensure the vanity is securely anchored to wall studs. Use shims under the toe kick if the floor is uneven to stabilize the unit.
