Nordisk MOS Down Slippers User Manual

Model: 109072DS

INTRODUCTION

The Nordisk MOS Down Slippers are designed to provide exceptional warmth and comfort for your feet, particularly in cold conditions. These slippers are ideal for indoor use, such as in tents, cabins, or at home, offering a soft, insulated layer for sensitive feet. Their lightweight and compressible design makes them a convenient addition for travel. Key features include a soft down filling, a velvety fleece inner lining, and a robust anti-slip sole for stability on various surfaces. A mesh storage bag is included for compact transport.

SETUP AND FIRST USE

1. **Unpacking:** Carefully remove the slippers from their packaging.
2. **Initial Inspection:** Before first use, inspect the slippers for any visible damage or manufacturing defects.
3. **Allow to Loft:** If the slippers appear compressed from packaging, gently shake them and allow a few minutes for the down insulation to loft and regain its full volume.
4. **Storage Bag:** Familiarize yourself with the included mesh storage bag, designed for compact storage and transport.

OPERATING INSTRUCTIONS

The Nordisk MOS Down Slippers are designed for simple and comfortable use.

- **Wearing:** Simply slide your feet into the slippers. The elasticated opening ensures a snug and comfortable fit around the ankle, helping to retain warmth.
- **Surface Use:** The robust plastic anti-slip sole provides grip on various indoor surfaces, including tent floors, tiled floors, and wooden floors, reducing the risk of slipping.
- **Comfort:** The soft down filling and fleece lining provide immediate warmth and cushioning.

CARE AND MAINTENANCE

Proper care will extend the lifespan and maintain the performance of your Nordisk MOS Down Slippers.

- **Cleaning:**

- Spot clean with a damp cloth and mild soap for small stains.
- For deeper cleaning, hand wash gently in cool water with a down-specific cleaner. Avoid harsh detergents.
- Do not machine wash or tumble dry, as this can damage the down insulation and outer fabric.

- **Drying:**

- Air dry thoroughly in a well-ventilated area, away from direct sunlight or heat sources.
- Gently fluff the slippers periodically during drying to prevent down clumping.

- **Storage:**

- When not in use, store the slippers in the provided mesh storage bag. This allows the down to breathe and prevents compression damage.
- Store in a cool, dry place.

TROUBLESHOOTING

This section addresses common inquiries regarding the Nordisk MOS Down Slippers.

- **Slippers feel less warm than expected:**
 - Ensure the down has fully lofted. Gently shake and fluff the slippers.
 - Verify the correct size for a snug fit, as oversized slippers may allow cold air in.

- **Slipping on certain surfaces:**

- While the sole is anti-slip, extreme wet or oily surfaces may still pose a risk. Exercise caution on such surfaces.
- Ensure the soles are clean and free of debris that might reduce grip.

- **Down clumping after washing:**

- This can occur if not dried properly. Continue air drying and gently fluffing the slippers to redistribute the down.
- Consider using a few clean tennis balls in a pillowcase during the drying process (if using a very low heat tumble dryer, though air drying is recommended) to help break up clumps.

PRODUCT SPECIFICATIONS

Model Number	109072DS
Filling	Down (80/20 white duck down)
Outer Material	100% Nylon (30D recycled)
Lining Material	100% Polyester Fleece
Sole Material	100% Polyester (Anti-slip plastic)
Dimensions (L x W x H)	29.3 x 17.3 x 7.5 cm (approximate, for packaging)
Weight	50 grams (approximate)
