2. Key Features

- **Powerful Motor:** Equipped with an 800W Max power motor, capable of reaching a maximum speed of 20 MPH and handling inclines up to 25%.
- **Long-Range Battery:** Features a 48V 600Wh large capacity battery, providing a maximum travel range of 40-45 miles on a

single charge.

- **Comfortable Ride:** 10"x3" pneumatic tires offer better shock absorption and improved passability over various terrains. The 6.7" wide and 22" long deck provides ample foot support.
- **Dual Braking System:** Combines front E-ABS with a rear disc brake for efficient and responsive stopping power, enhancing safety.
- **Smart LED Display & App Control:** A 4.2" smart display shows real-time speed, mode, odometer, and battery life. Bluetooth connectivity allows for app control, including locking the scooter and managing cruise control.
- **Handle Folding Design:** Innovative foldable stem and handlebar design for compact storage and easy portability, reducing storage space by over 66% compared to previous models.
- **UL2272 Certified:** Passed stringent UL 2272 testing for enhanced safety and professional standards.
- **IPX4 Waterproof:** Designed to withstand splashes and puddles, suitable for riding in light rain conditions.

3. Setup Guide

3.1 Assembly

The NAVEE N65 Electric Scooter comes largely pre-assembled. Follow these steps to prepare it for use:

1. Pull out the pin of the handlebar from the rear fender.
2. Lift the stem up straight until it locks into place.
3. Turn the folding handle 180° anti-clockwise to lock the stem securely.
4. Turn the handlebar 90° to align it parallel with the stem.
5. Ensure all locking mechanisms are engaged before riding.

Video: Detailed steps for assembling the NAVEE N65 Electric Scooter, including unfolding the stem and securing the handlebar.

3.2 Charging the Battery

Before first use, fully charge the scooter's battery. Always ensure the scooter is powered off before charging.

1. Locate the charging port on the scooter's deck.
2. Open the rubber protector covering the charging port.
3. Plug the charger into the charging port, then plug the charger into a power outlet.
4. The LED on the charger will show a red light indicating charging. It will turn green when fully charged.
5. Once charging is complete, unplug the charger and securely close the rubber protector to prevent dust and moisture.

4. Operating Instructions

4.1 Basic Operation

- **Power On/Off:** Long press the power button for 3 seconds to turn the scooter on or off.
- **Headlight/Taillight:** Press the power button once to turn the headlight and taillight on/off.
- **Speed Modes:** Press the "SET" button once to switch between the 4 gears: Gear 1, Gear 2, Gear 3, and Walking Mode.

4.2 App Control

Enhance your riding experience by connecting your NAVEE N65 to the official NAVEE app via Bluetooth.

1. Download the NAVEE app from your device's app store.
2. Open the app and ensure Bluetooth is enabled on your phone.
3. Search for and select your NAVEE N65 scooter from the list of available devices.
4. Once connected, you can:
   - **Lock/Unlock:** Secure your scooter by locking it through the app. The initial password is "8888".
   - **Cruise Control:** Toggle cruise control on/off for effortless long-distance rides.
   - **Unit Switch:** Change the speed display format between km/h and mph.
   - **Fault Self-Test:** Run a diagnostic test to quickly identify and troubleshoot potential issues.
   - **Modify Password:** Change your scooter's lock password for added security.

4.3 Folding the Scooter

The N65 features an innovative dual folding system for convenient storage and transport:

1. Long press the fold button on the stem and turn the folding handle 180° anti-clockwise to unlock.
2. Rotate the handlebar 90° to align it parallel with the stem.
3. Press the button below the folding latch and rotate the folding latch 180° clockwise.

4. Fold the stem downwards until it clicks into place, securing the handlebar to the rear fender hook.

5. Maintenance

- **Cleaning:** Regularly wipe down the scooter with a damp cloth. Avoid using high-pressure water jets or harsh chemicals.
- **Tire Pressure:** Check tire pressure regularly to ensure optimal performance and safety. Refer to the tire sidewall for recommended PSI.
- **Brake Inspection:** Periodically inspect the brake system for wear and tear. Ensure the disc brake and E-ABS are functioning correctly.
- **Battery Care:** Store the scooter in a cool, dry place. If storing for extended periods, charge the battery to about 50-70% and recharge every 30-60 days to maintain battery health.
- **General Check:** Before each ride, check for any loose screws, damaged parts, or unusual noises.

6. Troubleshooting

Here are some common issues and their solutions:

- **Scooter not turning on:** Ensure the battery is charged. Long press the power button for 3 seconds. If issues persist, use the app's "Fault self-test" feature.
- **Difficulty folding:** Ensure you are pressing the correct buttons and rotating the handles as described in the "Folding the Scooter" section. Do not force the mechanism.
- **App connectivity issues:** Ensure Bluetooth is enabled on your phone and the scooter is powered on. Try restarting both the app and the scooter.
- **Reduced range/power:** Check tire pressure. Ensure the battery is fully charged. Riding uphill frequently or in cold weather can reduce range.
- **Can you ride it in the rain?** The N65 electric scooter is IPX4 waterproof, suitable for splashes and puddles. However, it is not recommended for use in heavy rain as none of the scooters are completely waterproof.
- **Can you put N65 in the trunk?** Yes, the folded size is 47.6 x 8 x 16 inches, making it suitable for transport in an SUV trunk or public transport.
