MageGee Typewriter Mechanical Gaming Keyboard and Mouse Combo User Manual

Model: B0BHW6RSS3

Brand: MageGee

INTRODUCTION

This manual provides detailed instructions for the MageGee Typewriter Mechanical Gaming Keyboard and Mouse Combo. This combo features a full-size mechanical keyboard with retro-style round keycaps and a wired gaming mouse, designed for both gaming and office use on Windows PCs and laptops. Please read this manual thoroughly before use to ensure proper operation and longevity of your device.

SETUP

1. **Unpacking:** Carefully remove the keyboard and mouse from their packaging. Ensure all components are present.
2. **Connection:** Connect the USB cable of the keyboard to an available USB port on your computer. Connect the USB cable of the mouse to another available USB port on your computer.
3. **Driver Installation:** The keyboard and mouse are plug-and-play devices. Your operating system (Windows) should automatically detect and install the necessary drivers. No additional software installation is typically required.
4. **Placement:** Position the keyboard and mouse comfortably on your desk. The keyboard features adjustable kickstand feet for ergonomic angling.

OPERATING INSTRUCTIONS

Keyboard Functions

- **Key Layout:** This is a full-size 104-key keyboard, including a numeric keypad and F1-F12 function keys.
- **Mechanical Switches:** Equipped with red mechanical switches, providing a linear and quiet keystroke experience.

Red Switch >

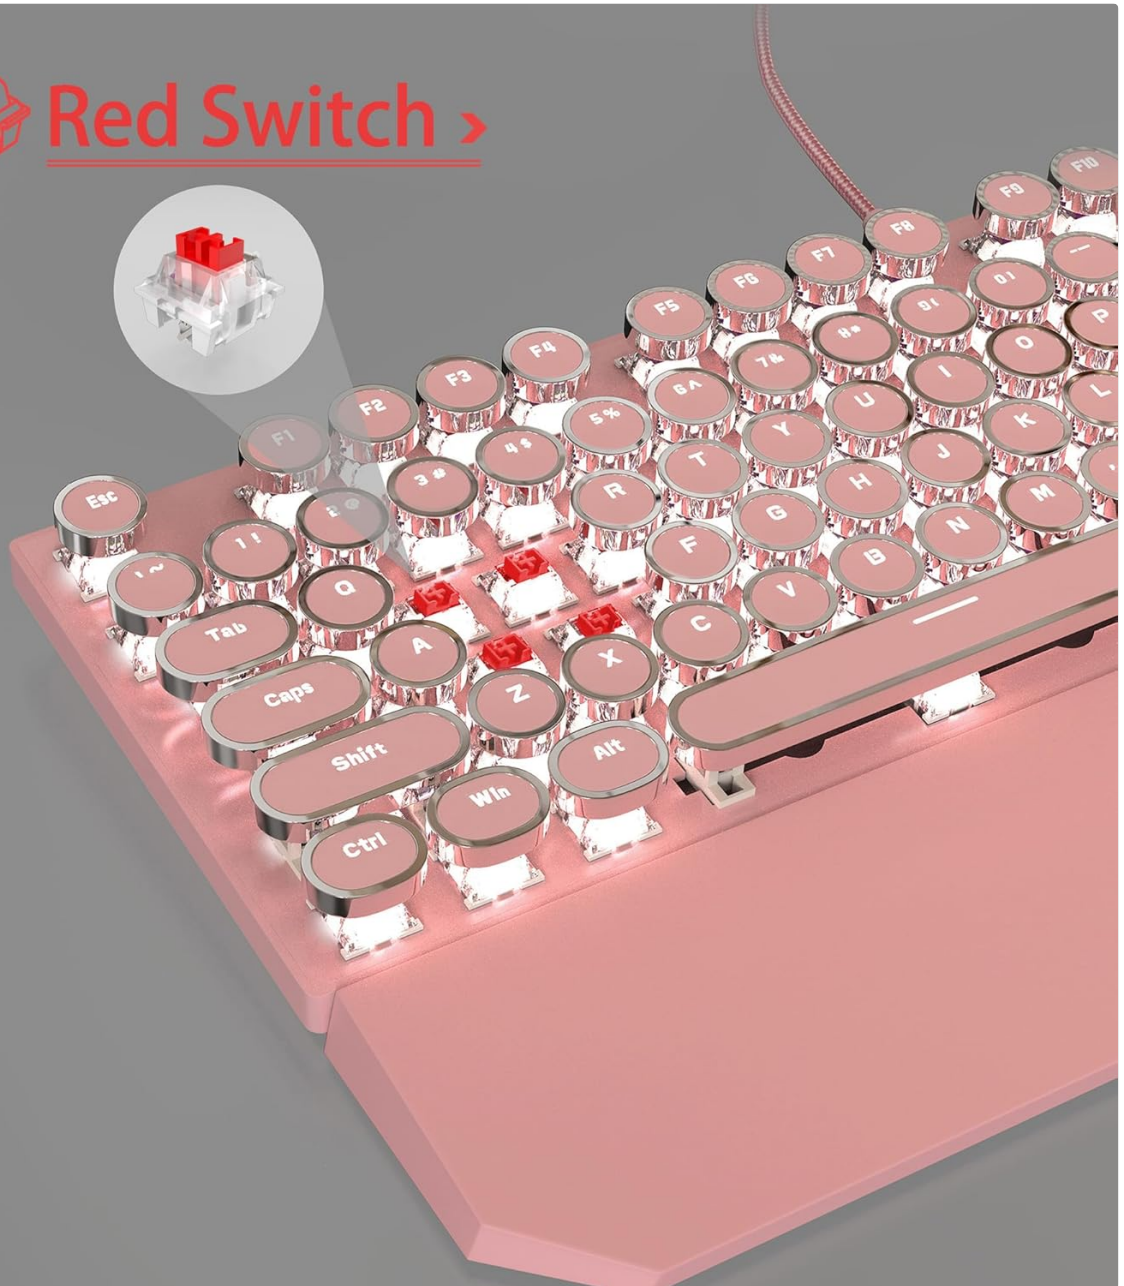

Image: A close-up view of the keyboard's red mechanical switches visible beneath the transparent base of the round keycaps.

- **Backlight Modes:** The keyboard features multiple LED white backlight modes. Press **Fn + Ins**, **Fn + Home**, **Fn + PgUp**, **Fn + Del**, or **Fn + End** to cycle through various lighting effects.
- **Backlight Brightness and Speed:** Use the arrow keys (up/down for brightness, left/right for speed) in combination with the **Fn** key to adjust the backlight intensity and animation speed.

LED Backlight

Image: The MageGee keyboard illuminated with its LED backlight, highlighting the retro round keycaps and the overall aesthetic.

- **Anti-Ghosting:** The 104-key anti-ghosting feature ensures that multiple simultaneous key presses are registered accurately, which is beneficial for fast typing and gaming.
- **Ergonomics:** The high-low key layout with suspended round keycaps is designed to fit finger contours, and adjustable double kickstand feet help reduce hand fatigue during extended use.

Mouse Functions

- **DPI Adjustment:** The mouse offers adjustable DPI levels: 600, 800, 1200, 1600, 2400, and 3200. Use the DPI button (usually located behind the scroll wheel) to cycle through these settings to match your preference for precision and speed.

Image: The MageGee gaming mouse with visual indicators for its adjustable DPI settings, ranging from 600 to 3200.

- **LED Backlight:** The mouse features a 7-color breathing LED backlight (blue, red, green, purple, cyan, yellow, white). To turn the breathing light on or off, long-press the DPI button for three seconds.
- **Scroll Wheel:** The anti-skid scroll wheel provides stable control and high sensitivity for navigation.

MAINTENANCE

- **Cleaning the Keyboard:** Use a soft, dry cloth to wipe the surface of the keyboard. For dust between keycaps, use compressed air. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the keyboard.
- **Cleaning the Mouse:** Wipe the mouse surface with a soft, dry cloth. Clean the optical sensor area on the bottom of the mouse with a cotton swab if tracking issues occur.
- **Cable Care:** Avoid bending or twisting the USB cables excessively to prevent internal damage.
- **Storage:** When not in use for extended periods, store the combo in a dry, cool place away from direct sunlight.

TROUBLESHOOTING

Problem	Solution
Keyboard/Mouse not responding	<ul style="list-style-type: none">• Ensure USB cables are securely connected to the computer.• Try connecting to a different USB port.• Restart your computer.• Test the devices on another computer to rule out a system issue.
