Sluban M38-B1110

Sluban WWII-M4A3(76W) Medium Tank Instruction Manual

Model: M38-B1110

1. Product Overview

The Sluban WWII-M4A3(76W) Medium Tank (Model M38-B1110) is a detailed building block set designed for enthusiasts of World War II military vehicles. This set allows for the construction of a replica of the M4A3(76W) Sherman medium tank, featuring intricate details and functional elements once assembled. It provides an engaging building experience and results in a display-ready model.

2. Setup and Assembly

Assembly of the Sluban WWII-M4A3(76W) Medium Tank requires careful attention to the included step-by-step instructions. The set is designed for a rewarding building experience.

2.1 Unpacking

- Carefully open the product packaging.
- Verify all parts bags are present as indicated on the box or in the instruction manual's parts list.
- Ensure the instruction manual is included and undamaged.

2.2 Assembly Instructions

1. Organize the building blocks by color and type to facilitate easier assembly.
2. Follow the numbered steps in the provided instruction manual precisely. Each step illustrates the required pieces and their placement.
3. Apply firm but gentle pressure when connecting pieces to ensure a secure fit.
4. If a piece feels too tight, ensure it is correctly oriented before applying more force.
5. The set may offer options for different configurations (e.g., M4A3 or M4A3(76W) versions). Refer to the manual for specific guidance on these choices.

Image 2.2: The set offers a 2-in-1 build option, allowing for different tank configurations.

3. Operating the Model

Once assembled, your Sluban WWII-M4A3(76W) Medium Tank model features several interactive components:

- **Movable Tracks:** The tank is equipped with functional tracks. While designed for movement, they may require manual assistance, especially if adjusted for a tighter fit.
- **Rotating Turret:** The main turret can be rotated 360 degrees.
- **Adjustable Main Gun:** The main gun can be elevated and depressed.
- **Opening Hatches:** Certain hatches on the tank model are designed to open, allowing for placement of figures (if included with the set).

4. Maintenance and Care

To ensure the longevity and appearance of your Sluban tank model, follow these maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft-bristled brush. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or warping of plastic parts.
- **Handling:** Handle the model with care to avoid accidental detachment of small parts.
- **Disassembly:** If disassembling, do so gently to prevent damage to the connection points of the blocks.

5. Troubleshooting

Encountering issues during assembly or with the finished model? Here are some common troubleshooting tips:

- **Missing Pieces:** If you believe pieces are missing, first double-check all packaging and surrounding areas. Sometimes small pieces can be overlooked. Refer to the parts list in your manual. If pieces are genuinely missing, contact Sluban customer support.
- **Loose or Tight Connections:** Ensure pieces are aligned correctly before pressing them together. If a connection is too loose, verify it's the correct piece for that step. If too tight, avoid excessive force to prevent breakage.
- **Tracks Not Moving Smoothly:** Check that all track links are correctly assembled and that no debris is obstructing the wheels or gears. Adjusting the number of track links (as mentioned in some user experiences) might be necessary for optimal movement, but follow the manual's guidance first.
- **Difficulty Following Instructions:** Review the previous steps carefully. Sometimes a small error early on can affect later stages. Ensure you are using the correct pieces for each step.

6. Specifications

Brand	Sluban
Model Number	M38-B1110
Product Dimensions	7.87 x 3.54 x 9.84 inches
Item Weight	1.94 pounds
Manufacturer Recommended Age	0 - 12 years (*Note: Always supervise young children with small parts*)
