ANGELBLISS 50-HUI

ANGELBLISS Baby Playpen Instruction Manual (Model 50-HUI)

Your guide to safe and easy setup and use.

1. INTRODUCTION

The ANGELBLISS Baby Playpen provides a safe and spacious environment for your infant or toddler to play. Designed with durability and convenience in mind, this playpen ensures peace of mind for parents while offering ample room for children to explore. This manual will guide you through the assembly, operation, maintenance, and safety precautions for your new playpen.

2. SAFETY INFORMATION

Your child's safety is our top priority. Please read and follow all safety instructions carefully.

- This playpen is ASTM406-approved, ensuring it meets safety standards for baby play yards.
- The robust alloy steel frame and 4 TPR suction cup base provide stability and prevent tipping.
- Ventilating mesh walls allow for optimal airflow and visibility, keeping your child comfortable and within sight.
- The playpen features a 27-inch scientific height designed to prevent children from climbing out.
- **WARNING:** Discontinue use immediately if your child is able to climb out of the playpen.
- Ensure all parts are securely connected and the fabric is properly attached before placing a child inside.
- Keep small objects and choking hazards out of the playpen.
- Never leave a child unattended in the playpen.

3. PACKAGE CONTENTS

Before assembly, please verify that all components are present:

- Fabric Playpen Enclosure
- Alloy Steel Pipes (various lengths)
- Connectors (T-joints, L-joints, base connectors)
- TPR Suction Cups (pre-attached to base connectors)
- Plush Toys (Moon, Cloud, Star shapes)
- Pull-up Handles
- Carrying Bag
- Instruction Manual

4. SETUP INSTRUCTIONS

The ANGELBLISS playpen features a patented snap design for quick and tool-free assembly. Follow these steps for a secure setup:

1. **Unpack Components:** Carefully remove all parts from the packaging. Organize the pipes and connectors by size and type. Keep the labels on the pole bags for easy identification during assembly.
2. **Assemble Base Frame:** Connect the shortest pipes to the base connectors to form the bottom perimeter of the playpen. Ensure the TPR suction cups are facing downwards.
3. **Install Vertical Pipes:** Insert the vertical pipes into the base connectors.
4. **Attach Fabric:** Slide the playpen fabric over the assembled frame, ensuring the mesh panels and zipper openings are correctly oriented. The fabric should fit snugly around the pipes.
5. **Connect Top Frame:** Use the remaining pipes and connectors to form the top perimeter. Snap them into place securely. The newly upgraded straight tube design ensures tight and strong connections.
6. **Secure Fabric:** Fasten any Velcro straps or ties on the fabric to the frame for added security and to prevent tears.
7. **Final Check:** Gently push and pull on the frame to ensure all connections are firm and stable.

5. OPERATING INSTRUCTIONS

Using your ANGELBLISS playpen is straightforward, offering convenience and safety for your child.

5.1. Entry and Exit

The playpen features a convenient zip-open side panel, allowing easy in-and-out access for both children and adults. The zipper is located on the exterior to prevent children from opening it themselves.

ZIP-OPEN SIDE PANEL

Easy in-and-out for babies and toddlers

Image: A baby crawling through the zip-open side panel, demonstrating easy access.

5.2. Play Area

The large dimensions of the playpen (50x50x27 inches) provide ample space for your child to play comfortably with toys. Three plush toys are included to keep your baby engaged. Consider adding a soft, padded playmat for extra cushioning, as the base fabric is thin.

5.3. Portability

For convenience, the playpen can be disassembled and stored in the included compact carrying bag. This makes it ideal for transport, whether for travel or simply moving it to another room.

6. MAINTENANCE

To keep your ANGELBLISS playpen clean and hygienic, follow these simple maintenance guidelines:

- **Cleaning:** Wipe clean with a damp cloth. The 300D Oxford Cloth material is designed for easy cleaning and resistance to spills.
- **Drying:** Allow the fabric to air dry completely before folding or storing to prevent mildew.
- **Inspection:** Regularly inspect all parts for wear and tear, especially the mesh, zippers, and frame connections. Replace any damaged parts immediately.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Assembly Difficulty:** If you find assembly challenging, ensure you have separated all poles and connectors according to their labels (if present). Refer to the step-by-step instructions and diagrams.
- **Lack of Cushioning:** The playpen's base fabric is thin. For enhanced comfort and safety, it is recommended to purchase and add a separate thick, padded playmat that fits the playpen's dimensions.
- **Stability Concerns:** Ensure all connectors are fully snapped into place and the TPR suction cups on the base are firmly pressed against a clean, flat surface.

8. SPECIFICATIONS

Feature	Detail
Product Dimensions (L x W x H)	50 x 50 x 27 inches
Item Weight	4.79 pounds
Maximum Weight Recommendation	150 Pounds
Material Type	Plastic, Stainless Steel Thermoplastic Rubber

Floor Area	17.36 Square Feet
Age Range (Description)	Infant
Model Number	50-HUI
