## 2. Safety Information

The fireplace has an overheating safety protection feature that automatically shuts off before it gets too hot. The product includes anti-tipping brackets that prevent accidental toppling, ensuring greater safety. Always ensure the unit is placed on a stable, level surface. Do not block the air vents of the electric fireplace. Keep flammable materials away from the heater. This product is designed for indoor use only.

### 3. Package Contents

Before assembly, verify that all components are present and undamaged. Refer to the included assembly manual for a complete list of parts and hardware. Typically, the package includes:

- Wooden panels for the TV stand structure
- Hardware pack (screws, dowels, cam locks, etc.)
- 18-inch Electric Fireplace Heater insert
- Remote control for the fireplace
- Anti-tipping brackets
- Assembly instruction manual

### 4. Assembly Instructions

The product requires assembly. Please follow the detailed instructions provided in the separate assembly manual included with your purchase. It is recommended to have two people for assembly. Ensure all parts are correctly oriented and securely fastened. Do not overtighten screws.

### 5. Operating Instructions (Electric Fireplace)

Your electric fireplace can be operated using the control panel on the unit or the included remote control. Ensure the unit is plugged into a standard 120V outlet.

#### 5.1. Basic Operation

- **Power On/Off:** Press the power button on the control panel or remote to turn the fireplace on or off.
- **Flame Effect:** Adjust the flame brightness settings (typically 3 levels) using the dedicated button. The flame effect can be used independently without heat.
- **Heat Function:** Activate the heater using the heat button. The 1400W heater can warm spaces up to 400 square feet.
- **Temperature Control:** Set your desired temperature. The heater will automatically turn off once the room reaches the set temperature and reactivate if the temperature drops.
- **Timer:** Use the timer function to set the fireplace to operate for a specific duration (e.g., 1-8 hours). The unit will automatically shut off after the set time.

## 6. Maintenance

### 6.1. Cleaning

Wipe the TV stand and fireplace exterior with a dry cloth. Do not use abrasive cleaners or harsh chemicals, as these may damage the finish. Ensure the fireplace is turned off and unplugged before cleaning.

### 6.2. General Care

Regularly check all fasteners to ensure they remain tight. Avoid placing hot items directly on the surface without protection. Keep the unit away from direct sunlight and excessive moisture.

## 7. Troubleshooting

- **Fireplace not turning on:** Ensure the power cord is securely plugged into a working outlet. Check the circuit breaker.

- **No heat output:** Verify the heat function is activated and the temperature setting is higher than the ambient room temperature. Check for any obstructions in the heater's air vents.
- **Flame effect not working:** Ensure the flame effect is turned on via the control panel or remote.
- **Unit overheating:** The fireplace has an automatic shut-off feature for overheating. Unplug the unit, allow it to cool, and ensure air vents are clear before restarting.
