

Grandstream WP822

Grandstream WP822 Cordless Wi-Fi Phone User Manual

Model: WP822

1. PRODUCT OVERVIEW

The Grandstream WP822 is a business-grade portable Wi-Fi IP phone designed for various professional environments, including retail, logistics, healthcare, and security. It offers robust features for reliable communication.

Figure 1.1: Grandstream WP822 Cordless Wi-Fi Phone in its charging cradle. The phone features a large display, a numeric keypad, and navigation buttons.

Key Features:

- Dual-band 802.11a/b/g/n/ac Wi-Fi for reliable connectivity.
- Advanced antenna design and roaming support for seamless mobility.
- Up to 8 hours of talk time on a single charge.
- HD voice with dual microphones for clear audio quality.
- Configurable push-to-talk button for instant communication.
- Compact and durable design suitable for demanding environments.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- Grandstream WP822 Cordless Wi-Fi Phone
- Charging Cradle
- Power Adapter

- Lithium-Ion Battery
- Belt Clip
- Quick Start Guide (this manual serves as the full guide)

3. DEVICE LAYOUT

Figure 3.1: Front view of the WP822 phone, showing the display, soft keys, navigation cluster, and numeric keypad.

Figure 3.2: Back view of the WP822 phone, highlighting the speaker and battery compartment.

Figure 3.3: WP822 phone with the optional belt clip attached for convenient carrying.

Components:

- **Display Screen:** Shows call information, menus, and status.
- **Soft Keys:** Context-sensitive buttons below the display.
- **Navigation Cluster:** Up, Down, Left, Right, and OK/Select buttons for menu navigation.
- **Numeric Keypad:** For dialing numbers and text input.
- **Call/End Buttons:** Green button to initiate/answer calls, Red button to end/reject calls.
- **Speaker:** For hands-free communication.
- **Microphones:** Dual MICS for HD voice clarity.
- **Headset Jack:** For connecting a wired headset.
- **USB-C Port:** For charging and data transfer.

- **Power Button:** On the side, for turning the device on/off and screen lock.
- **Volume Buttons:** On the side, for adjusting call and ringer volume.

4. SETUP AND INSTALLATION

4.1. Battery Installation

1. Locate the battery compartment cover on the back of the phone.
2. Gently slide the cover downwards to remove it.
3. Insert the Lithium-Ion battery into the compartment, ensuring the gold contacts align with the phone's terminals.
4. Replace the battery compartment cover by sliding it upwards until it clicks into place.

4.2. Charging the Phone

Before first use, fully charge the phone for optimal battery performance.

1. Connect the power adapter to the charging cradle.
2. Plug the power adapter into a standard electrical outlet.
3. Place the WP822 phone into the charging cradle, ensuring it seats properly. The charging indicator on the phone will illuminate.
4. A full charge typically takes approximately 2-3 hours.

Figure 4.1: The WP822 phone correctly placed in its charging cradle, indicating proper connection for charging.

4.3. Initial Power On and Wi-Fi Connection

1. Press and hold the Power button on the side of the phone until the screen illuminates.
2. Follow the on-screen prompts for initial setup, including language selection.
3. Navigate to *Settings > Wi-Fi*.
4. Select your desired Wi-Fi network from the list.
5. Enter the Wi-Fi password if prompted and tap *Connect*.
6. Once connected, the Wi-Fi icon will appear in the status bar.

4.4. Account Configuration (VoIP)

Your WP822 phone requires a VoIP account to make and receive calls. This is typically configured by your IT administrator or service provider. For manual configuration:

1. Navigate to *Settings > Account Settings*.
2. Select an available account slot.
3. Enter the required SIP account details (SIP Server, User ID, Password, etc.) provided by your VoIP service provider.
4. Save the settings. The account status icon should turn green when successfully registered.

5. OPERATING INSTRUCTIONS

5.1. Making Calls

- **Dialing a Number:** Enter the phone number using the numeric keypad and press the **Call** button.
- **From Call History:** Navigate to *Call History*, select a contact, and press the **Call** button.
- **From Contacts:** Navigate to *Contacts*, select a contact, and press the **Call** button.

5.2. Answering and Ending Calls

- **Answering:** When the phone rings, press the **Call** button or the *Answer* soft key.
- **Ending:** During a call, press the **End** button or the *End Call* soft key.

5.3. In-Call Options

- **Hold:** Press the *Hold* soft key to put the current call on hold. Press again to resume.
- **Transfer:** Press the *Transfer* soft key, dial the new number, and press *Transfer* again (consult your VoIP system for blind vs. attended transfer).
- **Mute:** Press the *Mute* soft key to mute your microphone. Press again to unmute.
- **Speakerphone:** Press the *Speaker* button to toggle speakerphone mode.
- **Volume Adjustment:** Use the Volume Up/Down buttons on the side of the phone during a call.

5.4. Push-to-Talk (PTT)

The WP822 features a configurable Push-to-Talk button. This function allows for instant, one-way communication similar to a walkie-talkie, typically used within a defined group or channel. Consult your system administrator for PTT configuration and usage details specific to your network.

- To initiate PTT: Press and hold the configured PTT button.
- To speak: Speak clearly into the microphone while holding the button.
- To listen: Release the PTT button.

6. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the phone and charging cradle. Do not use harsh chemicals, cleaning solvents, or strong detergents.
- **Battery Life:** To maximize battery life, avoid extreme temperatures. Fully charge the battery before long periods of inactivity.
- **Storage:** If storing the phone for an extended period, remove the battery. Store in a cool, dry place.
- **Water Resistance:** The WP822 is not waterproof. Avoid exposing the device to liquids.
- **Impact:** Protect the phone from drops and impacts, which can damage internal components.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Phone does not power on.	Battery is not installed or discharged.	Ensure battery is correctly installed. Place phone on charging cradle and allow it to charge for at least 15 minutes before attempting to power on.
Cannot connect to Wi-Fi.	Incorrect password; out of range; network issue.	Verify Wi-Fi password. Move closer to the Wi-Fi access point. Restart the Wi-Fi router.
Cannot make or receive calls.	VoIP account not registered; no network connection.	Check Wi-Fi connection. Verify VoIP account settings (<i>Settings > Account Settings</i>). Contact your IT administrator or VoIP service provider.
Poor call quality (echo, static).	Weak Wi-Fi signal; network congestion; microphone/speaker obstruction.	Move to an area with stronger Wi-Fi signal. Check for obstructions on microphone/speaker. Consult your network administrator.
Phone freezes or becomes unresponsive.	Software glitch.	Perform a soft reset by pressing and holding the Power button until the phone restarts. If issue persists, remove and reinsert the battery.

8. TECHNICAL SPECIFICATIONS

- **Model:** WP822
- **Dimensions (L x W x H):** 3.94 x 3.94 x 3.94 inches (approximate)
- **Weight:** 15.9 ounces (450 grams)
- **Battery:** 1 Lithium Ion battery (included)
- **Talk Time:** Up to 8 hours
- **Wi-Fi:** Dual-band 802.11a/b/g/n/ac
- **Headset Jack:** Yes
- **Charging Port:** USB-C
- **Material:** Plastic
- **Manufacturer:** Grandstream
- **First Available:** January 14, 2023

9. WARRANTY AND SUPPORT

Grandstream products are covered by a limited warranty. For specific warranty terms and conditions, please refer to the warranty card included with your product or visit the official Grandstream website. Keep your purchase receipt as proof of purchase.

Customer Support:

For technical assistance, troubleshooting beyond this manual, or warranty claims, please contact your vendor or Grandstream's official support channels:

- **Grandstream Support Portal:** www.grandstream.com/support
- **Contact Information:** Refer to the Grandstream website for regional contact numbers and email support.

When contacting support, please have your product model (WP822) and serial number ready. The serial number is typically located on a sticker on the back of the phone or inside the battery compartment.

Grandstream Adds New Device to WP Series Wi-Fi Cordless IP Phones

Today, Grandstream has announced the release of a new Wi-Fi IP Phone to the WP Series. The WP822 is a business-grade cordless Wi-Fi phone that comes equipped with integrated dual-band 802.11 a/b/g/n/ac Wi-Fi, an advanced antenna design and roaming support. By adding 8-hour talk time, HD voice with dual-MICs and a configurable push-to-talk button, the WP822 comes equipped with a combination of features, mobility and durability to suit all portable telephony needs.

Push-to-Talk

The series includes Push-to-talk/panic button options for instant communication. It supports point-to-point paging and multi-call paging as long as the devices join the same group. The push-to-talk is useful for emergency notices and important announcements.

Integration

Pair with Grandstream GWN Series Wi-Fi access points to create a seamless unified solution for better roaming capabilities. GWN series APs auto-recognize WP Series devices and automatically adjust the QoS of the AP to prioritize calls to/from that device.

Coverage

The WP series provides advanced range and seamless roaming. They offer up to 8 hours talk-time and up to 200 hour stand-by therefore eliminating the traditional battery concern with Wi-Fi IP phones. It also offers virtually no limit to the call capacity.

Deployment Scenarios

Security

A business or organization looking for a cordless IP phone that can be used by security teams and other important personnel such as fork lift operators, maintenance staff, nurses and more.

Campus

A campus or multi-building office that needs a portable solution that can seamlessly roam throughout the grounds while staying connected to Wi-Fi.

Sales Teams

For any business or professional who needs to be mobile throughout a facility, move between their home and office, or roam throughout their home or office.

Grandstream WP810 / WP822 / WP825 – Connecting Handset to WiFi

The WP810/WP822/WP825 phone supports dual-band 802.11a/b/g/n/ac Wi-Fi. To connect the phone to your WiFi please follow the instructions below.

1. On LCD menu, press Menu key and navigate to Settings - Network.
2. Select "Wi-Fi Band" (Automatic, 2.4GHz or 5GHz) and navigate to "Wi-Fi Networks". A list of Wi-Fi networks will be displayed.
3. Select the desired network to connect to. (Enter the correct password to connect if requested)

The handset will display Wi-Fi icon on the main LCD menu if the connection to the Wi-Fi network is successful.

Note

*If 5GHz and 2.4GHz are both available when "Wi-Fi Band" is set to "Automatic", the WP810/WP822/WP825 will use 5GHz, but it may switch to 2.4GHz if the signal of 5GHz is poor. Users may also specify the Wi-Fi Band in order to fix it or to keep it Dual Band.
