Lyromix JL-05

Lyromix Large Metal Chicken Coop - Instruction Manual

Model: JL-05

INTRODUCTION

This Lyromix metal chicken coop provides a spacious and secure outdoor enclosure for various poultry and small animals. Unlike traditional wooden coops, this design offers enhanced visibility and ease of access for owners, while providing ample space for animals to move and forage naturally. The robust construction and protective features ensure a safe and comfortable environment for your animals.

Product Overview

The Lyromix Metal Chicken Coop is engineered for durability and animal welfare. Its galvanized steel frame, combined with a PVC-coated hexagonal wire mesh, offers superior protection against predators. The included waterproof and UV-resistant cover shields animals from adverse weather conditions, making it suitable for year-round outdoor use. The walk-in design with a tall, lockable door simplifies daily tasks such as feeding and cleaning.

Waterproof & Ultraviolet Resistant

Image: The Lyromix chicken coop featuring its waterproof and UV-resistant cover, providing protection from rain, sun, wind, and snow.

Key Features

- **Upgraded Sturdy Structure:** Features an improved galvanized steel frame for overall stability. The screw design minimizes accumulation of rain and snow. Durable PVC-coated hexagonal wire mesh with small gaps keeps predators out.
- **More Space, Stronger Animals:** Provides ample room for chickens, ducks, and other poultry to move freely and forage, promoting natural behavior and healthy growth.
- **Protective Canopy and Secure Door:** Equipped with a waterproof and UV-resistant polyethylene (PE) cover to protect animals from wind, rain, and sun. The tall, lockable security door allows easy walk-in access for cleaning, feeding, and interaction.
- **Suitable for Multiple Scenarios:** Ideal for housing chickens, ducks, geese, and rabbits in various outdoor settings, including farms and backyards. Can also be adapted for protecting raised garden beds or potted plants.
- **Easy Assembly & Customer Service:** All components are shipped in two packages. A detailed instruction manual is included for straightforward assembly. Customer support is available for any questions or

assistance.

PACKAGE CONTENTS

Please verify that all the following components are included in your package before beginning assembly. If any parts are missing or damaged, please contact customer service.

- 1 x Chicken Coop Frame (Galvanized Steel Tubes)
- 1 x Wire Mesh Roll (PVC Coated Hexagonal)
- 1 x Waterproof and UV-resistant Cover (Polyethylene)
- 1 x Instruction Manual
- Ground Pegs and Fasteners

SETUP INSTRUCTIONS

Before You Begin

- Ensure you have a clear, level area for assembly.
- It is recommended that two people work together for easier and safer assembly.
- Wear appropriate safety gear, such as gloves, during assembly.

Assembly Steps

Follow the detailed instructions provided in the included instruction manual for step-by-step assembly. The general process involves:

1. **Frame Assembly:** Connect the galvanized steel tubes to form the main structure of the coop. Ensure all connections are secure and tightened with the provided fasteners.
2. **Mesh Installation:** Attach the PVC-coated hexagonal wire mesh to the assembled frame. Ensure the mesh is taut and securely fastened to prevent any gaps that predators could exploit.
3. **Cover Placement:** Drape and secure the waterproof and UV-resistant cover over the top section of the coop. Ensure it is properly aligned to provide maximum protection and allow for water runoff.
4. **Ground Anchoring:** Use the stable ground pegs to firmly anchor the coop to the ground. This ensures structural stability and prevents movement due to wind or animal activity.

Stable Ground Pegs

Ensure structural stability from the bottom

OPERATION GUIDELINES

Animal Placement

This coop is designed to comfortably house various small animals, including chickens, ducks, geese, and rabbits. Ensure the number of animals placed inside is appropriate for the coop's dimensions to allow sufficient space for movement, foraging, and natural behaviors.

Large Space Available

This can be used with wooden chicken coop

Rabbit

Chicken

Duck

Goose

Access and Security

The walk-in design, featuring a tall and lockable security door, provides convenient access for daily tasks. You can easily enter the coop to feed your animals, collect eggs, perform cleaning, or simply spend time with them. Always ensure the door is securely locked when not in use to prevent animals from escaping and to protect them from potential predators.

Walk in Chicken Coop

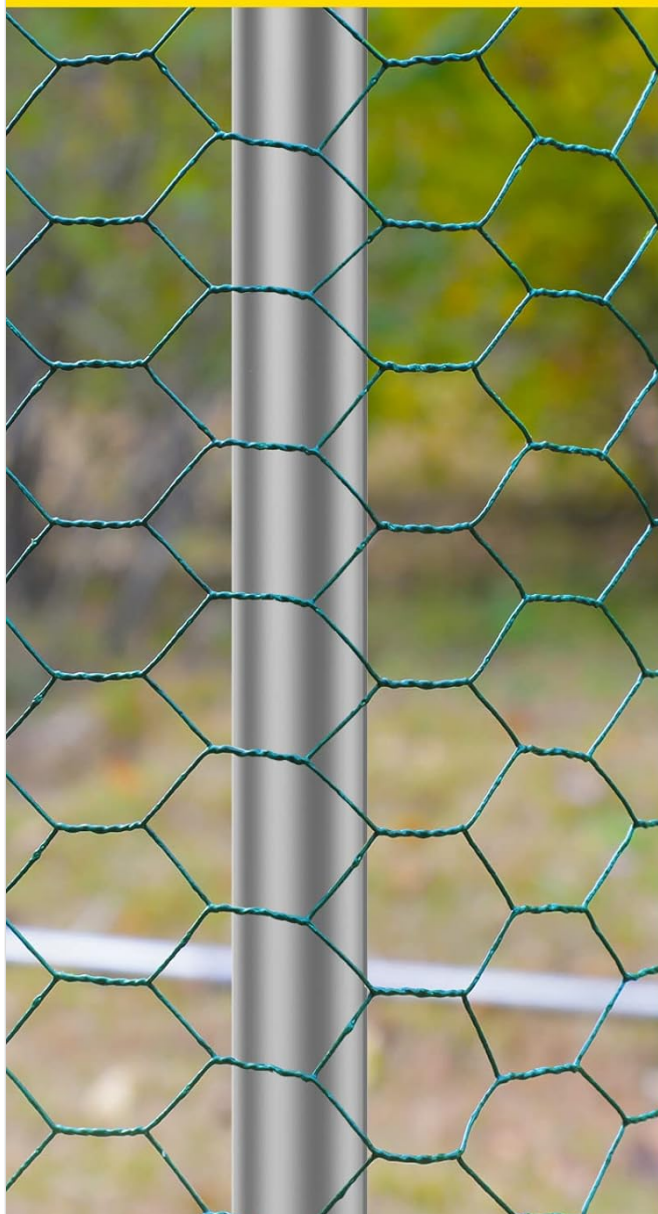

You can easily go in and feed the chicks

Dude, this door is really convenient enough.

MAINTENANCE

Cleaning

- Regularly clean the interior of the coop to maintain a hygienic and healthy environment for your animals.
- The waterproof cover can be easily wiped down with a damp cloth to remove dirt and debris.
- Periodically remove any accumulated droppings or soiled bedding material.

Inspection

- Periodically inspect all frame connections and screws to ensure they remain tight and secure. Re-tighten if necessary.
- Check the ground pegs for stability, especially after periods of heavy rain or strong winds, and re-secure them if they have loosened.

- Examine the wire mesh for any signs of damage, rust, or weak points that could compromise security. Repair or replace damaged sections promptly.
- Inspect the waterproof cover for any tears, punctures, or signs of wear. Replace the cover if its integrity is compromised to ensure continued weather protection.

TROUBLESHOOTING

Instability Issues

- **Symptom:** Coop feels wobbly or unstable.
- **Solution:** Ensure all frame connections are fully tightened. Verify that the ground pegs are deeply and securely inserted into firm, level ground. If the ground is soft, consider adding additional anchoring or a more stable base.

Water Accumulation on Cover

- **Symptom:** Water pools on the waterproof cover after rain.
- **Solution:** Ensure the cover is installed tautly and correctly angled to allow water to run off. Regularly clear any debris, such as leaves or snow, from the cover to prevent pooling and potential damage.

Predator Concerns

- **Symptom:** Concerns about predators accessing the coop.
- **Solution:** Double-check that the hexagonal wire mesh is securely attached to the frame with no gaps or loose sections. Always ensure the security door is firmly closed and locked when not in use. For digging predators, consider burying the bottom edge of the mesh slightly into the ground.

PRODUCT SPECIFICATIONS

Brand	Lyromix
Model Name	Metal Chicken Coop
Model Number	JL-05
UPC	797447913467
Frame Material	Galvanized Steel
Cover Material	Polyethylene (Waterproof & UV-resistant)
Mesh Material	PVC Coated Hexagonal Wire Mesh
Color	Silver
Number of Levels	1
Target Species	Chicken, Duck, Goose, Rabbit
Specific Uses	Outdoor
Special Features	Lockable, Spacious, Waterproof

Dimensions (L x W x H)	10 ft x 25.6 ft x 6.56 ft
Package Weight	60-110 lbs (depending on configuration)

WARRANTY AND SUPPORT

Lyromix is committed to providing high-quality products. For any questions, concerns, or assistance regarding your Lyromix Metal Chicken Coop, please refer to the contact information provided with your purchase documentation. You may also visit the official Lyromix website for further support and resources.

Specific warranty details, including coverage period and terms, are typically included in the product packaging or can be obtained by contacting Lyromix customer service directly. Please retain your proof of purchase for warranty claims.
