RUXINGX G35

RUXINGX G35 Smartwatch User Manual

Model: G35

Introduction

This manual provides comprehensive instructions for the RUXINGX G35 Smartwatch. Please read this guide carefully to ensure proper use, optimal performance, and longevity of your device. Keep this manual for future reference.

Getting Started

Package Contents

Upon unboxing, please verify that all items are present:

- RUXINGX G35 Smartwatch
- Charging Cable
- Silver Steel Strap
- Silicone Strap
- User Manual (this document)

App Installation and Pairing

1. Download the **FitCloudPro** app from your smartphone's app store (compatible with iOS and Android).
2. Open the app and create an account or log in.
3. Ensure Bluetooth is enabled on your smartphone.
4. In the FitCloudPro app, navigate to the device section and search for your RUXINGX G35 smartwatch.
5. Select your watch from the list to initiate the pairing process. Follow any on-screen prompts on both your phone and watch to confirm the connection.

Operating Your Smartwatch

Basic Navigation

The RUXINGX G35 features a 1.32-inch TFT circular ultra-clear touchscreen. Swipe left, right, up, or down to access different functions and menus. Press the side button to return to the home screen or wake the device.

Health Monitoring

The G35 smartwatch is equipped with a dynamic heart rate detector and the latest 8762DT chip for comprehensive health tracking:

- **Heart Rate Monitoring:** Continuously monitors and records your heart rate.
- **Blood Oxygen (SpO2) Monitoring:** Measures your blood oxygen saturation levels.
- **Blood Pressure Monitoring:** Provides estimates of your blood pressure.
- **Sleep Analysis:** Monitors your sleep patterns, including deep and light sleep stages.
- **Female Health Assistant:** Offers personalized menstrual cycle management, pregnancy preparation, and pregnancy reminders.
- **Reminders:** Includes sedentary reminders and reminders to drink water.

Sports Modes

The smartwatch supports 19 professional indoor and outdoor sports modes, including yoga, cycling, tennis, football, running, walking, climbing, and more. It accurately tracks calories burned, distance covered, steps taken, and exercise duration. When connected to the FitCloudPro app, it can record your GPS motion tracking.

Other Features

The RUXINGX G35 Smartwatch includes additional functionalities to enhance your daily experience:

- **Weather Forecast:** View current weather conditions.
- **Alarm Clock:** Set alarms directly from your wrist.
- **Camera Control:** Remotely control your smartphone's camera.
- **Stopwatch:** Use the built-in stopwatch function.
- **Password Lock Screen:** Enhance privacy with a password-protected screen.
- **Split Screen Design:** Access multiple functions efficiently.
- **Multiple Menu Styles:** Choose from 3 different menu display styles.
- **Brightness Adjustment:** Customize screen brightness for optimal viewing.

Care and Maintenance

Water Resistance (IP68)

The RUXINGX G35 Smartwatch is IP68 rated, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for daily use, such as hand washing or light rain. However, it is not recommended for hot showers, saunas, or diving, as steam and high water pressure can compromise the seal.

Image: The smartwatch being exposed to water, highlighting its IP68 rating.

Cleaning

Regularly clean your smartwatch and straps to prevent skin irritation and maintain device hygiene. Use a soft, damp cloth to wipe the screen and body. For silicone straps, mild soap and water can be used. Ensure the watch is completely dry before charging or wearing.

Battery Care

To prolong battery life:

- Avoid extreme temperatures.
- Do not fully discharge the battery frequently.
- Charge the watch using the provided charging cable.
- If the watch will not be used for an extended period, charge it to about 50% and store it in a cool, dry place.

Troubleshooting Guide

If you encounter issues with your RUXINGX G35 Smartwatch, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Cannot receive notifications (SMS, app messages)	Ensure the watch is properly paired with the FitCloudPro app. Check app permissions on your smartphone to allow notifications. For iPhone users, ensure 'Show Previews' is enabled for messages in your phone's notification settings. Verify that notification alerts are enabled within the FitCloudPro app for specific applications.
Watch does not connect to phone	Ensure Bluetooth is active on both devices. Restart both the smartwatch and your smartphone. Try unpairing and re-pairing the device through the FitCloudPro app. Ensure the FitCloudPro app is running in the background.

Problem	Possible Cause / Solution
Short battery life / Watch not holding charge	Battery life can vary based on usage. Frequent use of Bluetooth calling, continuous health monitoring, and high screen brightness will consume more power. Try reducing screen brightness, disabling continuous heart rate monitoring if not needed, and limiting background app refresh. Ensure the charging cable is securely connected and the charging points are clean. If the issue persists after a year of use, the battery may be degrading.
Screen is unresponsive or frozen	Try restarting the smartwatch by pressing and holding the side button until it powers off, then power it back on. If unresponsive, allow the battery to fully drain and then recharge it.

Product Specifications

Feature	Specification
Brand	RUXINGX
Model Name	G35
Color	Silver
Operating System	Android, iOS
