## 1. INTRODUCTION

---

Thank you for choosing the VINGLI White Resin Folding Chair with Padded Cushion. This manual provides essential information for the safe and effective use, setup, and maintenance of your new chair. Please read these instructions carefully before use and retain them for future reference.

This folding chair is designed for versatile indoor and outdoor use, offering a comfortable and space-saving seating solution for various occasions.

# QUALITY & STURDY

VINGLI | RESIN FOLDING CHAIR

Heavy-Duty  
Resin Material 

Triangular  
Force Structure 

Wide and  
Strong Legs

## 2. SAFETY INFORMATION

---

**Please observe the following safety precautions to prevent injury or damage:**

- **Weight Capacity:** Do not exceed the maximum weight capacity of 158.8 kilograms (350 lbs). Overloading can cause the chair to collapse, leading to injury.
- **Pinching Hazard:** Use caution when folding and unfolding the chair to avoid pinching fingers or other body parts in the moving parts.
- **Stability:** Ensure the chair is placed on a stable, level surface before use. Uneven surfaces, especially outdoors, can cause the chair to tip over.
- **Children:** Keep children away from the chair during folding and unfolding operations. Supervise children when they are using the chair.
- **Inspection:** Before each use, inspect the chair for any signs of damage, loose parts, or wear. Do not use a damaged chair.

## 3. SETUP

---

The VINGLI Resin Folding Chair requires no assembly. To set up the chair for use:

1. Hold the chair by the top of the backrest.
2. Gently pull the front and back legs apart until the chair is fully extended.
3. Push down on the seat until it locks into a flat, horizontal position. Ensure the seat is securely in place before sitting.
4. Verify that all four legs are firmly on the ground and the chair is stable.

Image: The chair is shown in both its unfolded and folded states, illustrating the ease of setup and storage.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Using the Chair

Once set up, the chair is ready for use. The padded cushion provides enhanced comfort for extended sitting periods. The ergonomic design supports a comfortable posture.

Image: This image illustrates the ergonomic design features, including a streamlined back and soft seat cushion, promoting comfortable seating.

## 4.2 Folding for Storage

To fold the chair for compact storage or transport:

1. Ensure no one is sitting on the chair.
2. Lift the seat upwards from the front edge. The seat will fold back towards the backrest.
3. Bring the front and back legs together until the chair is flat.
4. The chair can then be stacked with other VINGLI folding chairs to maximize space efficiency.

Image: This image emphasizes the quality and sturdy construction of the chair, featuring heavy-duty resin material, a triangular force structure, and wide, strong legs.

## 5. MAINTENANCE

---

### 5.1 Cleaning

The VINGLI Resin Folding Chair is designed for easy maintenance. To clean the chair:

- Wipe clean with a damp cloth and mild soap.
- Avoid using abrasive cleaners or harsh chemicals, as these may damage the resin material or the padded cushion.
- For the padded cushion, spot clean as needed. The cushion is springy and detachable for easier cleaning.
- Dry thoroughly after cleaning, especially if used outdoors, to prevent water spots or residue buildup.

Image: This image highlights the springy and detachable nature of the seat cushion, making it easier to clean and maintain.

### 5.2 Storage

When not in use, store the folded chairs in a dry, cool place to prolong their lifespan. While the chairs are rustproof and weather-resistant, prolonged exposure to extreme weather conditions may affect their appearance over time.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your VINGLI Folding Chair.

Problem	Possible Cause	Solution
Chair feels unstable or wobbly.	Not fully unfolded; placed on uneven ground.	Ensure the seat is fully locked into position. Move the chair to a flat, level surface.
Difficulty folding/unfolding.	Mechanism stiff or obstructed.	Apply gentle, even pressure. Check for any debris or obstructions in the folding mechanism. Do not force.
Padded cushion appears dirty.	Normal use and spills.	Remove the cushion and spot clean with mild soap and water. Allow to air dry completely.
