Ultralux UL6

Ultralux 6" LED Flush Mount Ceiling Light

INSTRUCTION MANUAL

Model: UL6

Introduction

Thank you for choosing the Ultralux 6-inch LED Flush Mount Ceiling Light. This fixture provides crisp, cool white lighting with energy-efficient LED technology. Designed for easy installation and long-lasting performance, this manual will guide you through the setup, operation, and maintenance of your new light fixture to ensure optimal performance and safety.

Safety Information

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards that could cause personal injury or property damage.

- **WARNING:** Risk of electric shock. Disconnect power at the fuse or circuit breaker before installing or servicing.
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- Use only with 120V AC, 60Hz circuits.
- Do not attempt to modify the fixture. Any modifications will void the warranty and may cause safety hazards.
- Suitable for damp locations. An optional O-ring is included for installation in wet locations.

Package Contents

Verify that all components are present before beginning installation:

- 1 x Ultralux 6" LED Flush Mount Ceiling Light Fixture
- Mounting Hardware (2 x Mounting Screws, 3 x Wire Nuts)

- 1 x Optional O-Ring (for wet locations)
- Instruction Manual

Downlighting for a Variety of Applications

Image: Included mounting hardware, showing wire nuts and mounting screws, along with an optional O-ring for wet location installations.

Setup and Installation

This low-profile light fixture is designed for easy surface mounting and fits most standard junction boxes with 2.75" and 3.5" screw spacing.

1. **Turn Off Power:** Before starting, ensure the power to the junction box is turned off at the circuit breaker or fuse box.
2. **Prepare Wiring:** Carefully pull the electrical wires from the junction box.
3. **Connect Wires:** Using the provided wire nuts, connect the fixture's wires to the corresponding house wires:
 - Connect the **black** fixture wire to the **black** (hot) house wire.
 - Connect the **white** fixture wire to the **white** (neutral) house wire.
 - Connect the **green** (ground) fixture wire to the **bare copper or green** (ground) house wire.

Ensure all connections are secure.

- Mount Fixture:** Align the fixture over the junction box. Use the two mounting screws to secure the fixture to the junction box. Ensure the fixture is flush against the ceiling.
- Optional O-Ring (for Wet Locations):** If installing in a wet location (e.g., shower), place the included O-ring between the fixture and the mounting surface before securing the fixture.
- Restore Power:** Once the fixture is securely mounted, restore power at the circuit breaker.

Three Color Temperature Options Available

2700K
(Warm White)

3000K
(Soft White)

4000K
(Cool White)

Operating Instructions

The Ultralux 6-inch LED Flush Mount Ceiling Light is designed for simple operation and enhanced functionality.

- Turning On/Off:** Operate the light using a standard wall switch connected to the fixture.
- Dimming Functionality:** This fixture is TRIAC dimmable, allowing you to adjust the brightness when connected to a compatible TRIAC dimmer switch (sold separately). Adjust the dimmer switch to achieve your desired light level.
- Color Temperature:** This specific model provides a 4000K Cool White light, ideal for task lighting and creating a bright, energetic atmosphere.

Mounting Hardware Included

Fits Junction Boxes with 2.75" and 3.5" Screw Spacing

Wire Nuts

Maintenance

The Ultralux LED light fixture requires minimal maintenance due to its long-lasting LED technology.

- Cleaning:** To clean the fixture, ensure the power is off. Use a soft, dry, or slightly damp cloth. Do not use abrasive cleaners, solvents, or cleaners containing alcohol, as these can damage the finish or electrical components.
- No Bulb Replacement:** This fixture features integrated LEDs, meaning there are no bulbs to replace. The LEDs are designed to last over 50,000 hours.

Troubleshooting

If you encounter issues with your Ultralux LED light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture; loose wiring; faulty switch.	Check circuit breaker/fuse. Ensure all wire connections are secure. Test the wall switch.
Light flickers or dims improperly.	Incompatible dimmer switch; loose wiring; voltage fluctuations.	Ensure you are using a TRIAC compatible dimmer. Check wire connections. Consult an electrician if voltage issues persist.
Light is not as bright as expected.	Dimmer setting too low; dust/debris on fixture.	Adjust dimmer to maximum brightness. Clean the fixture surface.

If the problem persists after trying these solutions, please contact Ultralux customer support.

Specifications

Feature	Detail
Brand	Ultralux
Model Number	UL6
Product Dimensions	6"L x 6"W x 1"H
Color Temperature	4000K (Cool White)
