

## NESTERA PENTHOUSE

# Nestera Penthouse Chicken Coop User Manual

**Brand:** NESTERA | **Model:** PENTHOUSE

## 1. PRODUCT OVERVIEW

The Nestera Penthouse Chicken Coop is a durable and low-maintenance housing solution designed for chickens and bantams. Constructed from 100% recycled plastic, this coop offers a long lifespan and resistance to various weather conditions. Its design prioritizes ease of cleaning, optimal temperature regulation, and predator protection, ensuring a safe and comfortable environment for your flock.

This model is suitable for housing up to 8 large chickens or 15 bantams, providing ample space with integrated perches and nesting boxes.

*The Nestera Penthouse Chicken Coop provides a comfortable and secure home for your flock, designed for easy interaction and care.*

## **2. SETUP AND ASSEMBLY**

The Nestera Penthouse Chicken Coop features a modular design engineered for straightforward assembly. While specific step-by-step instructions are provided with the product packaging, the intuitive interlocking components allow for quick setup without specialized tools. The coop can also be easily disassembled for deep cleaning or relocation.

**Make chicken keeping a breeze  
with our maintenance-free coop**

*The modular design facilitates easy and quick assembly.*

### **3. OPERATING INSTRUCTIONS**

#### **3.1 Daily Use**

The coop is designed for convenient daily operation. The front door features a reinforced rotating metal slide mechanism, making it secure against predators while allowing easy access for your chickens. The rear door is lockable for added security.

#### **3.2 Ventilation and Temperature Control**

The coop's plastic material and design contribute to effective temperature regulation. During warmer months, the solid, UV-resistant roof reflects solar heat, helping to keep the interior cool. In colder periods, adequate ventilation is maintained to prevent moisture buildup, which is crucial for chicken health. The ventilation holes are designed to be too small for predators.

#### **3.3 Nesting and Roosting**

The coop includes two rounded perches, providing comfortable roosting areas for your chickens. Two nesting boxes are integrated to encourage egg laying in a secure and private space.

**MADE WITH 100%  
RECYCLED PLASTIC**

Fits for:

**8x**

**Large hens**

*Constructed from 100% recycled plastic, the Nestera Penthouse coop is designed to comfortably house up to 8 large hens.*

### **3.4 Optional Accessories**

The Nestera Penthouse coop can be enhanced with several optional accessories to improve functionality and convenience:

- **Dropping Trays:** Facilitate easier waste removal and cleaning.
- **Wheels:** Allow for convenient relocation of the coop.
- **Automatic Door Opener:** Automates the opening and closing of the coop door.
- **6.5ft Run & Run Extension:** Provides an enclosed outdoor space for your chickens.

*Enhance your Nestera Penthouse chicken coop with optional accessories such as dropping trays for easier waste management, wheels for portability, an automatic door opener for convenience, and an extended run for more space.*

## 4. MAINTENANCE

One of the primary advantages of the Nestera Penthouse Chicken Coop is its low maintenance requirement. Unlike traditional wooden coops, it does not require routine treatment with sealants or preservatives, nor is there a need to replace rotten timbers.

### 4.1 Cleaning

The smooth, non-porous surfaces of the coop make cleaning exceptionally easy. A quick hose-down is often sufficient for regular cleaning. For more thorough cleaning, the coop's modular design allows for easy disassembly, and stubborn dirt or droppings can be removed with a brush. The plastic material dries quickly, which is beneficial, especially in colder climates.

Key removable components for deep cleaning include:

- **Removable Roof:** Provides full access to the interior.
- **Removable Perches:** Allows for individual cleaning of roosting bars.
- **Removable Nest Boxes:** Simplifies cleaning of nesting areas.

*The coop features smooth, crevice-free interiors, promoting a hygienic environment for your chickens and simplifying cleaning.*

## 5. TROUBLESHOOTING

### 5.1 Predator Protection

The Nestera Penthouse coop is designed with predator resistance in mind. It is made from tough, chew-resistant 100% recycled plastic. The ventilation holes are intentionally small to prevent access by common predators like foxes or

weasels. Ensure the rear door is securely locked and the front door's reinforced rotating metal slide is properly engaged to prevent unauthorized entry.

### 5.2 Temperature Management

While the coop's design aids in temperature regulation, extreme weather conditions may require additional measures. In very cold environments, chickens are generally tolerant due to their feathers, but supplemental heating (e.g., a poultry-safe heater) might be considered if temperatures drop significantly below freezing. In extremely hot conditions, ensure the coop is placed in a shaded area and provide ample fresh water to help keep chickens cool.

## 6. SPECIFICATIONS

Feature	Detail
Brand	NESTERA
Model	PENTHOUSE
Material	100% Recycled Plastic
Dimensions (LxWxH)	54.5" x 31.4" x 46.06"
Capacity	Up to 8 Large Chickens or 15 Bantams
Perches	2 Rounded Perches (23.22" long)
