3. INSTALLATION INSTRUCTIONS

Follow these steps to replace the fine dust filter in your Miele TriFlex HX1 vacuum cleaner:

1. **Remove the old filter:** Locate the filter assembly on your vacuum. Gently pull up the end of the filter marked with the word "pull" to release it.
2. **Disassemble the motor protection filter:** If replacing both parts, unlock the motor protection filter by turning it counterclockwise from the other end, then pull it up to separate it from the HEPA filter.
3. **Prepare the new filter:** The new HEPA filter and motor protection filter are typically pre-assembled as one unit in the package. No additional assembly is required before installation.
4. **Install the new filter:** Press the new filter assembly firmly into the dust container. Turn the filter clockwise until it locks securely into place.

Step 1

1. Pull up the end with the word "pull" slightly

Step 2

2. Unlock the motor protection filter by turning it counterclockwise in the other end and then pull it up.

Step 3

3. Before installing the filter, please make sure your HEPA filter and motor protection filter are assembled together (the filter in the package is already assembled. NO NEED TO INSTALL).

Step 4

4. Press the new filter into the dust container and turn the filter clockwise to lock it.

5. MAINTENANCE AND CLEANING

To ensure optimal performance and extend the lifespan of your filters, regular cleaning is recommended:

- The HX1 FSF Fine Dust Filters are washable and reusable.
- Hand wash the filters in water.
- Allow the filters to air dry completely before reinstallation and reuse. Do not use heat to dry.
- For best performance, clean the filters every 1-2 months.

6. TROUBLESHOOTING

- **Filter does not fit:** Ensure you have the correct filter model (HX-FSF 11289902) for your specific Miele TriFlex HX1 series vacuum. Double-check that any protective plastic or packaging materials have been fully removed from the filter before attempting installation.
- **Reduced vacuum suction:** A clogged filter can reduce suction. Ensure the filter is clean and properly installed. If the issue persists after cleaning, consider replacing the filter.
