AUTHENTICITY AND IDENTIFICATION

To verify the authenticity of your Pokémon Charizard TG03 card, observe the following details:

- Card Number:** The card should display the number TG03/TG30, indicating its position within the Trainer Gallery subset of the Lost Origin expansion.
- Set Symbol:** Look for the official Lost Origin set symbol, typically located in the bottom left or right corner of the card.
- Holographic Pattern:** Authentic holographic cards feature a distinct, consistent pattern that shimmers when tilted under light.
- Card Material and Finish:** Genuine Pokémon cards have a specific card stock and a smooth, high-quality finish.

CARE AND HANDLING

Proper care is crucial for maintaining the condition and value of your collectible card. Follow these recommendations:

- Handle with Care:** Always handle the card by its edges to avoid transferring oils from your skin, which can cause smudges or damage. Consider wearing cotton gloves.
- Protective Sleeves:** Immediately place the card into a soft, acid-free penny sleeve to prevent surface scratches.
- Top Loaders or Card Savers:** For additional protection, insert the sleeved card into a rigid top loader or card saver. This prevents bending and creasing.
- Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of the card's colors and holographic effects.
- Keep Dry:** Protect the card from moisture and humidity, which can lead to warping or water damage.

DISPLAY AND STORAGE

To showcase and preserve your card effectively:

- Display Cases:** Use UV-protective display cases for long-term display to prevent light damage.
- Binders:** If storing in a binder, use side-loading, acid-free pages to prevent cards from falling out and to protect them from dust.
- Temperature and Humidity:** Store cards in a cool, dry environment with stable temperature and humidity levels to prevent warping or degradation.
