GAMEPLAY

The game is played over several rounds, with players taking turns to roll dice and complete dog cards. The first player to complete six dog cards wins.

Player Turn Sequence:

1. **Choose an Action:** Select one of the available action cards (e.g., Roll Over, Howl, Fetch). Each action provides a unique way to roll dice, gain treats, or interact with dog cards. Once an action is used, it is typically unavailable until the next round.
2. **Roll Dice:** Follow the instructions of the chosen action to roll a specified number of dice.
3. **Place Dice:** Place the rolled dice onto matching spots on your active dog cards. Each dog card has specific spot patterns that need to be filled.
4. **Bury Dice:** If you cannot place a die on an active dog card, it must be 'buried' in your yard (player mat).
5. **Avoid Busting:** If the total value of pips on buried dice in your yard exceeds 7, you 'bust'. When you bust, you lose all dice currently on your active dog cards and all buried dice.
6. **Complete Dog Cards:** Once all spots on a dog card are filled with dice, the card is completed and scored.

Winning the Game:

The first player to successfully complete and score six dog cards wins the game.
