Ibergrif M11003A

Ibergrif M11003A Single-Lever Basin Mixer Tap

User Manual

1. INTRODUCTION

Thank you for choosing the Ibergrif M11003A Single-Lever Basin Mixer Tap. This manual provides essential information for the safe installation, operation, and maintenance of your new faucet. Please read these instructions carefully before installation and retain them for future reference.

Image 1.1: Ibergrif M11003A Single-Lever Basin Mixer Tap, showcasing its sleek design.

The Ibergrif M11003A is designed for modern bathrooms, featuring a durable finish, water-saving technology, and precise temperature control. Its compact design ensures adaptability to various bathroom styles.

2. SAFETY INSTRUCTIONS

- Always turn off the main water supply before attempting any installation or maintenance.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- Ensure all connections are secure to prevent leaks.
- If you are unsure about any part of the installation, consult a qualified plumber.
- Do not use abrasive cleaners or harsh chemicals on the faucet finish, as this may cause damage.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning installation:

- Ibergrif M11003A Basin Mixer Tap (1 unit)

- Hot and Cold Water Supply Hoses (2 units)
- Mounting Hardware (gasket, washer, fixing nut)
- Instruction Manual

4. INSTALLATION GUIDE

This faucet is designed for single-hole installation. Ensure your basin has a compatible hole diameter (1.25-1.5 inches / 32-38 mm) and a maximum deck thickness of 1.57 inches / 40 mm.

Image 4.1: High-quality PEX water supply hoses for hygienic and ecological connection.

4.1. Pre-Installation

1. Turn off the main water supply to your home.
2. Remove your old faucet, if applicable. Clean the mounting surface thoroughly.
3. Gather necessary tools: adjustable wrench, screwdriver, plumber's tape (optional).

4.2. Installation Steps

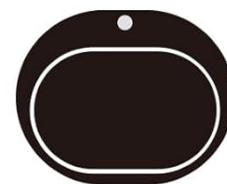

1. Insert the hot and cold water supply hoses into the base of the faucet. Hand-tighten them securely.
2. Place the rubber gasket onto the bottom of the faucet body.
3. Insert the faucet body through the mounting hole in the basin.
4. From underneath the basin, slide the metal washer and then the fixing nut onto the threaded shank.
5. Tighten the fixing nut firmly with an adjustable wrench to secure the faucet. Ensure the faucet is properly aligned.
6. Connect the hot and cold water supply hoses to your angle stops (water supply valves). The red marked hose is for hot water, blue for cold. Hand-tighten, then use a wrench for a final quarter-turn. Do not overtighten.
7. Slowly turn on the main water supply and check for any leaks.

5. OPERATING INSTRUCTIONS

The Ibergriif M11003A features a single-lever design for easy and precise control of water flow and temperature.

MISCELATORE MONOLEVA

Controllo Fluido Caldo/Freddo con Design Elegante

Image 5.1: Single lever control for hot and cold water flow.

- **Water Flow Control:** Lift the lever upwards to increase water flow. Push it downwards to decrease or turn off the water.
- **Temperature Control:** Move the lever to the left for hot water and to the right for cold water. Adjust the position between left and right to achieve your desired temperature.
- **Water Saving:** This faucet incorporates efficient water-saving technology, reducing water consumption by up to 30% without compromising performance.
- **360° Spout Rotation:** The ergonomic spout offers optimized 360° rotation for flexible and comfortable use, adapting to various basin needs.

6. MAINTENANCE

6.1. Cleaning the Faucet

The Ibergriif M1 1003A features a durable polished finish that is resistant to oxidation and scratches. To maintain its appearance:

- Clean regularly with a soft cloth and mild soap.
- Rinse thoroughly with clean water and dry with a soft cloth to prevent water spots.
- Avoid using abrasive cleaners, scouring pads, or chemical solvents, as these can damage the finish.

Image 6.1: The faucet's high-quality finish is designed for easy cleaning and resistance to water stains.

6.2. Aerator Maintenance

The faucet is equipped with a premium aerator that helps save water and provides a soft, splash-free flow. Over time, mineral deposits can accumulate in the aerator, affecting water flow.

Il filtro è smontabile e può essere pulito.

AERATORE PREMIUM

Risparmio Idrico + Design Antisplash
Flusso Morbido & Filtro Integrato

Image 6.2: The premium aerator, designed for water saving and anti-splash flow, is easily removable for cleaning.

- To clean, unscrew the aerator from the spout.
- Disassemble the aerator components and rinse them under running water.
- If mineral deposits are present, soak the components in a solution of equal parts white vinegar and water for 30 minutes.
- Scrub gently with a small brush if necessary.
- Reassemble the aerator and screw it back onto the spout.

Image 6.3: The multi-layer filter system within the aerator, designed to reduce water consumption and filter impurities.

6.3. Ceramic Cartridge

The faucet is equipped with a reliable ceramic cartridge, tested for over 500,000 cycles to ensure leak-free performance and reduce the risk of dripping.

Image 6.4: Detail of the reinforced ceramic cartridge, designed for durability and longevity.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Low water flow	Clogged aerator; partially closed shut-off valve; kinked supply hose.	Clean the aerator (see Section 6.2); ensure shut-off valves are fully open; check supply hoses for kinks.
Leaks from faucet base	Loose mounting nut; damaged gasket.	Tighten the mounting nut; inspect and replace the gasket if damaged.
Dripping from spout	Debris in ceramic cartridge; worn cartridge.	Flush the system by turning water on and off several times; if problem persists, the cartridge may need replacement (contact support).

Problem	Possible Cause	Solution
Water temperature not adjusting	Issue with water heater; cartridge malfunction.	Check water heater settings; if problem persists, contact support for cartridge inspection.

8. SPECIFICATIONS

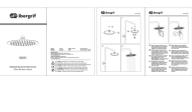

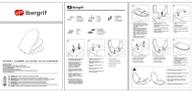

Feature	Detail
Brand	Ibergrif
Model Number	M11003A
Material	Brass
Finish	Polished
Color	Brownish (Arch Spout Style)
Installation Type	Single-hole
Number of Handles	1 (Single-Lever)
Flow Rate	10 Liters per minute
Spout Height	65 mm
Spout Reach	116 mm
Product Dimensions	17.3 x 17 x 17.3 cm
Item Weight	960 g
Special Features	Leak-resistant, Lead-free, Water-saving system
Recommended Use	Bathroom
