# ORIA 3-in-1 Foldable Wireless Charger Model 001 User Manual

Efficient and Portable Charging Solution

## 1. INTRODUCTION

Thank you for choosing the ORIA 3-in-1 Foldable Wireless Charger. This device is designed to provide a convenient and efficient charging solution for your compatible iOS phone, Apple Watch, and AirPods simultaneously. Its foldable design enhances portability, making it ideal for both home and travel use. Please read this manual carefully before use to ensure proper operation and to maximize the product's lifespan.

## 2. PACKAGE CONTENTS

---

Please check the package for the following items:

- 1 x ORIA 3-in-1 Foldable Wireless Charger
- 1 x Type-C Charging Cable
- 1 x User Manual (this document)

## 3. PRODUCT OVERVIEW

---

The ORIA 3-in-1 Wireless Charger features three dedicated charging modules for your smartphone, smartwatch, and wireless earbuds. Its soft silicone material allows for a 180° fold, enabling it to be used flat or as a stand. The device incorporates intelligent protection mechanisms to ensure safe charging.

## Foldable & Magnetic Suction

The charger can be used as a stand after being folded and adsorbed

Phone case  $\leq 5\text{mm}$

Magnets

Metal Cases

Credit Card

Metal Ring

**Notice:** Only supports adsorption of iphone12/13/14 series mobile phones

# Easy To Carry

Foldable design: 7.5cm\*7.5cm\*2.5cm

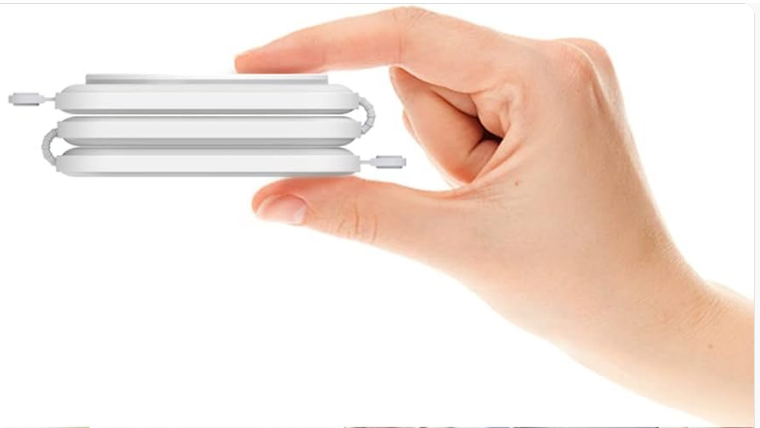

Image 3.2: The compact, folded design of the charger, demonstrating its portability by fitting into a pocket and a small bag.

## 4. SETUP INSTRUCTIONS

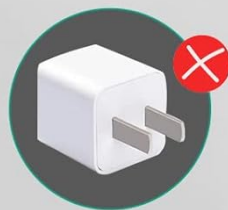

1. **Connect Power:** Connect the provided Type-C charging cable to the charger's input port and then to a compatible power adapter.
2. **Power Adapter Requirement:** For optimal performance and fast charging, use a Type-C 18W power adapter (not included). Using an adapter with lower wattage may result in slower charging speeds or insufficient power for multiple devices.
3. **Placement:** Place the charger on a flat, stable surface. You can use it in its flat, extended form or fold it into a stand configuration as desired.

# 3-in-1 Charging

Use Type-C 18W adapter for fast charging

18W Adapter  
(Adapter is not included)

Apple 5V/1A Adapter

## 5. OPERATING INSTRUCTIONS

Once the charger is connected to a power source, it is ready for use. Simply place your compatible devices on their respective charging areas.

- **Smartphone Charging:** Place your iOS phone on the designated phone charging pad. Ensure the phone is centered for proper alignment with the charging coil. The charger supports magnetic adsorption for iPhone 12/13/14 series mobile phones when used as a stand.
- **Apple Watch Charging:** Place your Apple Watch on the circular watch charging module.
- **AirPods Charging:** Place your AirPods case on the central charging pad for earbuds.

The charger will automatically detect the device and begin charging. You can charge all three devices simultaneously.

Image 5.1: The charger in operation, simultaneously charging a smartphone, AirPods, and an Apple Watch.

## 6. CHARGING INDICATOR LIGHT

---

The phone charging module features an indicator light to communicate the charging status:

- **Green Light:** Indicates standby mode.
- **Blue Light (breathing):** Indicates active charging.
- **Alternating Blue and Green Lights:** Indicates foreign body detection (FOD) or an error. Remove any objects from the charging pad.

A dedicated button allows you to manually turn off the indicator light at any time, which can be useful in dark environments.

## 7. SAFETY PRECAUTIONS

The ORIA 3-in-1 Wireless Charger is equipped with intelligent chips that provide multiple safety features:

- **Overvoltage Protection:** Prevents damage from excessive voltage input.
- **Overcurrent Protection:** Safeguards against excessive current flow.
- **Short-Circuit Protection:** Protects the device and connected electronics from short circuits.
- **Temperature Control:** Manages the operating temperature to prevent overheating.
- **Foreign Body Detection (FOD):** Detects metallic objects on the charging surface and stops charging to prevent heat buildup and potential damage.

### Important Notes:

- Only use a Type-C 18W adapter for charging.
- Ensure your phone case is no thicker than 5mm for effective wireless charging.
- Remove any magnets, metal cases, credit cards, or metal rings from your phone before placing it on the charger, as these can interfere with charging or trigger foreign body detection.

- Do not disassemble, modify, or repair the device yourself.
- Keep the charger away from water, moisture, and high temperatures.

## Security Charge

Image 7.1: An internal view of the charger highlighting its multiple protection features for safe operation.

## 8. MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the surface. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the charger in a cool, dry place, away from direct sunlight and extreme temperatures. Its foldable design makes it easy to store and transport.

## 9. TROUBLESHOOTING

- **Device not charging:**
  - Ensure the charger is properly connected to a working power outlet and an 18W Type-C adapter.
  - Verify that your device is placed correctly and centered on the charging pad.

- Remove any metallic objects, magnets, or thick cases from your device.
  - Check if the indicator light is showing an error (alternating blue and green).
  - Confirm your device is compatible with wireless charging.
- **Slow charging:**
    - Ensure you are using an 18W Type-C power adapter. Lower wattage adapters will result in slower charging.
    - Avoid charging multiple devices if you require the fastest possible charge for a single device, as power is shared.
    - Ensure proper alignment of the device on the charging coil.
  - **Indicator light flashing blue and green:**
    - This indicates foreign body detection. Remove any objects from the charging surface and try again.
  - **Charger feels warm:**
    - It is normal for the charger to become slightly warm during operation. If it becomes excessively hot, disconnect it immediately and contact support.

## 10. SPECIFICATIONS

Feature	Detail
Model Number	001
Input Voltage	5 Volts
Amperage	2 Amps
Total USB Ports	1 (Type-C)
Connector Type	USB Type C
Compatible Devices	Cellular Phones, Apple Watch, AirPods
Compatible Phone Models	iOS phones (e.g., iPhone 14/14 Pro, 13/13 Pro, 12/12 Pro, 11/11 Pro, SE, X, 8)
Compatible Watch Models	iWatch 1/2/3/4/5/6/SE/7/8
Compatible Earbud Models	Airpods 2/3, Airpods Pro 1/2
Special Features	Charging Indicator, Short Circuit Protection, Overvoltage Protection, Overcurrent Protection, Temperature Control, Foreign Body Detection
Item Weight	7 ounces (approx. 198g)
Package Dimensions	4.06 x 3.46 x 2.28 inches
