

ALONEFIRE PL500

ALONEFIRE PL500 Clip-on Light Instruction Manual

Model: PL500 | Brand: ALONEFIRE

INTRODUCTION

Thank you for choosing the ALONEFIRE PL500 Clip-on Light. This versatile and compact light is designed for convenience and hands-free illumination in various situations. With its strong magnetic attachment and multiple light modes, it's an essential accessory for professionals, outdoor enthusiasts, and anyone needing reliable portable lighting.

The ALONEFIRE PL500 Clip-on Light, showcasing its compact and ergonomic design.

PRODUCT FEATURES

- **Strong Magnetic Ends:** Equipped with two powerful magnetic ends, the light securely attaches to metal surfaces or thin fabrics, ensuring it stays in place during use.

- **USB Rechargeable:** Conveniently recharge the built-in battery using any standard USB port from a computer, power adapter, laptop, or car charger.
- **Optimal Brightness:** Provides 20 lumens of bright white light, suitable for dark environments without being overly intense.
- **Versatile Application:** Ideal for use as nurse badge accessories, for night shifts, or clipped onto shirts, pants, caps, backpacks, dog collars, and more.

The ALONEFIRE PL500 securely clipped onto a denim jacket, demonstrating its hands-free utility.

WHAT'S IN THE BOX

Upon opening your ALONEFIRE PL500 package, you will find the following items:

- ALONEFIRE PL500 Clip-on Light
- USB Charging Cord
- Keychain Light (Bonus Item)

The complete contents of the ALONEFIRE PL500 package, including the light, charging cable, and bonus keychain light.

SETUP

Before first use, it is recommended to fully charge your ALONEFIRE PL500 Clip-on Light. To do this, you will need to remove the light unit from its silicone outer shell. This process is straightforward:

1. Gently peel back the silicone shell from one end of the light unit.
2. Slide the light unit completely out of the silicone casing.
3. Locate the micro-USB charging port on the side of the light unit.
4. Connect the provided USB charging cable to the light unit and a power source.

Once charged, reinsert the light unit into the silicone shell, ensuring it is properly seated and protected.

OPERATING INSTRUCTIONS

The ALONEFIRE PL500 features a simple one-hand operation push button switch to control its functions.

- **Turning On/Off:** Press the button once to turn the light on. Press and hold the button for a few seconds to turn the light off.

- **Changing Modes:** While the light is on, press the button repeatedly to cycle through the three available modes: warm light, red light, and flashing red light.

A visual comparison showing the difference between warm light and white light emitted by the ALONEFIRE PL500.

CHARGING THE DEVICE

The ALONEFIRE PL500 is equipped with a rechargeable battery for extended use. Follow these steps to charge your device:

1. Remove the light unit from its silicone shell. This is crucial for accessing the charging port.
2. Insert the micro-USB end of the provided charging cable into the charging port on the light unit.
3. Connect the USB-A end of the cable to a compatible power source (e.g., computer USB port, wall adapter, power bank).
4. The indicator light on the unit will turn red while charging and will turn off or change color (depending on the model) when fully charged.
5. Once charging is complete, disconnect the cable and carefully reinsert the light unit into its silicone shell.

The ALONEFIRE PL500 light unit detached from its silicone casing, ready for USB charging.

Note: There are no official seller videos available for embedding that demonstrate the charging process. The instructions above provide a detailed guide.

MAINTENANCE

To ensure the longevity and optimal performance of your ALONEFIRE PL500 Clip-on Light, follow these maintenance guidelines:

- **Cleaning:** Wipe the light and its silicone shell with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the surface.
- **Battery Care:** To extend battery life, charge the light promptly when its brightness diminishes. Avoid completely draining the battery before recharging.
- **Storage:** Store the light in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.

TROUBLESHOOTING

If you encounter any issues with your ALONEFIRE PL500, refer to the following common troubleshooting tips:

- **Light Not Turning On:**
 - Ensure the battery is charged. Connect it to a power source and check the charging indicator.
 - Press and hold the power button for a few seconds to ensure it's not just a quick press.
- **Light Not Charging:**
 - Verify that the light unit is fully removed from the silicone shell before attempting to charge.
 - Check the USB cable for any damage and ensure it's securely connected to both the light and the power source.
 - Try a different USB port or power adapter.
- **Light is Dim:**
 - The battery level is likely low. Recharge the device fully.

SPECIFICATIONS
