

SP CONNECT 52812

SP CONNECT Universal Charging Phone Clamp |SPC+| User Manual

Model: 52812

1. INTRODUCTION

Thank you for choosing the SP CONNECT Universal Charging Phone Clamp |SPC+|. This product is designed to securely hold and wirelessly charge your smartphone while on the go, specifically engineered for use with motorcycles and e-bikes. Its robust and waterproof design ensures reliable performance in various conditions. This manual provides essential information for the proper setup, operation, and maintenance of your new device. Please read it thoroughly before use to ensure optimal performance and safety.

2. SAFETY INFORMATION

Always prioritize safety when operating your vehicle. Improper installation or use of this device can lead to accidents or injury. Please observe the following safety guidelines:

- Ensure the clamp is securely mounted and the phone is firmly seated before riding.
- Do not attempt to adjust the clamp or phone while operating the vehicle.
- Verify that all cables are routed safely and do not interfere with vehicle controls.
- Avoid exposing the device to extreme temperatures or harsh chemicals.
- If the device appears damaged, discontinue use immediately.

3. BOX CONTENTS

Please check the package contents to ensure all items are present:

- 1 x SP CONNECT Universal Charging Phone Clamp |SPC+|
- 1 x Tool SPC+

4. SETUP

Follow these steps to set up your Universal Charging Phone Clamp:

1. Mounting the Clamp:

Attach the Universal Charging Phone Clamp to your vehicle's handlebar or other compatible mounting point using the provided tool and any necessary SP CONNECT mounting accessories (sold separately). Ensure the mount is firm and stable, with no wobble.

2. **Connecting Power:**

Connect the clamp's power cable to a suitable power source on your vehicle, such as the motor, e-bike battery, or an external power bank. Ensure the connection is secure and waterproof. Route the cable safely away from moving parts and heat sources.

3. **Adjusting the Clamp:**

The clamp features an adjustable mechanism to accommodate various smartphone sizes. Use the adjustment knob (visible on the back of the clamp) to widen or narrow the grips to fit your specific phone model securely. Ensure your phone fits snugly without excessive force.

5. OPERATING INSTRUCTIONS

Using your Universal Charging Phone Clamp is straightforward:

1. **Placing Your Phone:**

Gently open the clamp grips and place your smartphone onto the charging pad. Ensure the phone is centered on the pad for optimal wireless charging. Release the grips to allow them to secure the phone firmly.

Image: A hand carefully placing a smartphone into the SP CONNECT Universal Charging Phone Clamp.

2. **Wireless Charging:**

Once your phone is correctly placed and the clamp is powered, wireless charging will begin automatically. The clamp provides fast inductive charging at 15 watts. A charging indicator (if present on your phone) will confirm the charging status.

3. Removing Your Phone:

To remove your phone, gently open the clamp grips and lift the phone out. Always do this when the vehicle is stationary and safe to do so.

6. MAINTENANCE

To ensure the longevity and optimal performance of your SP CONNECT Universal Charging Phone Clamp, follow these maintenance tips:

- **Cleaning:** The clamp is 100% waterproof. Clean the device periodically with a damp cloth. Avoid using abrasive cleaners or solvents.
- **Inspecting Connections:** Regularly check all power connections and mounting points for tightness and signs of wear. Re-tighten screws if necessary.
- **Storage:** If storing the device for an extended period, ensure it is clean and dry. Store in a cool, dry place away from direct sunlight.

7. TROUBLESHOOTING

If you encounter issues with your Universal Charging Phone Clamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Phone not charging wirelessly.	- Power cable not connected or loose. - Phone not centered on charging pad. - Phone case too thick or contains metal. - Vehicle power source is off or insufficient.	- Check power cable connection to the clamp and power source. - Re-position phone to ensure it's centered on the charging pad. - Remove phone case or use a wireless charging compatible case. - Ensure vehicle power is on and providing sufficient current.
Phone feels loose in the clamp.	- Clamp not adjusted tightly enough. - Phone case interfering with grip.	- Re-adjust the clamp using the adjustment knob to ensure a snug fit. - Ensure phone case does not prevent the grips from fully securing the phone.
Device not powering on.	- No power from vehicle source. - Damaged cable or internal fault.	- Verify vehicle power source is active. - Inspect cable for damage. If issues persist, contact customer support.

8. SPECIFICATIONS

Feature	Detail
Model Number	52812
Product Dimensions	4.3 x 3.9 x 1.5 inches
Item Weight	3.2 ounces
Wireless Charging Output	15 Watts (Inductive)
Compatibility	Universal Smartphones
Mounting Type	Vehicle Mount (requires SPC+ compatible mount)
Water Resistance	100% Waterproof

9. WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please refer to the official SP CONNECT website or contact their customer service directly. Keep your proof of purchase for warranty claims.
Note: Specific warranty terms may vary by region and retailer.
