MOOKAKA B0BJTGRMB9

MOOKAKA Android Car Stereo Navigation System

Instruction Manual for Jaguar E-Pace 2016-2020 (8+128GB)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your MOOKAKA Android Car Stereo Navigation System. Please read this manual thoroughly before using the product to ensure proper function and safety. This system is designed specifically for the Jaguar E-Pace models from 2016 to 2020.

2. SETUP AND INSTALLATION

The MOOKAKA Android Car Stereo is designed for plug-and-play installation, eliminating the need for wire cutting. However, professional installation is recommended to ensure correct wiring and functionality.

2.1 Package Contents

Before installation, verify that all components are present in the package:

- Main Head Unit (13-inch display)
- Power Harness and Adapter Cables
- GPS Antenna
- USB Cables
- External Microphone (if included)
- User Manual (this document)

2.2 Installation Steps (Overview)

1. **Preparation:** Ensure the vehicle's ignition is off and the battery is disconnected.
2. **Remove Original Unit:** Carefully remove the existing car stereo or display unit from your Jaguar E-Pace dashboard.
3. **Connect Wiring:** Connect the provided wiring harness to the vehicle's existing connectors. Ensure all connections are secure.
4. **Install GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield.
5. **Connect USB/HDMI:** Connect any external USB devices or HDMI output cables as needed.
6. **Mount New Unit:** Securely install the MOOKAKA Android Car Stereo into the dashboard opening.
7. **Test Functionality:** Reconnect the battery, turn on the ignition, and test all functions of the new unit before fully reassembling the dashboard.

3. OPERATING INSTRUCTIONS

Your MOOKAKA Android Car Stereo operates on Android 10.0, offering a wide range of features and a user-friendly interface.

3.1 System Overview

The unit features an 8-core CPU, 8GB RAM, and 128GB ROM for fast and smooth performance. It supports both the original car interface and the Android interface, preserving your vehicle's existing functionalities.

3.2 Connectivity (GPS, WiFi, 4G LTE)

The system includes an integrated GPS module for navigation. You can download various navigation applications such as Google Maps, Waze, and IGO. Built-in WiFi and 4G LTE support allow for internet access; simply insert a SIM card for 4G connectivity. The split-screen function enables simultaneous use of two applications, for example, navigation while browsing online content.

3.3 Multimedia Functions

- **CarPlay/Android Auto:** Integrated wireless and wired CarPlay and Android Auto allow seamless smartphone integration. Control your phone's apps, navigation, and music directly from the car stereo.
- **Bluetooth 5.0:** Connect your smartphone via Bluetooth for hands-free calling and audio streaming.
- **Mirror Link:** Display content from your Android (Miracast) or iOS (AirPlay) smartphone directly onto the 13-inch IPS screen.
- **Media Playback:** Supports music and video playback from SD cards and USB drives. Features HDMI output for external displays.
- **Radio:** AM/FM radio with RDS (Radio Data System) functionality.

3.4 Control Methods

- **Touch Screen:** The 13-inch 1920*1080 IPS screen provides a responsive touch interface.
- **Voice Control:** Utilize voice commands for various functions, enhancing safety while driving.
- **Steering Wheel Controls:** The unit supports existing steering wheel control buttons, allowing you to manage volume, tracks, and other settings without taking your hands off the wheel.

4. MAINTENANCE

To ensure the longevity and optimal performance of your MOOKAKA Android Car Stereo, follow these maintenance guidelines:

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **Software Updates:** Periodically check for system software updates. Updates can improve performance, add new features, and fix bugs. Follow the on-screen instructions for safe updating.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold for extended periods, as this can affect electronic components.
- **Ventilation:** Ensure that the ventilation openings of the unit are not blocked to prevent overheating.
- **Cable Connections:** Periodically check all cable connections to ensure they are secure and free from damage.

5. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on	Loose power connection, blown fuse, vehicle battery issue	Check power cables and fuse. Ensure vehicle battery is charged. Consult a professional if needed.
No sound output	Volume too low, incorrect audio source, speaker wiring issue	Increase volume. Select correct audio source. Check speaker connections.
GPS not acquiring signal	GPS antenna not properly installed or obstructed	Ensure GPS antenna has a clear view of the sky. Check antenna connection.
Touch screen unresponsive	System freeze, software glitch	Restart the unit (refer to your vehicle's manual for power cycle instructions). If issue persists, contact support.
Bluetooth connection issues	Device not in pairing mode, interference, incorrect pairing process	Ensure your device is in pairing mode. Delete previous pairings and re-pair. Move closer to the unit.

For issues not listed here or if troubleshooting steps do not resolve the problem, please contact customer support.
