DUMEE 930GNW1

DUMEE Metal Platform Bed Frame Queen Size

Model: 930GNW1 - Instruction Manual

Important Safety Information

Please read and understand all instructions before beginning assembly. Failure to follow these instructions may result in injury or product damage.

- Do not load more than**1000 pounds (453.59 kg)** onto the bed frame.
- Follow assembly instructions carefully to prevent instability or injury.
- Be cautious of sharp edges during assembly.
- Ensure all connections are securely tightened before use. Periodically check and re-tighten connections as needed.
- Keep small parts away from children during assembly.

Package Contents

Verify that all components are present before starting assembly. If any parts are missing or damaged, please contact customer support.

- Bed Frame Components (Side Rails, Center Support Beams, Legs)
- Steel Slats
- Hardware Pack (Bolts, Washers, Nuts, Allen Wrench - if applicable)
- Installation Manual

Assembly Instructions (Setup)

Assembly is designed to be quick and easy, with no additional tools required beyond what is provided (if any). Clear labeled parts are included to simplify the process.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Identify each part using the provided labels.
2. **Assemble Frame Sides:** Connect the side rails to the head and foot sections of the frame. Ensure the connections are firm.
3. **Install Center Support:** Attach the central support legs and beams. This model features reinforced central support legs for enhanced stability.
4. **Place Slats:** Lay the steel slats across the assembled frame. Ensure they are evenly spaced and securely fitted into their designated positions. The slats provide direct mattress support, eliminating the need for a box spring.

5. **Final Tightening:** Double-check all bolts and connections to ensure they are fully tightened. The frame is designed to be noise-free when properly assembled.

Operating Instructions

The DUMEE Metal Platform Bed Frame is designed for direct mattress placement, eliminating the need for a box spring. It also offers significant under-bed storage.

- **Mattress Placement:** Carefully place your Queen size mattress directly onto the steel slats. The slats are designed to provide ample support and breathability for your mattress.
- **Under-Bed Storage:** Utilize the **12.6 inches** of clearance beneath the frame for storing boxes, bins, or other items. This space helps maximize room organization.
- **Noise Reduction:** The frame incorporates rubber plugs on all legs and EVA foam muting tape to minimize noise. Ensure the mattress is centered and not causing friction against the frame edges.

Maintenance

Proper care ensures the longevity and performance of your DUMEE bed frame.

- **Cleaning:** Wipe the metal frame with a**dry cloth** to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.
- **Periodic Checks:** Every few months, inspect all bolts and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain stability and prevent noise.
- **Weight Distribution:** Distribute weight evenly across the bed frame to prevent undue stress on specific areas.

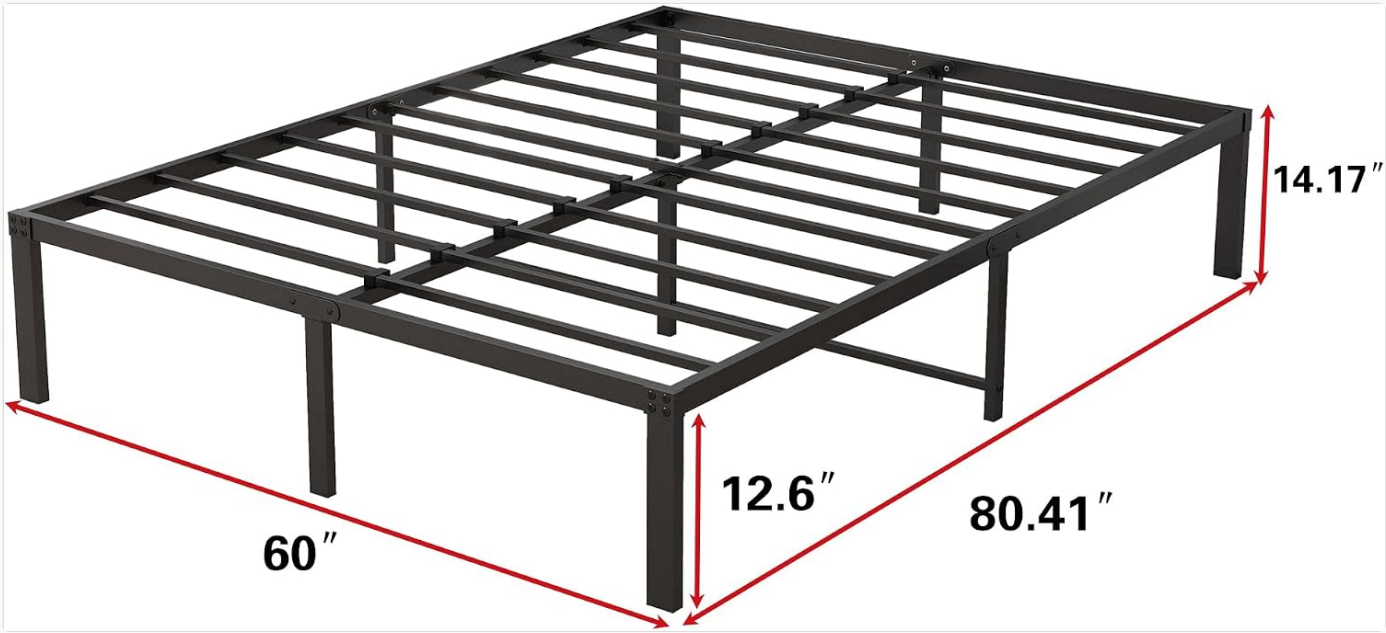

Troubleshooting

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking/Noise:** Ensure all bolts and connections are securely tightened. Loose connections are a primary cause of noise. Check that the rubber plugs on the legs are intact and properly seated.
- **Instability/Wobbling:** Verify that the frame is assembled on a flat, level surface. Re-check all connections for tightness, especially the reinforced central support legs.
- **Mattress Sagging Between Slats:** While the steel slats are designed for strong support, some mattresses may benefit from additional support. Consider placing a thin, rigid board or a non-slip mat between the mattress and the slats if sagging occurs.
- **No Headboard Mounting Points:** This bed frame model does not include pre-drilled holes or brackets for attaching a headboard. Custom solutions may be required if a headboard is desired.

Specifications

Feature	Specification
Model Number	930GNW1
Size	Queen
Material	Metal Steel
Product Dimensions (L x W x H)	2.03L x 1.52W x 0.36H meters (80.41"L x 60"W x 14.17"H)
Under-Bed Clearance	12.6 inches
Color	Black
Finish Type	Matte
Maximum Weight Recommendation	1000 pounds (453.59 kg)
Special Features	Central reinforced support legs, Squeak Resistant
Assembly	Easy assembly, no tools required
Compatible Mattress Size	Queen
