## Bostitch Impulse Drive Electric Stapler

# Bostitch Impulse Drive Electric Stapler and Premium Standard Staples User Manual

Your guide to efficient and reliable stapling.

## PRODUCT OVERVIEW

The Bostitch Impulse Drive Electric Stapler is designed for high-volume, non-stop stapling with ease. It features optical trip firing for fast operation and AntiJam™ floating core technology to prevent staple jams. This package also includes Bostitch Office Premium Standard Staples, manufactured from high carbon steel wire for superior performance.

## Key Features

- **AntiJam™ Floating Core:** Eliminates staple jams for continuous operation.
- **Solenoid Driven:** Ensures non-stop stapling ease.
- **Low Staple Indicator Light:** Alerts you when staples are running low.
- **Finely Honed Chisel Points:** For maximum penetration and less jamming.
- **Full Strip Staples:** Each strip contains 210 staples for extended use.

## SETUP INSTRUCTIONS

---

### Unpacking

Carefully remove the stapler and staples from their packaging. Ensure all components are present and undamaged. Place the stapler on a stable, flat surface.

### Power Connection

Connect the power cord from the stapler to a standard electrical outlet. The stapler is now ready for use.

## OPERATING INSTRUCTIONS

---

### Loading Staples

1. Press the quick-release button located on the top of the stapler to open the staple tray.
2. Insert a full strip of Bostitch Office Premium Standard Staples into the tray, ensuring the staple points are facing down.
3. Gently push the staple tray back into the stapler until it clicks securely into place.

### **FastLoad™**

Quick and easy push-button staple reloading

### **Internal Staple Storage**

Holds four full sticks of staples

## **Stapling Documents**

To staple, simply insert the papers into the stapling slot. The optical trip firing mechanism will automatically detect the paper and staple it. The stapler can handle up to 30 sheets of 20-lb bond paper.

### **3x Faster**

Impulse Drive™ Technology staples in just a fraction of a second

### **No-Jam™ Technology**

Smooth and effortless stapling up to 30 sheets

Image: The electric stapler efficiently stapling multiple sheets of paper.

## **Low Staple Indicator**

The stapler is equipped with a low staple indicator light. This light will illuminate when the staple supply is running low, signaling that it is time to reload.

## **MAINTENANCE**

---

### **Cleaning**

To maintain optimal performance, periodically wipe the exterior of the stapler with a soft, dry cloth. Avoid using abrasive cleaners or solvents.

### **Staple Removal**

If a staple needs to be removed, use a standard staple remover. The stapler itself does not have a built-in remover.

## **TROUBLESHOOTING**

---

### **Staple Jams**

The Bostitch Impulse Drive Electric Stapler features AntiJam™ technology. In the rare event of a jam, ensure you are using Bostitch Office Premium Standard Staples. Clear any visible jammed staples from the stapling mechanism.

### Stapler Not Firing

Check if the stapler is properly plugged into a working electrical outlet. Verify that there are sufficient staples in the tray. If the low staple indicator light is on, reload staples.

### Staples Not Penetrating

Ensure you are using Bostitch Office Premium Standard Staples. Using off-brand or incorrect staples can lead to poor penetration and increased jamming. Also, verify that the number of sheets does not exceed the stapler's 30-sheet capacity.

## PRODUCT SPECIFICATIONS

Specification	Detail
Brand	Bostitch
Model	Impulse Drive Electric Stapler
Material	Carbon Steel, Metal, Plastic
Operation Mode	Automatic
Staple Capacity	30 Sheets (20-lb bond)
Staple Type	1/4" Standard Staples (Full Strip)
