# Avia Anchor Mesh Slip On Non Slip Shoes for Women Instruction Manual

Model: AA50175WB

[Introduction](#)   [Features](#)   [Usage](#)   [Care & Maintenance](#)   [Specifications](#)   [Troubleshooting](#)   [Warranty & Support](#)

## 1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Avia Anchor Mesh Slip On Non Slip Shoes. Designed for comfort and safety in various work environments, these shoes feature slip-resistant soles and a water-resistant upper. Please read this manual thoroughly to ensure optimal performance and longevity of your footwear.

## 2. KEY FEATURES

- **Non-Slip Outsole:** Equipped with thick rubber soles and an oil and slip-resistant tread pattern, tested in accordance with ASTM F2913, for enhanced grip on slippery surfaces.
- **Lightweight Design:** Constructed to be lightweight, reducing foot fatigue for individuals who are on their feet for extended periods.
- **Removable Memory Foam Insole:** Features an ortho MEMORYfoam insole with contoured arch support and a heel cradle for pressure point relief and improved comfort.
- **Water-Resistant Upper:** The engineered knit upper is treated to repel liquids, making it suitable for food service and other environments where liquid exposure is common.
- **Slip-On Style with Elastic Laces:** Designed for easy wear with gore elastic lace closures, eliminating the need for tying.
- **Shock Absorption:** Compression molded EVA midsole and soft padded collar provide exceptional shock absorption and cushioning.

Figure 2.2: Detail of the water-resistant upper material, demonstrating its liquid-repelling properties.

Figure 2.3: Underside view of the shoe, highlighting the oil and slip-resistant outsole with its specialized tread pattern.

## 3. USAGE INSTRUCTIONS

---

### 3.1 Wearing Your Shoes

1. Ensure you are wearing appropriate socks for comfort and hygiene.
2. Gently slide your foot into the shoe. The elastic laces are designed to stretch, allowing for easy entry without needing to tie or untie.
3. Adjust your foot to ensure the memory foam insole provides full arch support and heel cradling.
4. Verify that the fit is snug but not overly tight, allowing for natural foot movement.

### 3.2 Intended Use

These shoes are specifically designed for work environments requiring slip resistance, such as food service, healthcare, and other settings where standing for long periods and potential exposure to slippery surfaces are common. They are not intended for heavy-duty industrial use or extreme sports.

## 4. CARE AND MAINTENANCE

---

### 4.1 Cleaning

- For general cleaning, wipe the mesh upper with a damp cloth and mild soap.
- Do not machine wash or tumble dry, as this may damage the materials and construction.
- Allow shoes to air dry completely at room temperature, away from direct heat or sunlight.
- The removable memory foam insoles can be hand-washed with mild soap and air-dried separately.

### 4.2 Storage

Store your shoes in a cool, dry place when not in use. Avoid storing them in direct sunlight or extreme temperatures, which can degrade materials over time.

### 4.3 Extending Lifespan

Regularly inspect the outsole for wear and tear. While the slip-resistant properties are durable, excessive wear can reduce their effectiveness. Replace shoes when the tread pattern is significantly worn.

## 5. SPECIFICATIONS

---

Attribute	Detail
Model Number	AA50175WB

<b>Brand</b>	Avia
<b>Sole Material</b>	Rubber
<b>Outer Material</b>	Mesh
<b>Inner Material</b>	Breathable fabric, Memory foam
<b>Slip Resistance Standard</b>	ASTM F2913 Certified
<b>Closure Type</b>	Slip-on with elastic laces
<b>Department</b>	Womens
<b>Approx. Package Dimensions</b>	14 x 9 x 5 inches
<b>Approx. Item Weight</b>	3 Pounds

## 6. TROUBLESHOOTING

---

### 6.1 Common Issues and Solutions

- **Issue: Shoes feel too tight or too loose.**

*Solution:* Ensure you have selected the correct size and width. Refer to the size guide if available. The elastic laces provide some flexibility, but an incorrect base size will affect comfort. Consider trying a different size if discomfort persists.

- **Issue: Reduced slip resistance.**

*Solution:* Inspect the outsole for wear. If the tread pattern is significantly worn down, the slip-resistant properties may be compromised, and the shoes should be replaced. Ensure the soles are clean and free of debris or oil buildup, which can temporarily reduce grip.

- **Issue: Foot discomfort or pain.**

*Solution:* Verify that the removable memory foam insole is properly seated. If discomfort continues, consider consulting a foot care professional or trying alternative insoles if recommended for your specific foot needs.

- **Issue: Shoes retain moisture or odor.**

*Solution:* Ensure shoes are thoroughly air-dried after each use. If odors persist, use an odor-absorbing product or sprinkle baking soda inside the shoes and let it sit overnight before shaking it out. Regular cleaning of insoles can also help.

## 7. WARRANTY AND SUPPORT

---

### 7.1 Product Warranty

Avia products are manufactured to high-quality standards. For specific warranty information regarding your Avia Anchor Mesh Slip On Non Slip Shoes, please refer to the documentation included with your purchase or visit the official Avia website. Warranty terms typically cover manufacturing defects.

### 7.2 Customer Support

If you have any questions, concerns, or require assistance with your Avia shoes, please contact Avia customer support through their official website or the retailer from whom you purchased the product. Please have your model number (AA50175WB) and purchase date available when contacting support.
