

Wigfar Wig-11

Wigfar Bone Conduction Headphones User Manual

MODEL: WIG-11

Brand: Wigfar

INTRODUCTION

The Wigfar Bone Conduction Headphones offer a unique open-ear listening experience, transmitting premium audio directly through your cheekbones. This innovative design ensures you can enjoy your music, calls, audiobooks, and podcasts while remaining fully aware of your surroundings. Built with a durable wraparound titanium frame, these headphones are comfortable for extended wear and are designed to withstand strenuous activities with their IP55 waterproof rating. Experience stable Bluetooth 5.0 connectivity and convenient Type-C fast charging.

WHAT'S IN THE BOX

- 1 x Wigfar Bone Conduction Headphones
- 1 x Type-C Charging Cable
- 2 x Sponge Earplugs
- 1 x User Manual

SETUP

Charging the Headphones

Before first use, fully charge your Wigfar Bone Conduction Headphones. They feature a Type-C fast charging port for quick and convenient power-ups. A full charge provides up to 8 hours of continuous use.

OPERATING INSTRUCTIONS

Power On/Off and Basic Controls

All operations of the Wigfar bone conduction headphones are integrated into one button, primarily utilizing your device's voice function for convenience. Refer to your device's manual for specific voice commands.

Music Playback and Call Management

The headphones provide an immersive music experience and feature excellent call noise reduction for clear conversations. Use the integrated button for play/pause, answering/ending calls, and activating your device's voice assistant (e.g., Siri).

COMFORT AND FIT

The Wigfar headphones are designed for maximum comfort during extended wear. The wraparound titanium frame is flexible and can be bent without deformation, ensuring a secure fit without causing pain. The open-ear design allows for situational awareness, making them ideal for sports and outdoor activities.

MAINTENANCE

To ensure the longevity and optimal performance of your Wigfar Bone Conduction Headphones, follow these maintenance guidelines:

- **Cleaning:** Wipe the headphones with a soft, damp cloth after each use, especially after workouts, to remove sweat and dirt. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on them.
- **Charging:** Only use the provided Type-C charging cable. Do not attempt to charge the headphones if they are wet.
- **Avoid Submersion:** While waterproof, avoid prolonged submersion in water or exposing them to high-pressure water jets.

TROUBLESHOOTING

If you encounter any issues with your Wigfar Bone Conduction Headphones, please refer to the following common troubleshooting steps:

- **No Power:** Ensure the headphones are fully charged. Connect them to the Type-C charging cable and a power source.
- **Cannot Pair:** Make sure the headphones are in pairing mode (refer to Operating Instructions). Turn off and on your device's Bluetooth, then try searching again. Ensure the headphones are not connected to another device.
- **No Sound/Low Volume:** Check the volume levels on both your headphones and your connected device. Ensure the headphones are properly positioned on your cheekbones.
- **Intermittent Connection:** Ensure your device is within the Bluetooth range (10 meters). Avoid obstacles that may interfere with the signal.

If the issue persists, please contact Wigfar customer support for further assistance.

SPECIFICATIONS
