Maintenance

Proper maintenance will ensure the longevity and safety of your Bellemave Low Full Loft Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Fastener Checks:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and other fasteners. Tighten any that have become loose. Do not overtighten.
- **Wood Care:** The bed is made from solid New Zealand pine wood with a low VOC finish. Protect the wood from extreme temperature changes and direct sunlight to prevent warping or fading.
- **Moving the Bed:** When moving the entire bed unit, always lift it rather than dragging it to prevent damage to the frame and floor.

Troubleshooting

If you encounter any issues with your loft bed, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose fasteners. Re-check and tighten all bolts and screws on the bed frame.
- **Drawers Sticking:** Ensure the dresser is on a level surface. Check drawer slides for any obstructions or misalignment.
- **Desk Wheels Not Rolling Smoothly:** Check for debris in the wheels. Ensure the wheels are securely attached to the desk.
- **Missing or Damaged Parts:** If you find any missing or damaged parts during assembly or use, please contact customer support immediately. Do not attempt to use the product with damaged components.
