LUE BONA JY-001-10*2

LUE BONA HDPS Adirondack Chairs (Model JY-001-10*2) Instruction Manual

1. SAFETY INFORMATION

Please read and understand all safety instructions before assembling or using the LUE BONA HDPS Adirondack Chairs. Failure to follow these instructions may result in injury or product damage.

- **Weight Capacity:** Do not exceed the maximum weight capacity of **350 pounds (158 kg)** per chair.
- **Environmental Conditions:** Avoid using the chairs in high winds to prevent overturning.
- **Heat Sources:** Keep chairs away from open flames, extreme heat sources, and fire pits to prevent material damage.
- **Inspection:** Regularly inspect the chair before each use for any signs of damage, loose fasteners, or wear. Do not use if damaged.
- **Assembly:** Ensure all fasteners are securely tightened during assembly and periodically checked thereafter.

2. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact LUE BONA customer support.

- Adirondack Chair Components (Backrest, Seat, Armrests, Legs, Support Braces)
- Hardware Pack (Bolts, Washers, Nuts)
- Allen Wrench
- Instruction Manual (This document)

3. SETUP AND ASSEMBLY

The LUE BONA HDPS Adirondack Chairs are designed for quick and straightforward assembly. An Allen wrench is provided for your convenience. A Phillips head screwdriver is not included and may be required for certain steps, though typically not for the main assembly.

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat, and soft surface to prevent scratches.
2. **Identify Parts:** Refer to the included assembly diagram (if provided in the physical package) to identify each component.
3. **Attach Backrest:** Secure the backrest to the seat section using the designated hardware. Do not fully tighten bolts until all major sections are connected.
4. **Connect Armrests:** Attach the armrests to the seat and backrest. Ensure the rotary cup holder mechanism is correctly oriented.
5. **Install Legs:** Fasten the front and rear legs to the main chair body.

6. **Tighten All Fasteners:** Once all parts are loosely assembled, gradually tighten all bolts and screws using the provided Allen wrench. Ensure the chair is stable and level. Do not overtighten.
7. **Final Check:** Gently shake the chair to confirm stability. If any wobbling occurs, re-check all connections.

For visual guidance, an assembly video may be available with your product packaging or on the LUE BONA official website. Please consult these resources if you require additional assistance.

4. OPERATING INSTRUCTIONS

The LUE BONA HDPS Adirondack Chair is designed for comfortable outdoor relaxation.

Using the Rotary Cup Holder:

- The integrated cup holder is designed to securely hold standard-sized water bottles or drink containers.
- To use, rotate the cup holder outward from the armrest until it locks into position.

- When not in use, rotate the cup holder inward, tucking it neatly under the armrest to prevent obstruction and potential damage.
- The sturdy design minimizes wobbling, tilting, or accidental spills.

Image: A close-up view of the rotary cup holder, indicating a diameter of approximately 3 inches, suitable for various beverage containers.

OVERSIZED & COMFORTABLE

6.2" tall and weigh 350LBS, also be cozy to sit on

Image: A person comfortably seated in the Adirondack chair, demonstrating its spacious and relaxing design.

5. MAINTENANCE

The HDPS material of your LUE BONA Adirondack Chairs is designed for durability and weather resistance, requiring minimal maintenance.

- **Cleaning:** To clean the chairs, simply wipe them down with a damp cloth. For more stubborn dirt, a mild soap solution can be used, followed by rinsing with water. Avoid harsh chemicals or abrasive cleaners.
- **Weather Resistance:** The HDPS material is waterproof, sunfast, and resistant to cracking or peeling, making it suitable for various outdoor conditions. Its weight helps prevent overturning in moderate winds.

- **Long-Term Care:** To maintain the aesthetic and structural integrity over many years, especially in harsh climates, consider applying an automotive plastic and rubber protectant/restorer once or twice a year.
- **Storage:** While weather-resistant, storing the chairs indoors or covering them during prolonged periods of extreme weather (e.g., heavy snow, intense sun) can further extend their lifespan.

EASY TO CLEAN

No worry about sweat / leaking / dust any more

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your Adirondack chairs.

- **Chair Wobbles:**

Solution: Ensure all bolts and screws are securely tightened. Loosen all fasteners slightly, sit in the chair to settle the components, then retighten all fasteners evenly. Check that the chair is on a flat, level surface.

- **Difficulty Assembling:**

Solution: Review the assembly instructions carefully. Ensure you are using the correct hardware for each step. Do not force parts together. If a part seems misaligned, double-check its orientation. Contact customer support if issues persist.

- **Cup Holder Not Rotating Smoothly:**

Solution: Check for any debris or obstructions around the pivot point. Clean the area. If the issue continues, ensure the armrest assembly is not overtightened, which could restrict movement.

7. SPECIFICATIONS

Feature	Detail
Brand	LUE BONA
Model Name	Adirondack
Item Model Number	JY-001-10*2
Material	HDPS (High-Density Polyethylene)
Color	Dark Brown
Product Dimensions (L x W x H)	35"D x 30"W x 36.2"H (88.9 cm x 76.2 cm x 91.9 cm)
Seating Width	20.3" (51.6 cm)
Seating Height	14.6" (37.1 cm)
Maximum Weight Recommendation	350 Pounds (158 kg)
Special Features	Weather Resistant, Sturdy, Rotary Cup Holder
Product Care Instructions	Wipe Clean
Indoor/Outdoor Usage	Outdoor
