ELEMARA S608

ELEMARA 2 Seater XL Ride on Car User Manual

Model: S608 | Brand: ELEMARA

Introduction

Thank you for choosing the ELEMARA 2 Seater XL Ride on Car. This electric off-road UTV toy is designed to provide a fun and safe driving experience for children. Equipped with advanced features and a durable build, it's perfect for adventurous kids.
Key features include:

- **Wider 2-Seater Design:** Comfortably accommodates two children with a 20-inch seat width and safety belts for enhanced security.
- **3-Speed Switch:** Adjustable speeds (2.4/2.8/4.0 mph) powered by a 12V 10Ah battery and 4 engines.
- **Cool Lights and Music:** Features 2 headlights and 2 colored tail lights, plus Bluetooth connectivity for personalized music.
- **Upgraded Durability:** Built with upgraded shock absorbers and a metal frame, tested for over 200 impacts for smooth progress on various terrains.

Product Dimensions: 48.2 x 31 x 31.5 inches (L x W x H)
Item Weight: 66 pounds
Recommended Age: 36 months - 8 years

What's in the Box

Upon unboxing, please ensure all components are present:

- Ride On Car x 1
- Remote Control x 1

- Manual x 1

If any parts are missing or damaged, please contact customer service immediately.

Safety Information

WARNING: CHOKING HAZARD - Small parts. Not suitable for children under 36 months.
The product contains small parts. Keep children away when assembling. Always supervise children during operation. Ensure safety belts are properly fastened before each use.

Setup Guide

Follow these steps for initial assembly:

1. **Unboxing and Inspection:** Carefully remove all components from the packaging. Verify all parts listed in the "What's in the Box" section are present and undamaged.
2. **Front Bracket Assembly:** Insert the bearing into the front bracket assembly. Then, insert the front bracket assembly into the body square tube.
3. **Connect Motor Wires:** As shown in the manual's figures, connect the motor wires. Ensure secure connections for proper functionality.
4. **Install Tires:** Put the rear wheel, φ12 washer, and nut onto the front axle. Fix the nut with the M10 wrench and then attach the wheel cover to the rear wheel. Repeat for all wheels.
5. **Fix Rear Axle:** Clip the rear axle into the body slot.
6. **Fix Gear Box (L/R):** Put the gear box into the rear axle, and stick the motor into the body slot. Thread the transmission wire into the body hole to the battery compartment. (Tips: distinguish left and right gear boxes).
7. **Fix Rear Bumper Decoration:** Clip the rear bumper decoration into the body slot.
8. **Fix Front Block:** Stick the front block into the corresponding slot on the body.
9. **Steering Wheel Installation:** Remove the nut and bolt from the steering wheel. Connect the wires coming from the steering column to the wires on the steering wheel. Insert the steering wheel over the steering and secure with nut and bolt. When the steering wheel is installed, after inserting the line, it is necessary to put the line into the black glue rod, and then fix the screw.
10. **Seat Installation:** Insert the lower seat cover into the upper seat cover. Stick the seat buckle into the vehicle slot. Fix with screws.

Operating Instructions

Power On/Off

Press the "Start/Stop" button on the dashboard to turn the vehicle on or off. The LED lights and music system will activate upon startup.

Driving Modes

The UTV offers two driving modes:

- **Manual Mode:** Children can operate the vehicle using the steering wheel and the electric foot pedal.
- **Remote Control Mode:** Parents can use the included remote control to steer, control speed, and stop the vehicle, ensuring safety for younger children.

Figure 3: Illustration of the two available driving modes: independent control by the child and parental remote control.

Speed Adjustment

The vehicle features a 3-speed switch, allowing adjustment between 2.4 mph, 2.8 mph, and 4.0 mph. Use the "hare" and "turtle" buttons on the dashboard to select the desired speed.

Music and Lights

The UTV comes with pre-installed music. You can also connect your device via Bluetooth to play your favorite songs. The headlights and colored tail lights can be turned on/off using the dedicated buttons on the dashboard.

Figure 5: Bluetooth feature for music playback and ample storage space for toys.

Charging

The vehicle is powered by a high-capacity 12V 10Ah battery. To charge, locate the charging port (usually near the dashboard or under the seat) and connect the provided charger. Ensure the vehicle is turned off during charging. A full charge typically takes 8-12 hours. Do not overcharge.
Refer to the User Guide (PDF) for detailed charging instructions and battery care.

Maintenance

To ensure the longevity and optimal performance of your ELEMARA Ride on Car, follow these maintenance guidelines:

- **Cleaning:** Wipe the vehicle with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture. If storing for extended periods, charge the battery fully every 30 days to maintain battery health.

- **Tire Inspection:** Regularly check the tires for wear and tear. The anti-slip durable wheels are designed for various terrains but inspect them for any damage after off-road use.
- **Structural Integrity:** Periodically check all screws, bolts, and connections to ensure they are tight and secure. The metal frame is built for durability, but regular checks are recommended.

Troubleshooting

If you encounter any issues with your ELEMARA Ride on Car, please refer to the official Troubleshooting Guide (PDF) for detailed solutions. Common issues may include:

- Vehicle not starting.
- Reduced power or speed.
- Remote control not responding.
- Lights or music not functioning.

For complex issues or if troubleshooting steps do not resolve the problem, please contact customer support.
