

Sudio SD-1313

Sudio N2 True Wireless Earbuds

INSTRUCTION MANUAL

Introduction

The Sudio N2 earbuds are designed for seamless audio experience on the go. Featuring an open-ear design, multipoint Bluetooth connectivity, and a built-in microphone, they are suitable for music listening and clear calls. This manual provides essential information for setting up, operating, and maintaining your Sudio N2 earbuds.

What's in the Box

Your Sudio N2 package includes the following components:

- Sudio N2 True Wireless Earbuds (Left and Right)
- Wireless Charging Case
- USB Charging Cable

Setup

1. Charging the Earbuds and Case

Before first use, fully charge your Sudio N2 earbuds and charging case. Connect the provided USB cable to the charging case and a power source. The earbuds charge within the case. A full charge for the earbuds takes approximately 120 minutes, and the charging case takes about 2 hours.

2. Pairing with Your Device

The Sudio N2 earbuds utilize Bluetooth 5.3 for stable and efficient connection. They support multipoint connection, allowing you to connect to two devices simultaneously.

1. Ensure the earbuds are in the charging case and the case has sufficient charge.
2. Open the charging case. The earbuds will automatically enter pairing mode.
3. On your device (smartphone, tablet, laptop), go to Bluetooth settings and select "Sudio N2 Pro" from the list of available devices.
4. Once connected, a confirmation sound will play through the earbuds.

Your browser does not support the video tag.

Operating Instructions

Wearing the Earbuds

The Sudio N2 features an open-ear design, which means they sit comfortably in your outer ear without sealing the ear canal. This allows for ambient sound awareness, ideal for outdoor activities or when you need to stay aware of your surroundings.

Touch Controls

Control your music and calls directly from the earbuds using the touch-sensitive areas:

- **Single Tap:** Play/Pause music, Answer/End call.
- **Double Tap:** Skip to next track (right earbud), Go to previous track (left earbud).
- **Triple Tap:** Volume up (right earbud), Volume down (left earbud).
- **Press and Hold:** Activate voice assistant, Reject call.

Calls and Microphone

The Sudio N2 earbuds feature a built-in microphone for clear hands-free calling. Ensure the earbuds are properly connected to your device for optimal call quality.

Water Resistance (IPX4)

The Sudio N2 earbuds are rated IPX4, meaning they are resistant to splashing water from any direction. This makes them

suitable for workouts and light rain, but they are not designed for submersion in water.

Maintenance

To ensure the longevity and optimal performance of your Sudio N2 earbuds:

- Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth.
- Avoid using abrasive materials or harsh chemicals.
- Keep the charging contacts on both the earbuds and the case clean and free of debris.
- Store the earbuds in their charging case when not in use to protect them and keep them charged.

Troubleshooting

If you encounter issues with your Sudio N2 earbuds, try the following solutions:

Problem	Possible Solution
Earbuds not pairing/connecting	Ensure Bluetooth is enabled on your device. Place earbuds back in case, close, then open to re-enter pairing mode. Forget "Sudio N2 Pro" from your device's Bluetooth list and re-pair. Ensure earbuds and case are charged.
No sound or low volume	Check device volume and earbud volume. Ensure earbuds are properly seated in your ears. Reconnect the earbuds to your device.
One earbud not working	Place both earbuds in the charging case, close the lid, wait a few seconds, then open again. Ensure both earbuds are charged.
Touch controls not responding	Ensure your fingers are clean and dry. Try resetting the earbuds (refer to the full user manual for specific reset instructions if available, as it's not detailed in the provided data).
Poor sound quality (e.g., no bass)	Ensure earbuds are properly seated in your ears for optimal sound delivery. The open-ear design allows for ambient noise, which can affect perceived bass.
