SAFETY INFORMATION

- Always turn off the power at the main circuit breaker before beginning installation.
- Consult a qualified electrician if you are unsure about the installation process.
- Ensure all electrical connections are secure and comply with local electrical codes.
- Do not attempt to modify the light fixture.
- Handle components with care to avoid damage.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- Ceiling Light Chassis
- LED Light Rings (6 units)
- Mounting Hardware (screws, nuts, wire connectors)
- Remote Control
- Instruction Manual

SETUP AND INSTALLATION

Follow these steps carefully to install your ceiling light. Professional installation is recommended if you are unfamiliar with electrical wiring.

1. **Prepare the Light Rings:**
   Thread the wires from each light ring through the screw tubes. Cut any bundled thin ropes with scissors and slowly tighten the attached screw tube onto the lamp body.

2. **Attach Rings to Chassis:**
   Insert the top of the screw tube through the chassis and secure it by tightening the nut from the inside. Ensure all nuts are tightly fastened.

3. **Connect Terminals:**
   Connect the terminals from the light rings to the LED driver. Ensure all terminals are plugged in tightly to prevent loose connections.

4. **Mount to Junction Box:**
   Install the crossbar to the ceiling junction box. Connect the household electrical wires to the light fixture's wires (live to live, neutral to neutral, ground to ground). Secure the light fixture to the crossbar.

OPERATING INSTRUCTIONS

Your Huilefu ceiling light is controlled by a remote. The remote allows for brightness and color temperature adjustments.

- **Power On/Off:** Use the dedicated ON/OFF buttons on the remote.
- **Brightness Adjustment:** Use the 'Bright+' and 'Dark-' buttons to increase or decrease the light intensity.
- **Color Temperature Adjustment:** Use the 'Warm Light' and 'White Light' buttons to cycle through different color temperatures (e.g., warm white, neutral white, cool white).
- **Mode Selection:** Some remotes may offer preset modes like 'Night Mode' or specific color temperature settings. Refer to your remote's specific buttons.

Infinitely Dimmable
Suitable for Various Life Situations

MAINTENANCE

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the fixture. Do not use abrasive cleaners or solvents.
- **Bulb Replacement:** The LED light source is integrated and not user-replaceable. If the LEDs fail, contact customer support.
- **Inspection:** Periodically check for any loose connections or signs of damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on	No power, loose wiring, faulty remote.	Check circuit breaker. Verify wiring connections. Replace remote batteries.
Light flickers	Loose wiring, incompatible dimmer switch (if applicable).	Check wiring. Ensure dimmer switch is LED-compatible.
Remote not working	Dead batteries, remote out of range, interference.	Replace batteries. Ensure remote is within operating range. Remove obstructions.
