OMOTON US-Layout

OMOTON Bluetooth Keyboard User Manual

Model: US-Layout | Brand: OMOTON

INTRODUCTION

The OMOTON Bluetooth Keyboard offers a unique transparent design, allowing visibility of its internal structure, complemented by a vibrant backlight effect. This wireless, multi-device keyboard is designed for seamless connectivity across various operating systems, including iOS, Android, and Windows. Its ultra-thin and portable form factor, combined with a long-lasting rechargeable battery, makes it an ideal companion for tablets, laptops, and smartphones.

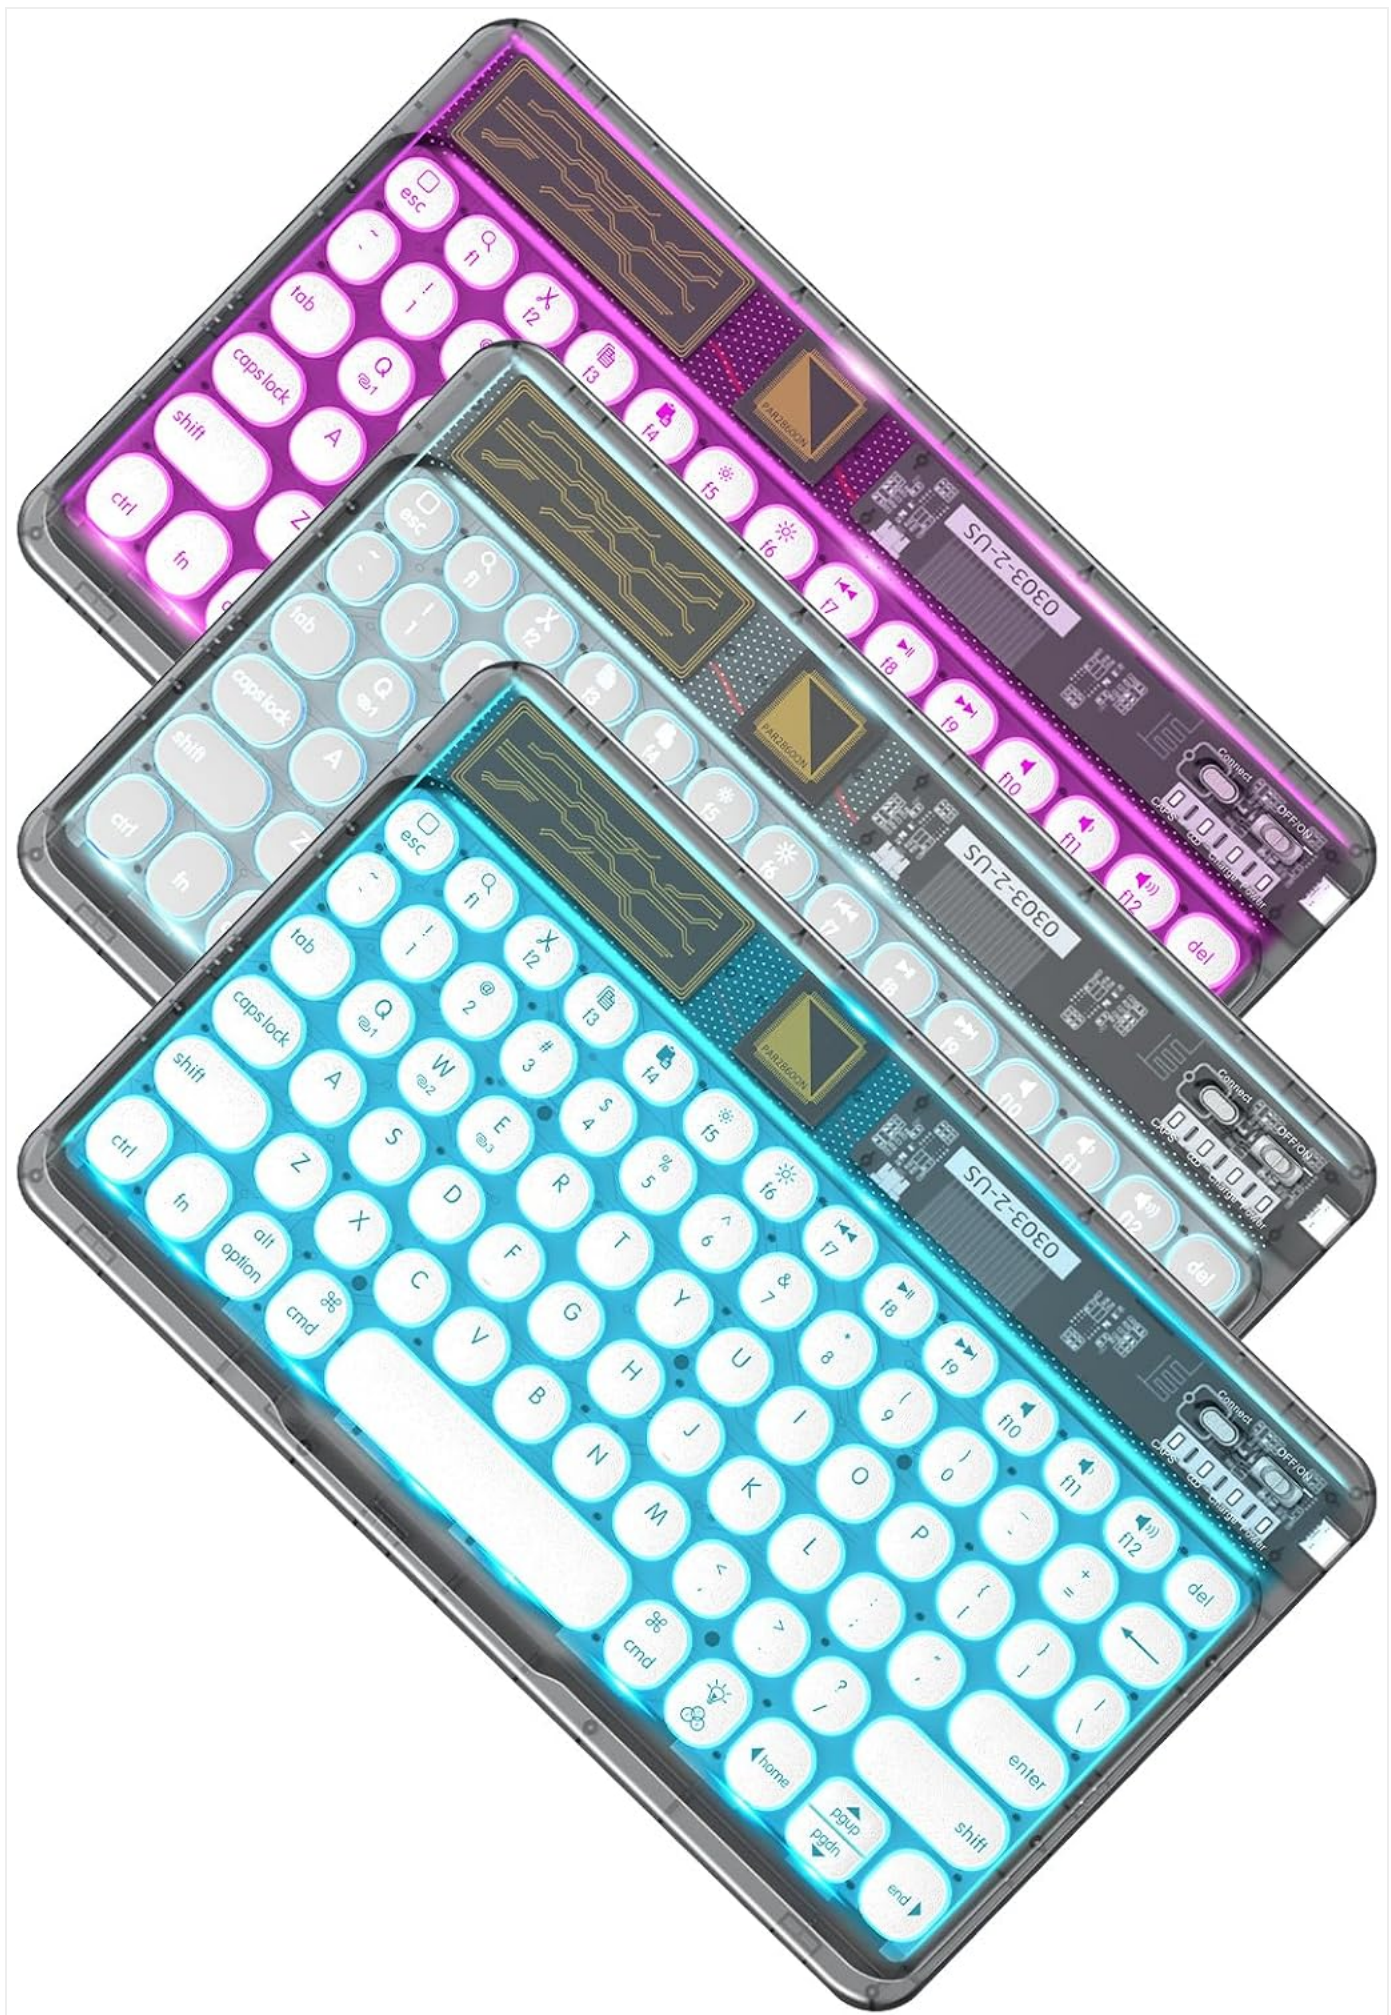

Figure 1: OMOTON Bluetooth Keyboard showcasing its transparent design and various backlight colors.

1. Charging the Keyboard

Before initial use, ensure the keyboard is fully charged. The keyboard features a built-in 400mAh lithium battery.

- Connect the provided USB-C charging cable to the keyboard's charging port.
- Connect the other end of the cable to a USB power source (e.g., computer USB port, USB wall adapter).
- The LED indicator light will show charging status. A full charge typically takes approximately 2.5 hours.

2. Bluetooth Pairing

The keyboard can connect to up to 3 devices simultaneously and switch between them easily.

1. Turn on the keyboard using the Power ON/OFF switch located on the top right.
2. Press and hold the **Fn** key and one of the Bluetooth channel keys (**Q**, **W**, or **E**) for 3-5 seconds until the corresponding Bluetooth indicator light flashes rapidly. This indicates the keyboard is in pairing mode.
3. On your device (iPad, PC, Tablet, Phone), go to Bluetooth settings.
4. Search for "OMOTON Keyboard" or similar and select it to pair.
5. Once connected, the indicator light will stop flashing and remain solid for a few seconds before turning off.
6. Repeat steps 2-5 for up to two additional devices using the other Bluetooth channel keys.

Wide System Compatibility

iOS / Windows / Android

OPERATING INSTRUCTIONS

1. Switching Between Devices

To switch between paired devices, simply press the **Fn** key along with the corresponding Bluetooth channel key **Q**, **W**, or **E** that your desired device is paired to.

2. Backlight Control

The keyboard features a 7-color backlight with adjustable brightness levels and a breathing mode.

- To change backlight color: Press **Fn** + **Light Bulb icon key** (located near the right Ctrl key). Each press cycles through the 7 available colors.
- To adjust brightness: Press **Fn** + **Sun icon key** (located near the right Ctrl key). There are 3 brightness levels.
- To activate/deactivate breathing mode: Press **Fn** + **Light Bulb icon key** (press and hold for 3 seconds).

3. Multimedia Function Keys

The top row of keys (F1-F12) also serves as multimedia function keys. To use them, press the **Fn** key simultaneously with the desired function key.

Key Combination	Function
Fn + F1	Home Screen
Fn + F2	Search
Fn + F3	Select All
Fn + F4	Copy
Fn + F5	Paste
Fn + F6	Cut

Key Combination	Function
Fn + F7	Previous Track
Fn + F8	Play/Pause
Fn + F9	Next Track
Fn + F10	Mute
Fn + F11	Volume Down
Fn + F12	Volume Up

MAINTENANCE

1. Cleaning

To maintain the transparent design and overall appearance of your keyboard:

- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution.
- Avoid abrasive cleaners, solvents, or aerosol sprays directly on the keyboard.
- Ensure no liquid enters the keyboard's internal components.

Unique Design

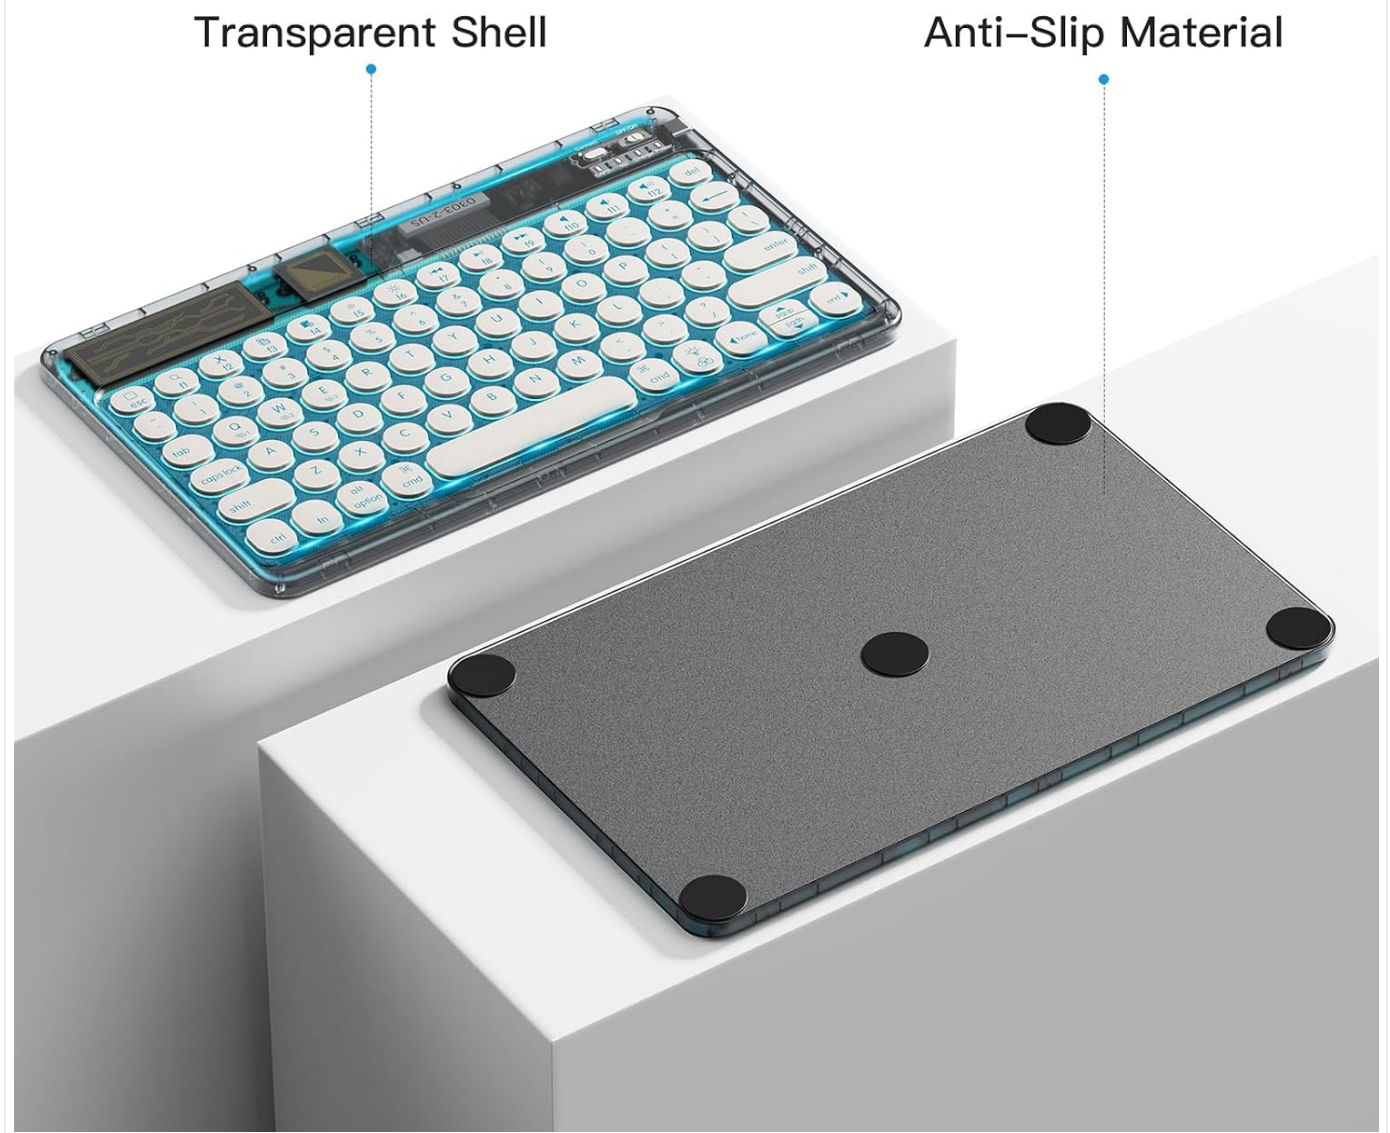

Figure 5: The keyboard features a unique transparent shell and anti-slip material on its base for stability.

2. Battery Care

The keyboard is equipped with an energy-saving design and an automatic sleep mode to preserve battery life.

- The keyboard will enter sleep mode after 10 minutes of inactivity. Press any key to wake it up.
- For prolonged storage, it is recommended to fully charge the keyboard and then turn it off.
- Avoid exposing the keyboard to extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard not connecting/pairing	Low battery, out of range, incorrect pairing mode, device Bluetooth off.	Charge the keyboard. Ensure device Bluetooth is on and within 10 meters. Re-enter pairing mode (Fn + Q/W/E). Forget device on your host and re-pair.

Problem	Possible Cause	Solution
Keys not responding or delayed input	Low battery, interference, keyboard in sleep mode.	Charge the keyboard. Move closer to the device. Press any key to wake from sleep. Ensure no strong wireless interference nearby.
Backlight not working or stuck	Low battery, incorrect key combination.	Charge the keyboard. Ensure correct Fn + Light Bulb/Sun key combinations are used.
Cannot switch between devices	Incorrect Fn + channel key combination, device not properly paired to selected channel.	Ensure you are pressing Fn + Q/W/E for the correct pre-paired device. Re-pair the device to the desired channel if necessary.
