Vipack Pino Mid-Sleeper Bed with Slide - Instruction Manual

Model: PIMS9017

1. PRODUCT OVERVIEW

The Vipack Pino Mid-Sleeper Bed with Slide (Model PIMS9017) is designed to provide a functional and enjoyable sleeping and play area for children. Constructed from solid Scandinavian pine wood with a lacquered finish, this bed features a slatted base, an integrated ladder, and a slide. The ladder and slide are interchangeable during assembly to suit room layout preferences.

2. SAFETY INFORMATION

Read all instructions carefully before assembly and use. Failure to follow these instructions may result in serious injury.

- **Maximum Weight Capacity:** This bed has a recommended maximum weight capacity of **75 kg (165 lbs)**. Do not exceed this limit.
- **Child Supervision:** Always supervise children when they are using the slide or climbing the ladder.
- **Entrapment Hazards:** Be aware of potential entrapment hazards, especially when using the slide. Ensure no loose clothing, strings, or other items can become caught.
- **Fall Prevention:** Ensure the bed is placed on a level surface. Do not allow children to jump on the bed or slide headfirst.
- **Assembly:** Ensure all parts are correctly assembled and all fasteners are tightened securely before use. Periodically check and re-tighten fasteners.
- **Ventilation:** Ensure adequate ventilation around the bed.

- **Modifications:** Do not modify the bed or slide in any way, as this may compromise its safety and structural integrity.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact your retailer.

- Bed frame components (headboard, footboard, side rails)
- Slatted base
- Ladder
- Slide
- Hardware pack (screws, bolts, nuts, dowels, etc.)
- Assembly instructions (this document)

Note: Tools required for assembly (e.g., screwdriver, Allen key) are typically not included and must be supplied by the user.

4. ASSEMBLY INSTRUCTIONS (SETUP)

Assembly should be performed by two adults. Clear a spacious area for assembly and keep all small parts out of reach of children.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare them against the parts list in the manufacturer's detailed assembly guide (if provided separately) to ensure everything is present.
2. **Assemble Bed Frame:** Follow the step-by-step diagrams in the manufacturer's guide to connect the headboard, footboard, and side rails. Do not fully tighten fasteners until the frame is stable.
3. **Attach Slatted Base:** Secure the slatted base to the bed frame according to the instructions. Ensure it is evenly spaced and firmly attached to support the mattress.
4. **Install Ladder and Slide:** The ladder and slide are designed to be interchangeable. Decide on the desired placement (left or right side of the bed) and attach them securely to the bed frame using the provided hardware. Ensure all connections are robust.
5. **Final Tightening:** Once all components are in place and the bed is stable, go back and fully tighten all screws, bolts, and fasteners. Do not overtighten.
6. **Safety Check:** Before first use, thoroughly check the entire bed for stability, ensuring there are no loose parts or sharp edges.

5. USAGE INSTRUCTIONS (OPERATING)

This bed is intended for sleeping and recreational use of the slide by children within the specified weight limit.

- **Bed Use:** Place a suitable mattress on the slatted base. Ensure the mattress fits snugly within the bed frame to prevent gaps.
- **Ladder Use:** Always use the ladder to access the bed. Ensure hands and feet are clean and dry to prevent slipping.
- **Slide Use:** Use the slide one child at a time, in a seated position, feet first. Ensure the landing area at the

bottom of the slide is clear of obstructions.

- **General Safety:** Do not allow children to play underneath the slide or ladder while another child is using them. Do not hang items from the bed frame or slide that could pose a strangulation hazard.

6. MAINTENANCE

Regular maintenance will help prolong the life and safety of your Vipack Pino Mid-Sleeper Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild soap solution and immediately dry with a clean cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the lacquered finish.
- **Fastener Checks:** Periodically (e.g., monthly) check all screws, bolts, and other fasteners to ensure they are tight. Re-tighten as necessary, but do not overtighten.
- **Structural Integrity:** Inspect the wood components for any signs of cracks, splinters, or damage. If damage is found, discontinue use and contact the retailer for advice.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, as this can cause the wood to dry out or the finish to fade. Maintain a stable room temperature and humidity.

7. TROUBLESHOOTING

If you encounter issues with your bed, refer to the following common troubleshooting steps:

- **Bed Feels Wobbly:** This is usually due to loose fasteners. Carefully re-tighten all screws and bolts throughout the bed frame, ladder, and slide connections. Ensure the bed is on a level surface.
- **Parts Don't Fit:** Double-check the assembly instructions and diagrams. Ensure you are using the correct parts for each step and that they are oriented correctly. Sometimes, parts may appear similar but have subtle differences.
- **Squeaking Noises:** Squeaking can often be resolved by tightening fasteners. If the noise persists, it might be due to friction between wood parts; a small amount of furniture wax or silicone spray (applied carefully to non-visible joints) might help, but consult the manufacturer if unsure.

If problems persist after attempting these solutions, contact your retailer or the manufacturer for further assistance.

8. SPECIFICATIONS

Brand	Vipack
Model Number	PIMS9017
Color	Grey
Material	Solid Scandinavian Pine Wood, Lacquered Finish
Product Dimensions (L x W x H)	207 x 95 x 83 cm (81.5 x 37.4 x 32.7 inches)
