Xiaomi Air Purifier 4 Compact Filter Replacement User Manual

Model: AC-M18-SC

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Xiaomi 4 Compact Air Purifier Filter. Designed with a 3-in-1 True HEPA H13 and activated carbon filtration system, this filter is engineered to capture particles as small as 0.3 microns, including dust, pollen, smoke, pet dander, and odors, ensuring cleaner air in your home or bedroom.

SETUP AND FILTER INSTALLATION

The Xiaomi 4 Compact Air Purifier Filter is designed for easy replacement. Follow these steps to install or replace your filter:

1. Ensure the air purifier is turned off and unplugged from the power source.
2. Locate the filter compartment, typically at the bottom of the air purifier.
3. Open the back cover or twist the base to access the filter.
4. Carefully remove the old filter by pulling it out. Dispose of the used filter responsibly.
5. Unpack the new Xiaomi 4 Compact Filter.
6. Insert the new filter into the compartment, ensuring it is seated correctly.
7. Close the back cover or twist the base to secure the filter in place.
8. Plug in the air purifier and turn it on.

OPERATING THE AIR PURIFIER

Once the filter is installed, you can operate your Xiaomi Air Purifier using its touch screen controls or the Xiaomi Home app on your smartphone.

Manual Control

The top panel of the air purifier features intuitive touch controls for basic operations:

- **Power Button:** Press to turn the purifier on or off.
- **Mode Button:** Cycle through different operating modes (e.g., Auto, Sleep, Manual).
- **Air Quality Indicator:** A light ring or display indicates the current air quality.

Xiaomi Home App Control

For advanced control and monitoring, download the Xiaomi Home app. The app allows you to:

- Adjust settings remotely.
- Check real-time air quality.
- Set purification schedules.
- Monitor filter lifespan.

Automatic Operation

The air purifier features an integrated air quality sensor that continuously monitors the surrounding air. In Auto mode, the purifier automatically adjusts its fan speed based on the detected air quality, increasing purification when pollutants are high and reducing it when the air is clean, optimizing energy consumption and performance.

MAINTENANCE

Regular filter replacement is crucial for maintaining optimal performance of your Xiaomi Air Purifier. The filter has a lifespan of approximately 6-12 months, depending on usage and air quality conditions.

- **Filter Lifespan:** The Xiaomi Home app will notify you when the filter needs replacement.
- **Filter Structure:** The 3-in-1 filter combines a primary filter, a True HEPA H13 filter, and an activated carbon filter to effectively remove various pollutants.

TROUBLESHOOTING

Filter Warning Message

If your air purifier displays a warning message regarding the filter, it typically indicates one of the following:

- The filter has reached the end of its lifespan and needs to be replaced.
- The filter installed is not an original Xiaomi filter, which may cause compatibility issues or reduced performance.
Always use genuine Xiaomi replacement filters for optimal operation and to avoid warnings.

After replacing the filter, ensure you reset the filter life indicator in the Xiaomi Home app or on the device's control panel, if applicable.
