syvio BL312

Syvio Personal Blender Instruction Manual

Model: BL312 | Brand: syvio

INTRODUCTION

Thank you for choosing the Syvio Personal Blender. This powerful 600W blender is designed for quick and efficient blending of fruits and vegetables, perfect for shakes, smoothies, and more. It features durable 304 stainless steel blades, a safety lock mechanism, and comes with multiple BPA-free cups to suit various needs. Please read this manual thoroughly before use to ensure safe and optimal operation.

PACKAGE CONTENTS

Please verify that all items are included in your package:

- 1 x Main Body with 2-speed control
- 2 x 20 oz BPA-Free Sport Cups with Flip-Top Drinking Lids
- 2 x Party Mugs
- 1 x 10 oz Short Cup
- 1 x 2-leaf Blade for Grinding
- 1 x 4-leaf Blade for Blending
- 3 x Sealing Caps
- 1 x Instruction Manual

Image: A visual representation of all components included with the Syvio Personal Blender, such as the motor base, various cups, and blade attachments.

SETUP

1. **Prepare Ingredients:** Load your desired ingredients into the blending cup. Do not exceed the MAX fill line indicated on the cup.
2. **Attach Blade Assembly:** Twist the appropriate blade assembly (4-leaf for wet blending, 2-leaf for dry grinding) onto the open end of the cup until it is tightly sealed.
3. **Place on Base:** Invert the cup and blade assembly, then line up the cup's tabs with the slots on the motor base. Twist the cup clockwise to lock it securely into place. The blender will only operate when the cup is properly locked due to the safety lock feature.
4. **Connect Power:** Plug the blender into a standard electrical outlet (100 Volts).

Load the ingredients into the cup (do not exceed the MAX line)

Twist on the blade until the blade and cup are tightly sealed

Line up the cup's tabs on the base and twist to lock up

Press **I** or **II** to blend

OPERATING INSTRUCTIONS

The Syvio Personal Blender features a simple one-button operation with two speed settings.

- **Speed I (Soft Food):** Press the "I" button for blending softer ingredients like fruits for smoothies.

- **Speed II (Hard Food):** Press the "II" button for blending harder ingredients or for more powerful crushing, such as nuts or ice.
- **Pulse Function:** For controlled blending or chopping, press and release the desired speed button repeatedly.

2 Speed to Chop

MAINTENANCE AND CLEANING

Proper cleaning ensures the longevity and hygiene of your Syvio Personal Blender.

- **Easy Cleaning:** For quick cleaning, add a small amount of clear water to the blending cup and turn on the blender for a few seconds.

- **Dishwasher Safe:** All removable parts (cups, lids, blade assemblies) are dishwasher safe.
- **Motor Base:** The motor base should never be immersed in water. Wipe it clean with a damp cloth.
- **Storage:** Store the blender and its components in a dry place when not in use.

TROUBLESHOOTING

If you encounter issues with your Syvio Personal Blender, please refer to the following common solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Cup not properly locked into the base.	Ensure the cup's tabs are aligned and twisted clockwise until securely locked. The safety lock prevents operation if not correctly assembled.
Motor stops during operation.	Overload protection activated.	Unplug the blender, remove the cup, and reduce the amount of ingredients or add more liquid. Allow the motor to cool down for 15-20 minutes before resuming.
Ingredients are not blending smoothly.	Too little liquid or too many hard ingredients.	Add more liquid, or cut hard ingredients into smaller pieces. Use the pulse function or Speed II for tougher ingredients.
