Beurer GS435B

Beurer GS435B Glass Bluetooth Scale User Manual

Model: GS435B

1. Introduction

Thank you for choosing the Beurer GS435B Glass Bluetooth Scale. This smart digital bathroom scale is designed to provide accurate body weight and Body Mass Index (BMI) measurements, seamlessly connecting with the Beurer HealthManager Pro app for comprehensive health tracking. This manual provides essential information for the safe and effective use of your scale.

2. Safety Information

Please read these instructions carefully before using the device. Keep this manual for future reference. Failure to follow these instructions may result in injury or damage to the device.

- The scale is intended for weighing people.
- Do not step on the scale with wet feet or if the surface is wet, as this may cause slipping.
- Place the scale on a firm, flat surface to ensure accurate measurements. Avoid carpets or uneven floors.
- Keep the scale away from strong electromagnetic fields.
- Do not attempt to disassemble or repair the scale yourself. Contact customer support if issues arise.
- Keep batteries out of reach of children.

3. Setup

3.1 Battery Installation

Your Beurer GS435B scale requires batteries for operation. Locate the battery compartment on the underside of the scale. Insert the required batteries, ensuring correct polarity as indicated within the compartment. Close the battery cover securely.

3.2 Unit Selection (lbs/kg)

The scale can display measurements in pounds (lbs) or kilograms (kg). To switch between units, locate the unit selection switch or button, typically on the underside of the scale near the battery compartment. Select your preferred unit before taking a measurement.

3.3 App Connection (Bluetooth Pairing)

To utilize the smart features and track your data, connect your scale to the Beurer HealthManager Pro app. Download the app from your device's app store (available for Apple and Android). Follow the in-app instructions to pair your scale via Bluetooth. Ensure Bluetooth is enabled on your smartphone and the scale is within range.

4. Operating the Scale

4.1 Taking a Measurement (Step-On Technology)

The Beurer GS435B features simple step-on technology. To take a measurement, simply step onto the scale with bare feet. The scale will automatically turn on, display '0.0', and then show your weight. Remain still until the measurement stabilizes.

Image: A person's bare feet stepping onto the Beurer GS435B scale, demonstrating the step-on technology.

4.2 BMI Measurement and User Recognition

In addition to body weight, the scale measures your Body Mass Index (BMI). The scale can automatically recognize up to 8 personal profiles, making it convenient for multiple users in a household. Ensure your profile is set up in the HealthManager Pro app for accurate BMI calculation and data storage.

Image: A person's hand holding a smartphone displaying the Beurer HealthManager Pro app, with text indicating support for 8 users and automatic recognition.

4.3 Data Synchronization and Storage

Measurements are automatically synchronized with the Beurer HealthManager Pro app via Bluetooth. The scale can store up to 30 readings per user on the device itself, ensuring data is not lost even if your smartphone is not immediately available during a measurement. Once connected, the stored data will transfer to the app.

Image: Two pairs of feet on and near the scale, with text indicating that the scale stores the last 30 measurements per user.

4.4 Automatic Shut-Off

The scale is designed with an automatic shut-off feature to conserve battery life. After a few seconds of inactivity or once a stable measurement has been taken and the user steps off, the display will turn off automatically.

Image: A person holding the scale, with text indicating its automatic shut-off feature.

5. Maintenance

5.1 Cleaning

Clean the scale regularly with a slightly damp cloth. Do not use abrasive cleaning agents or immerse the scale in water. Ensure the scale is completely dry before storage or next use.

5.2 Storage

Store the scale in a dry, cool place, away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the scale when not in use.

5.3 Battery Replacement

When the battery is low, a low battery indicator will appear on the display. Replace all batteries with new ones of the same type to ensure continued accurate operation. Dispose of used batteries according to local regulations.

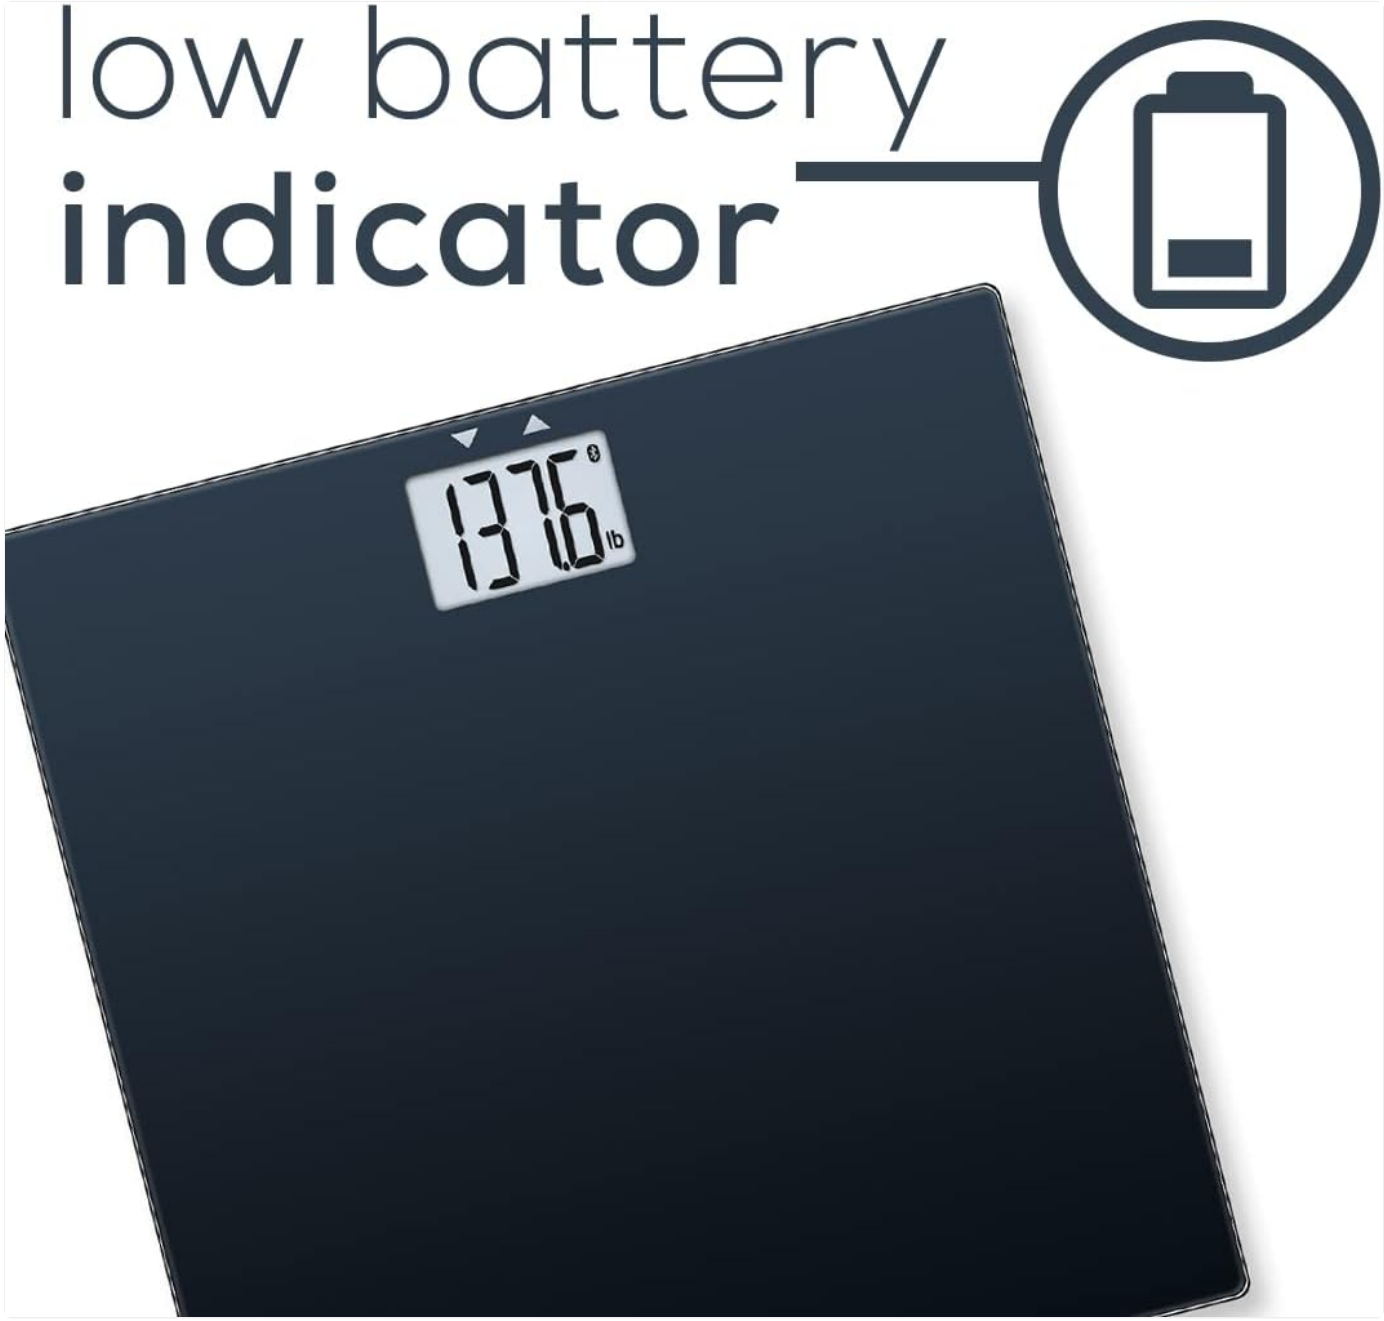

Image: The Beurer GS435B scale display showing a low battery indicator icon.

6. Troubleshooting

Problem	Possible Cause	Solution
Inaccurate or inconsistent readings	Scale on uneven surface; not calibrated; movement during measurement.	Place on a hard, flat surface. Briefly step on the scale to turn it on and let it show '0.0' before taking a measurement. Remain still.
Display shows 'Lo' or nothing	Low battery.	Replace all batteries.

Problem	Possible Cause	Solution
Bluetooth connection issues	Bluetooth off; scale out of range; app not open.	Ensure Bluetooth is on. Move closer to the scale. Open the Beurer HealthManager Pro app and follow pairing instructions.
No user recognition	User profile not set up in app; similar weight to another user.	Ensure your profile is correctly set up in the app. If multiple users have very similar weights, the scale may prompt for manual selection in the app.

7. Specifications

Model: GS435B

Product Dimensions: 14 x 14 x 2 inches

Weight: 4.01 Pounds

Manufacturer: Beurer

Color: Black

Weight Capacity: 400 lbs

Measurement Units: Kilograms (kg) and Pounds (lbs)

Display Type: LCD with Backlit Display

Special Features: Body Mass Index (BMI) measurement, Smart (Bluetooth connectivity), Auto Shut Off, Step-on Technology, User Recognition (up to 8 profiles), Stores 30 readings per user.
