Osprey Kyte 48L

Osprey Kyte 48L Women's Backpacking Backpack Instruction Manual

Model: Kyte 48L

PRODUCT OVERVIEW

The Osprey Kyte 48L is a women's-specific backpacking backpack designed for carrying gear through challenging environments. It is suitable for light weekend trips or extended day hikes. This pack is a certified bluesign product, emphasizing sustainable manufacturing practices.

SETUP AND FITTING

Torso Length Adjustment

The Kyte 48L features an adjustable torso length to ensure a proper fit. Adjust the harness system to align with your torso measurement for optimal comfort and load distribution.

Hipbelt and Harness Adjustment

The hipbelt and harness are designed for long-distance comfort and load support. The hipbelt is made with soft, padded spacer mesh, and the harness features edgeless spacer mesh. Adjust all straps to ensure a snug, comfortable fit that transfers the load effectively to your hips.

Airscape™ Backpanel

Offers adjustable torso lengths and provides a stable and breathable close-to-body carry even when the trail gets technical.

Image: Detailed view of the AirScape backpanel and adjustable harness system, highlighting the mesh padding.

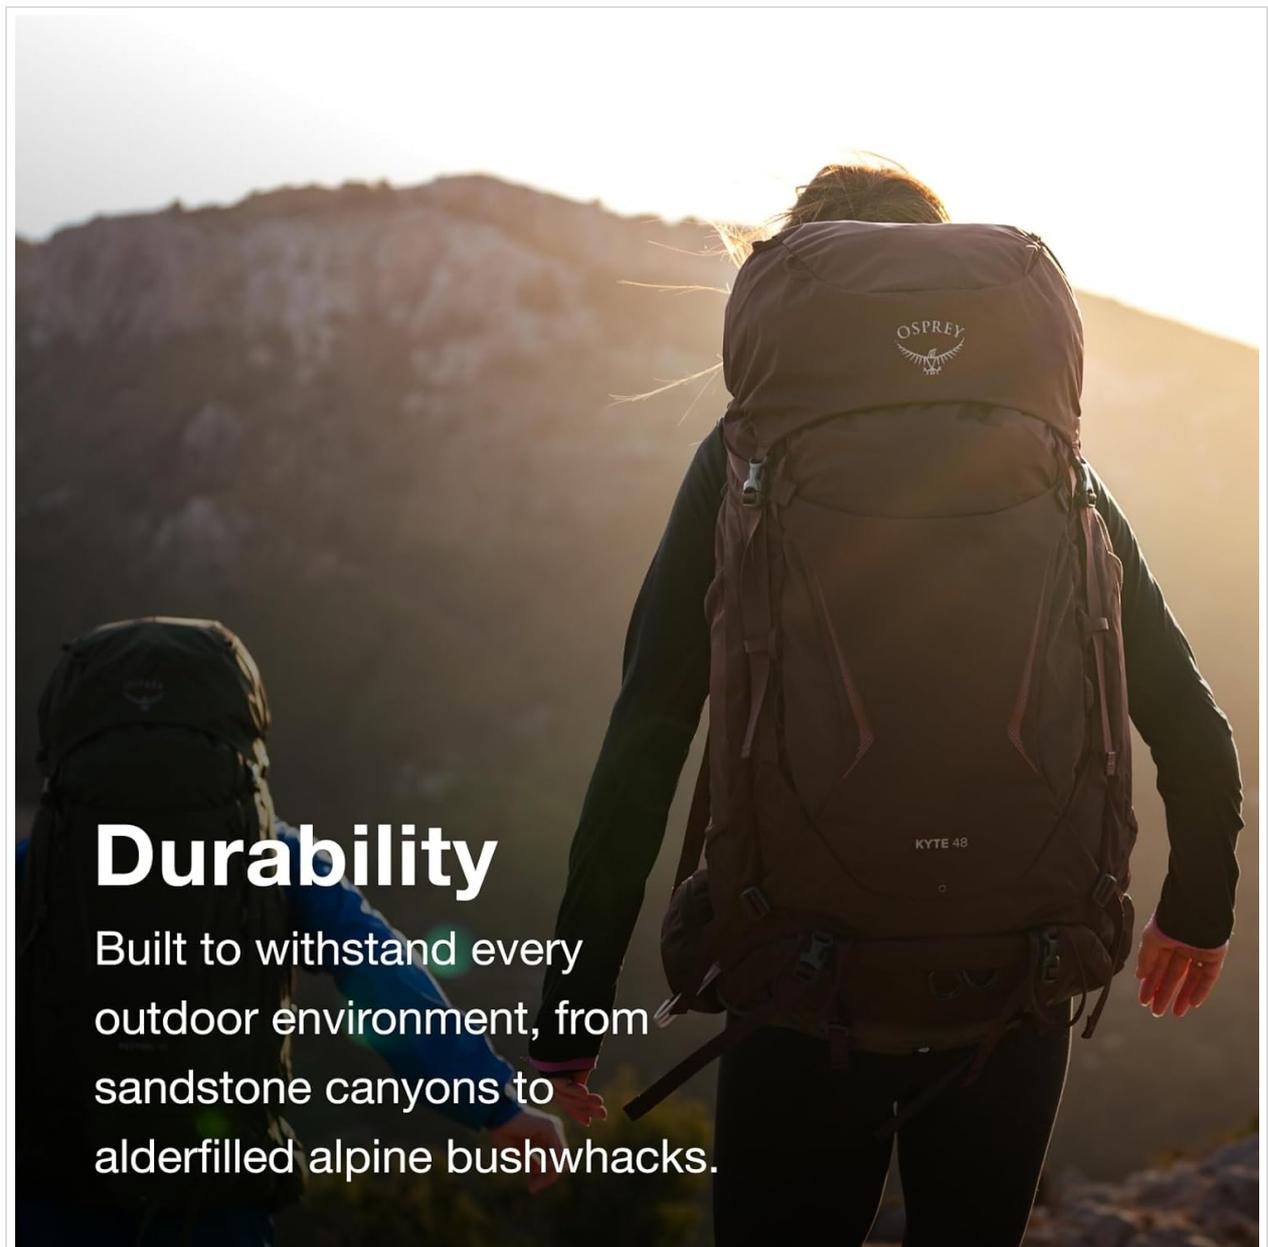

Image: Rear view of the backpack on a person, illustrating how the backpanel and hipbelt conform to the body.

Sternum Strap with Rescue Whistle

Secure the adjustable sternum strap across your chest. This strap includes an integrated rescue whistle for emergencies.

FEATURES AND COMPONENTS

- **AirScape Backpanel:** An injection-molded AirScape backpanel provides adjustable torso lengths and offers a stable, breathable close-to-body carry.
- **Fixed Hipbelt:** Designed for stability and comfort during extended use.
- **Integrated Raincover:** An included raincover is stored in a zippered pocket at the base of the pack, providing protection from wet weather.

Durability

Built to withstand every outdoor environment, from sandstone canyons to alderfilled alpine bushwhacks.

Image: The Osprey Kyte 48L backpack with its integrated raincover in use, covering the entire pack.

- **Top Lid with Pockets:** Features a large, zippered pocket on the top lid and an under-lid zippered mesh pocket with a key clip for secure storage of small items.

Image: A user opening the top lid of the backpack to access the main compartment and internal pockets.

- **Internal Reservoir Sleeve:** Includes a sleeve with a HydroClip for easy hanging of a hydration reservoir

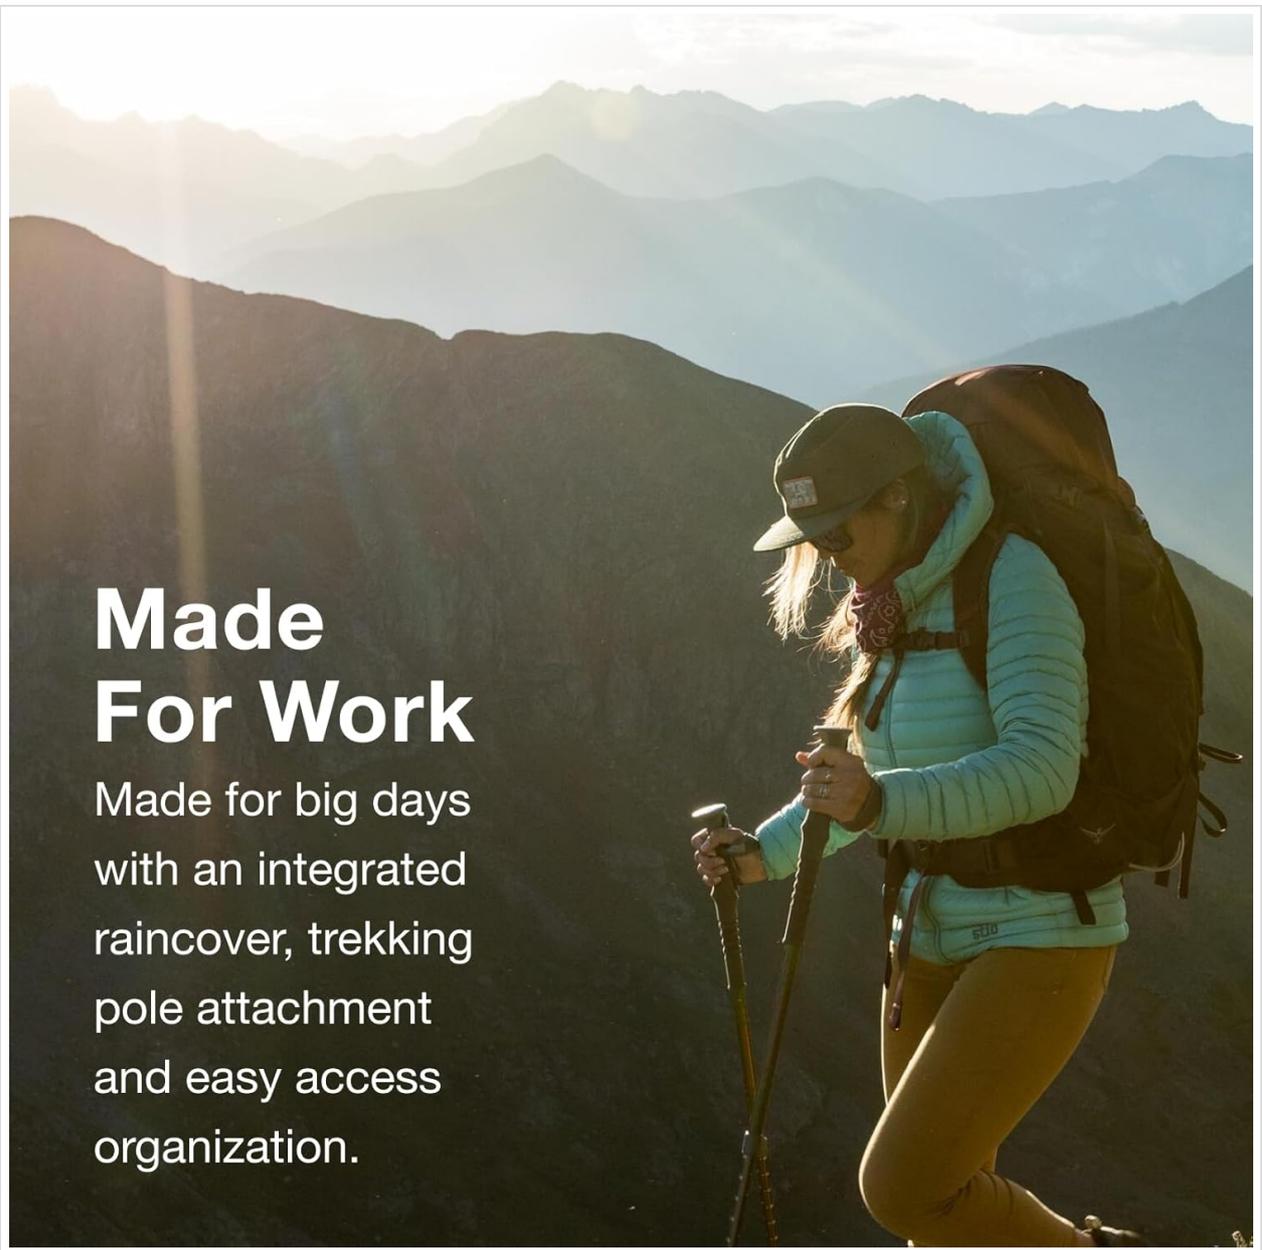

(reservoir not included).

- **Front Panel Shove-it Pocket:** A large front panel pocket with stretch mesh gussets for quick storage of extra layers or gear.

Image: The front panel shove-it pocket, demonstrating its capacity for quick-access items.

- **Trekking Pole Attachment:** Dual ice tool or trekking pole loops, along with quick-release upper side compression straps, allow for secure attachment of poles. Features a Stow-on-the-Go trekking pole attachment system.

Made For Work

Made for big days with an integrated raincover, trekking pole attachment and easy access organization.

Image: A user securing trekking poles to the side attachment points of the backpack.

- **Side Compression Straps:** Dual upper and lower side compression straps help stabilize the load and can be used for external gear attachment.
- **Sleeping Bag Compartment:** A zippered sleeping bag compartment with a floating divider allows for organized storage.

- **Removable Sleep Pad Straps:** External straps for securing a sleep pad or other bulky items.

Image: A sleeping pad secured to the bottom of the backpack using the removable sleep pad straps.

- **Stretch Mesh Side Pockets:** Dual stretch mesh pockets on the sides are ideal for water bottles or other quick-access items.

Image: A water bottle being placed into one of the stretch mesh side pockets, demonstrating its accessibility.

- **Zippered Hipbelt Pockets:** Convenient zippered pockets on the hipbelt for small essentials like snacks or a

phone.

Image: A user reaching into the zippered hipbelt pocket, showing its use for small, frequently accessed items.

- **Side Zip Access:** The 48L, 58L, and 68L models feature side zip access to the main compartment for easy loading and unloading.

OPERATING THE BACKPACK

To effectively use your Osprey Kyte 48L, ensure all straps are properly adjusted for your body. Load heavier items closer to your back and center of gravity. Utilize the various pockets and compartments for organized storage, keeping frequently accessed items in external pockets. The Stow-on-the-Go trekking pole attachment allows for quick storage and retrieval of poles without removing the pack.

MAINTENANCE

To maintain the longevity and performance of your Osprey Kyte 48L backpack, follow these general guidelines:

- **Cleaning:** Hand wash with mild soap and cool water. Do not use bleach or harsh detergents. Air dry thoroughly away from direct sunlight.
- **Storage:** Store the backpack in a cool, dry place when not in use. Ensure it is completely dry before storing to prevent mildew.
- **Repairs:** For significant damage, refer to the warranty information for repair or replacement options.

TROUBLESHOOTING

No specific troubleshooting steps are provided in the product information. For any issues encountered with your Osprey Kyte 48L backpack, please refer to the warranty and support section for assistance.
