The Blue Cactus Company BC_BATT_5K

The Blue Cactus 5000mAh Rechargeable Battery Pack for Reclining Furniture

MODEL: BC_BATT_5K

Manufactured by The Blue Cactus Company

Introduction

This manual provides essential information for the safe and efficient use of your Blue Cactus 5000mAh Rechargeable Battery Pack. This battery pack is designed to provide wireless power to your reclining furniture, offering flexibility in placement and reliable backup power during outages.

Key features include:

- **Universal Fit:** Compatible with all 2-pin chairs and 5-pin furniture via included Adapter Cords.
- **Lasting Charge:** Provides power for approximately 21-30 days under moderate use.
- **Cord-Free Operation:** Eliminates the need for constant wall outlet connection, reducing cord clutter and trip hazards.
- **Easy Setup:** Simple plug-and-play installation.
- **LED Display:** Features an LED display and low-power alert for easy monitoring of charge status.
- **Dual Recliner Support:** Includes a 47" Y-splitter cord to power two motors simultaneously.

What's in the Box

Verify that all components are present in your package:

- 1x 5000mAh Battery
- 1x 47" Charging Cord
- 1x Power Transformer
- 1x 47" Y-splitter
- 1x 47" Extension Cord

Image: All components included in the Blue Cactus 5000mAh Battery Kit.

Setup and Installation

Follow these steps to install your Blue Cactus 5000mAh Rechargeable Battery Pack:

1. **Connect the Battery to the Chair:** Locate the power input port on your reclining furniture. For standard 2-pin chairs, simply plug the battery's female connector into the chair's male port. If your furniture has a 5-pin connection, use the included Adapter Cords to ensure compatibility.
2. **Position the Battery:** Once connected, place the battery neatly under your recliner. Its compact design allows it to remain out of sight, maintaining a clean, cord-free aesthetic.

Operating Instructions

Once installed, your reclining furniture will operate as usual, but now with the freedom of wireless power. The battery pack automatically provides power to your furniture.

- **Power On/Off:** The battery pack features a power button and an LED display. Press the power button to activate the battery. The LED display will show the current charge level.
- **Recliner Operation:** Use your furniture's existing controls to recline, adjust, or activate any features. The battery ensures smooth and consistent operation.
- **Dual Recliner Use:** If you are powering two recliners with the included Y-splitter, both recliners will function simultaneously without a noticeable decrease in performance.

Image: The battery pack provides complete safety in outages, allowing continued use of your recliner.

Charging

To charge your Blue Cactus 5000mAh Rechargeable Battery Pack:

1. **Connect Charger:** Plug the provided Power Transformer into a standard wall outlet. Connect the Charging Cord to the Power Transformer and then to the 'IN' port on the battery pack.
2. **Monitor Charge:** The LED display on the battery pack will show the charging progress. A full charge typically takes approximately 7 hours.
3. **Usage Duration:** A fully charged battery pack should last approximately 21-30 days under moderate use. This duration may vary based on the frequency of use and the power draw of your furniture (e.g., presence of LEDs or USB ports).
4. **Charge While Using:** The battery pack can be charged while simultaneously powering your furniture. This allows for continuous operation without interruption.

Compatibility

The Blue Cactus 5000mAh Rechargeable Battery Pack is designed for broad compatibility:

- **2-Pin Connectors:** Directly compatible with most reclining furniture that uses a standard 2-pin male plug (one flat, one round pin).
- **5-Pin Connectors:** For furniture with 5-pin male plugs (five pins located in the upper part of the circle or across the circle, common with La-Z-Boy), use the included Adapter Cords.

Troubleshooting

- **Battery Drains Quickly:** Some recliners, especially those with extra features like LED lights or USB ports, may experience 'Ghost Drainage' (standby power loss) even when not in use. This is normal for certain furniture models and may require more frequent charging. Consider adding a battery life extender kit (sold separately) to mitigate this.
- **Low Power Alert:** The battery pack is equipped with a low-power alert system to notify you when charging is needed, preventing unexpected power loss.
- **No Power to Furniture:** Ensure all connections are secure and correctly plugged into the battery pack and the furniture. Check the LED display on the battery to confirm it is powered on and has sufficient charge.

Image: The Battery Life Extender Kit can help reduce 'Ghost Drainage' for furniture with high power draw features.

Specifications

Model Number	BC_BATT_5K
Battery Capacity	5000 Milliamp Hours (mAh)
Battery Cell Composition	Lithium Ion
Voltage	25.9 Volts
Amperage	2.5 Amps
Reusability	Rechargeable
Battery Weight	1.9 Pounds

Item Dimensions	12.5 x 2.5 x 8.3 inches
Recommended Uses	Adjustable Beds, Electric sofas, Lift chairs, Loveseats, Power Recliners, Power sectionals

Safety Information

Please read and follow these safety guidelines to ensure safe operation and prolong the life of your battery pack:

- Do not expose the battery pack to extreme temperatures, direct sunlight, or moisture.
- Do not disassemble, puncture, or modify the battery pack.
- Use only the provided charging cord and power transformer.
- Keep out of reach of children and pets.
- If the battery pack shows signs of damage, overheating, or leakage, discontinue use immediately and contact support.
- Dispose of the battery pack according to local regulations for lithium-ion batteries.
