## Blade Maid Blade Maid Kit- 3ft Pole

# Blade Maid Ceiling Fan Blade Cleaner & Duster

Model: Blade Maid Kit- 3ft Pole

Brand: Blade Maid

## INTRODUCTION

---

The Blade Maid Ceiling Fan Blade Cleaner & Duster is designed to simplify cleaning high and hard-to-reach areas in your home and vehicle. This versatile kit includes an extendable pole, a specialized fan blade cleaning head, and a flexible dusting brush, all equipped with reusable microfiber pads to effectively capture dust, dirt, and grime.

## Kit Contents

Your Blade Maid Cleaning Kit includes the following components:

- (1) 3-foot Adjustable Pole
- (1) Fan Blade Cleaning Head
- (1) Flexible Dusting Brush Head
- (2) Reusable Microfiber Pads

Image: A visual representation of the Blade Maid kit components, including the adjustable pole, fan blade cleaner head, flexible dusting brush head, and two microfiber pads.

## SETUP

1. **Assemble the Pole:** The adjustable pole consists of multiple sections. Twist the sections to extend or retract the pole to your desired length. Secure the sections by twisting them tightly. The pole extends up to 3 feet.
2. **Attach Cleaning Head:**
  - **For Fan Blade Cleaner:** Screw the fan blade cleaning head onto the threaded end of the adjustable pole. Ensure it is securely fastened.
  - **For Flexible Dusting Brush:** Screw the flexible dusting brush head onto the threaded end of the adjustable pole. Ensure it is securely fastened.
3. **Prepare Microfiber Pads:** The fan blade cleaning head comes with two microfiber pads attached via Velcro. Ensure these pads are clean and securely attached before use.

## OPERATING INSTRUCTIONS

### Using the Fan Blade Cleaner

1. **Ensure Fan is Off:** Always ensure the ceiling fan is completely turned off and stationary before cleaning to prevent injury.
2. **Position the Cleaner:** Gently slide the fan blade cleaning head over a single fan blade. The four-sided microfiber sleeve is designed to grip blades up to 7 3/8 inches, cleaning both the top and bottom surfaces simultaneously.
3. **Clean the Blade:** Slowly pull the cleaner along the entire length of the fan blade. The microfiber pads will trap dust and grime, preventing it from falling onto your furniture or floor.
4. **Repeat:** Rotate the fan blades manually and repeat the process for each blade until all are clean.

Image: The Blade Maid cleaner head wrapped around a ceiling fan blade, demonstrating its ability to clean all sides at once.

## Using the Flexible Dusting Brush

1. **Adjust Brush Shape:** The flexible dusting brush can be bent and shaped to fit various surfaces and angles, such as moldings, blinds, light fixtures, and tight corners.
2. **Dust Surfaces:** Use the extended pole with the flexible dusting brush to reach and clean high or awkward areas. The microfiber material effectively attracts and holds dust.
3. **Versatile Use:** This tool is also suitable for cleaning car interiors, walls, and other household surfaces.

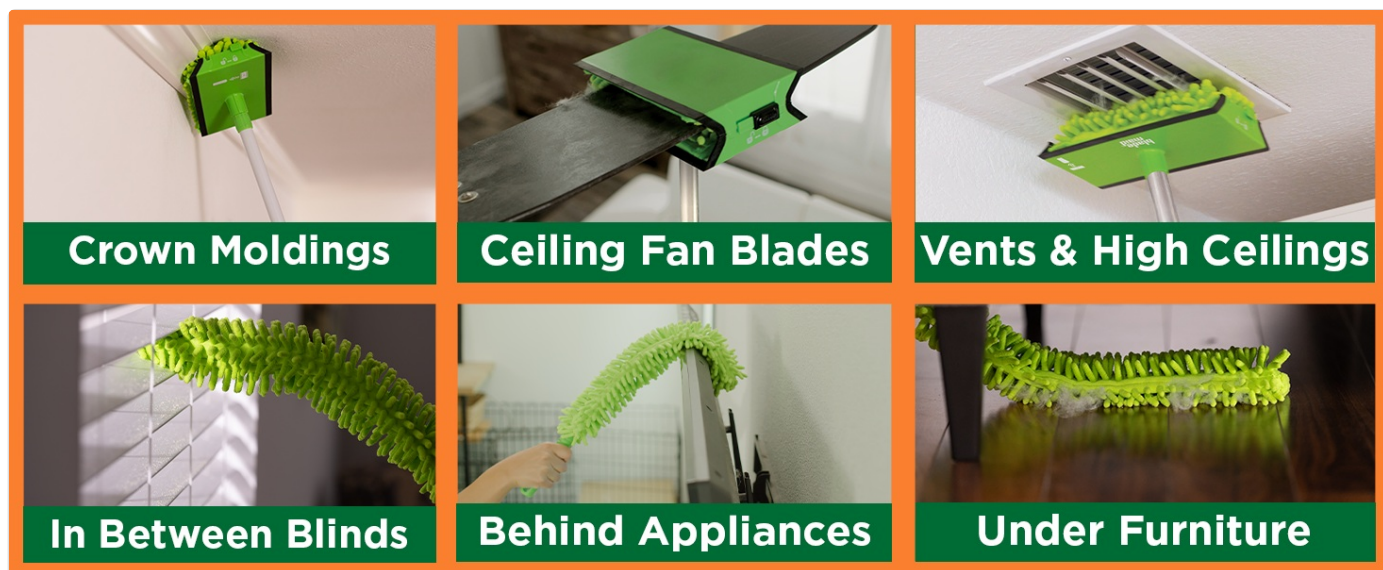

Image: A collage illustrating the versatility of the Blade Maid, showing its use on crown moldings, ceiling fan blades, vents, blinds, behind appliances, and under furniture.

## MAINTENANCE

1. **Remove Microfiber Pads:** After use, unlock the fan blade cleaning head (if applicable) and detach the microfiber pads from the Velcro strips. For the flexible dusting brush, simply slide off the microfiber sleeve.
2. **Washing Instructions:** The microfiber pads are machine washable. Wash them with similar colors in cold water. Do not use bleach or fabric softener. Tumble dry on low heat or air dry.
3. **Reattach Pads:** Once dry, reattach the clean microfiber pads to the cleaning heads, ensuring they are securely fastened for the next use.

**TinkerHome**

**These microfiber duster pads come off in seconds, wash up fast, and go right back on to reuse.**

Image: Hands placing the microfiber cleaning pads into a washing machine, demonstrating their reusability and ease of cleaning.

## TROUBLESHOOTING

- **Dust Falling During Cleaning:** Ensure the microfiber pads are clean and properly fluffed. For heavily soiled fans, consider dampening the pads slightly with water or a cleaning spray (test on an inconspicuous area first). The four-sided design is intended to minimize dust fall, but excessive build-up may require multiple passes or pre-dusting.
- **Difficulty Reaching High Areas:** Fully extend the adjustable pole. If additional reach is needed, the cleaning heads are designed to fit standard 3/4 inch threaded extension poles (sold separately).
- **Pads Not Gripping Blade:** Ensure the fan blade is within the 7 3/8 inch width capacity of the cleaning head. Check that the Velcro is clean and the pads are securely attached.

## SPECIFICATIONS

| Feature                | Detail                        |
|------------------------|-------------------------------|
