Installation Instructions

This ceiling light fixture is designed for quick and easy installation. All necessary mounting hardware is included. Please ensure power is turned off at the circuit breaker before beginning installation.

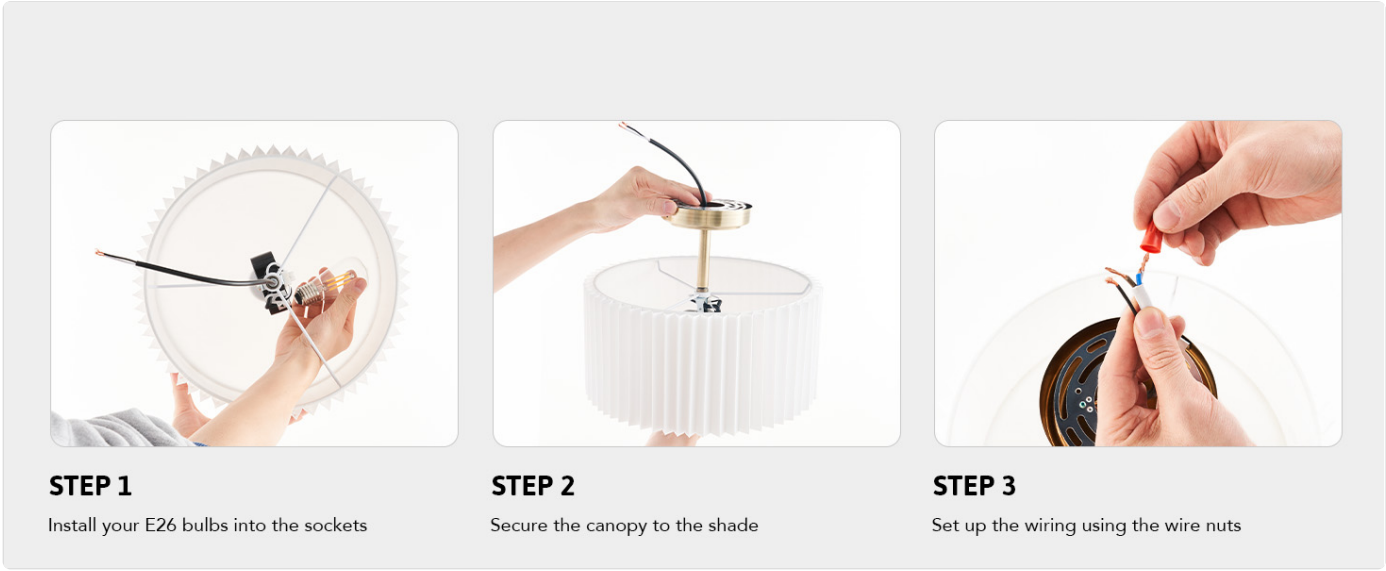

Image: Step-by-step visual guide for installation, showing how to install E26 bulbs, secure the canopy to the shade, and set up the wiring.

1. **Step 1: Install E26 Bulbs.** Screw your chosen E26 bulbs (not included) into the sockets.
2. **Step 2: Secure the Canopy.** Attach the canopy to the shade, ensuring it is firmly in place.
3. **Step 3: Wiring.** Connect the fixture's wires to your household wiring using the provided wire nuts. Ensure proper neutral, live, and ground connections.
4. **Step 4: Mount to Ceiling.** Secure the assembled light fixture to the ceiling junction box using the mounting hardware.

Operating Instructions

Once installed, the VONLUCE Semi Flush Mount Ceiling Light operates via your standard wall switch. For enhanced control over lighting ambiance, this fixture is compatible with dimmer switches (not included).

Image: Visual demonstration of the light fixture's appearance when turned on versus off, illustrating its impact on room illumination.

To achieve different lighting effects, ensure you use dimmable E26 bulbs with a compatible dimmer switch. The light color may appear different depending on the hue of the installed bulbs (warm or cool white).

Maintenance

To maintain the appearance and functionality of your VONLUCE ceiling light, follow these simple guidelines:

- **Cleaning:** Gently wipe the metal parts with a soft, dry cloth. For the fabric shade, use a soft brush or a lint roller to remove dust. Avoid using abrasive cleaners or solvents, as these can damage the finish and fabric.
- **Bulb Replacement:** Always turn off the power at the circuit breaker before replacing bulbs. Allow bulbs to cool completely before handling.
- **Inspection:** Periodically check all connections and mounting hardware to ensure they remain secure.

Troubleshooting

If you encounter issues with your ceiling light, consider the following common troubleshooting steps:

- **Light Not Turning On:**
  - Check if the circuit breaker is tripped.
  - Ensure bulbs are securely screwed into their sockets and are not burnt out.
  - Verify that all electrical connections are secure. A common issue can be loose neutral wire connections; ensure the neutral wire is connected first during installation.
- **Flickering Light:**
  - Confirm that the bulbs are compatible with your dimmer switch (if installed).
  - Check for loose wiring connections at the fixture or wall switch.
- **Dimmer Not Working:**
  - Ensure you are using dimmable bulbs.
  - Verify that the dimmer switch itself is compatible with LED/CFL bulbs if you are using them.

If problems persist after attempting these steps, it is recommended to consult a qualified electrician.

Specifications

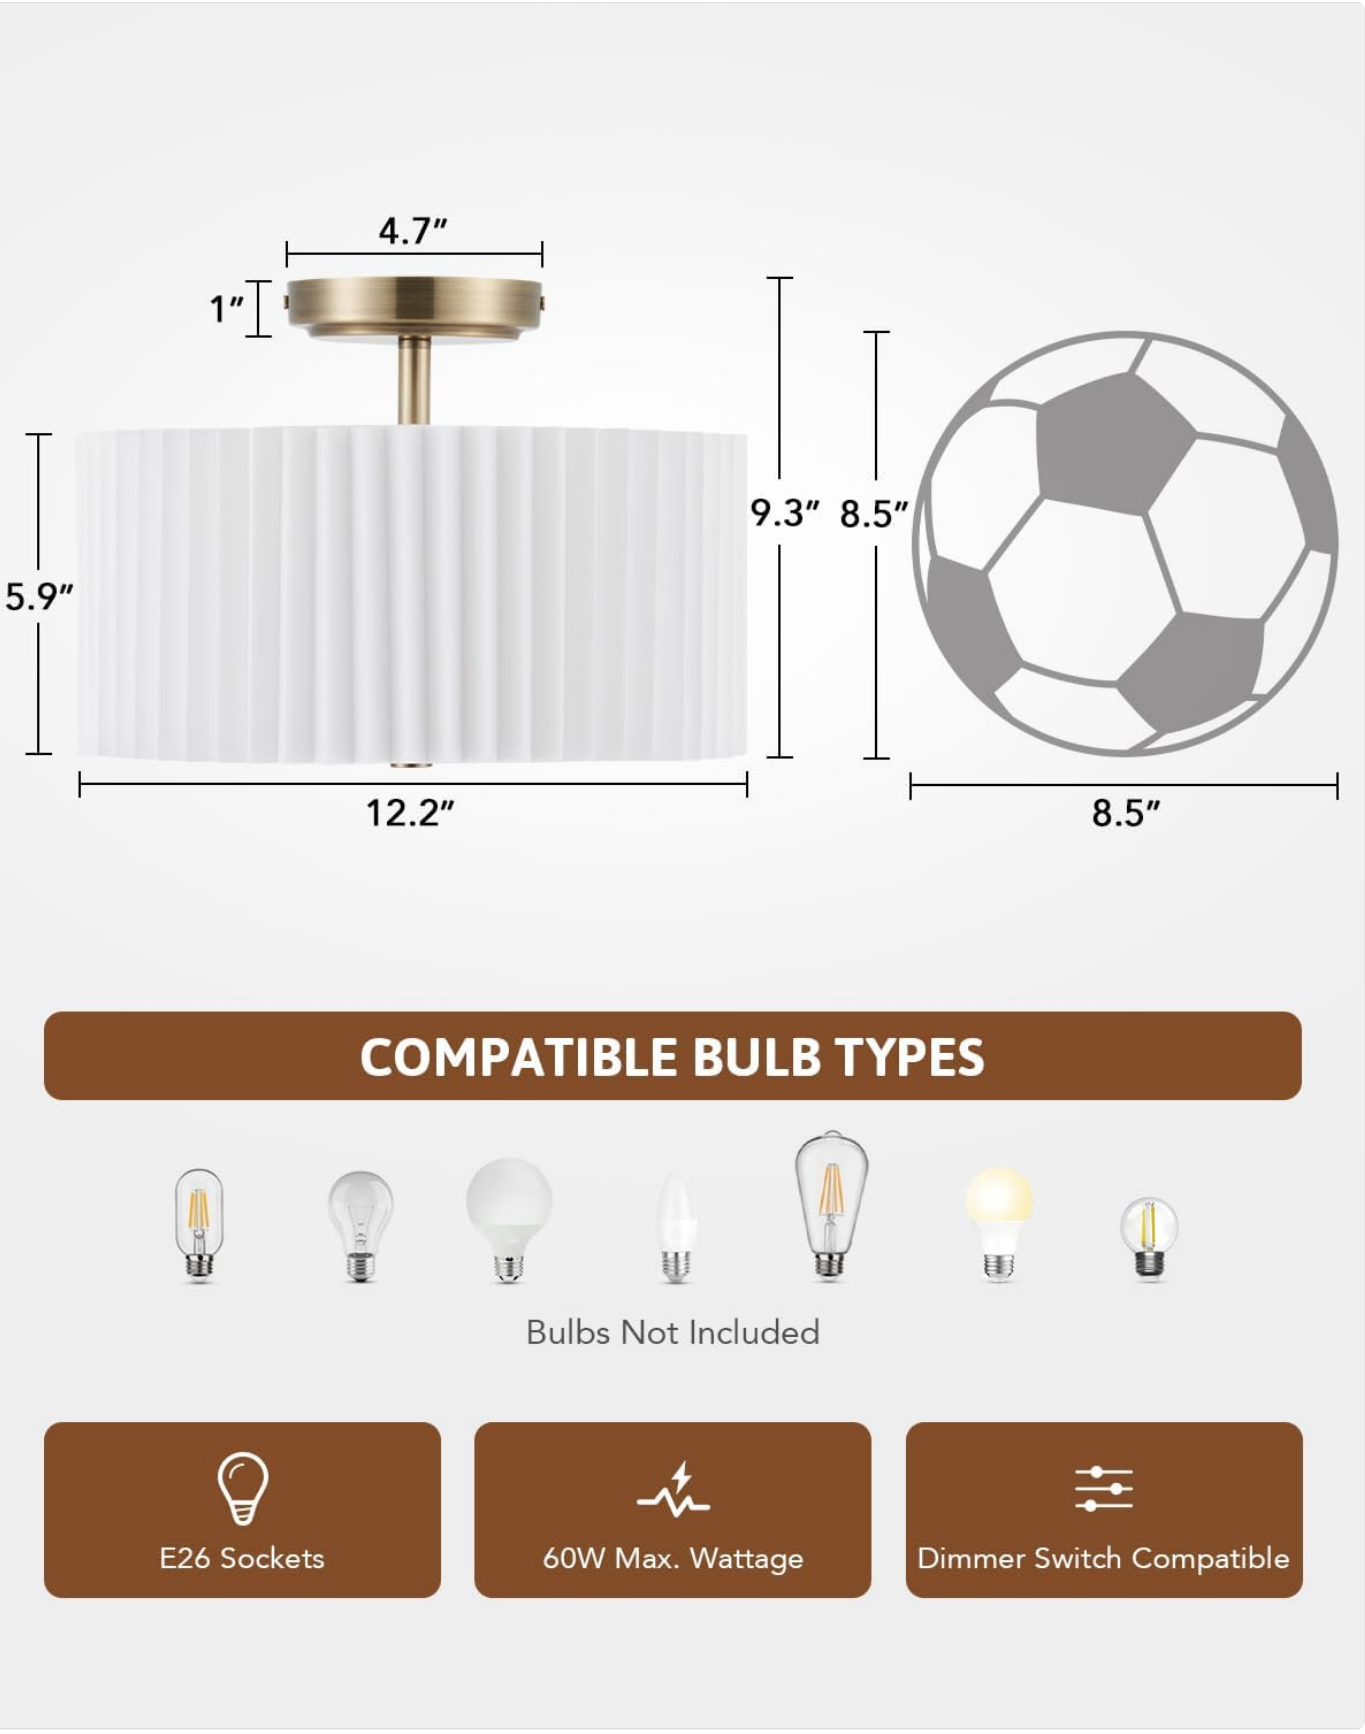

Image: Technical specifications including product dimensions (12.2"L x 9.3"W x 12.2"H) and compatible E26 bulb types (CFL, LED, Incandescent) up to 60W.

Specification	Detail
